

1	Haut (Cutis)	60	Os sphenoidale	124	Fissura orbitalis
2	Fettgewebe	61	Schalleitungsapparat:	125	Insula
3	Artefakte		Malleus (a), Incus (b), Stapes (c)	126	Gyrus cinguli
4	Luft	62	Cellulae mastoideae, Antrum mastoideum (a)	127	Sulcus lateralis Sylvii
5	Faszie, Septum, Bindegewebe	63	Meatus acusticus int. (a) ext. (b)	128	Sulcus centralis, präcentralis (a)
6	Lymphknoten	64	Canalis caroticus	129	Gyrus praecentr. (a), postcentr. (b)
7	tumoröse Raumforderung, Metastase	65	Canalis facialis	130	Falx cerebri
8	Erguß, Blutung	66	Cavum tympani, Membrana tymp. (a)	131	Tentorium cerebelli
9	Spongiosa	67	Tuba auditiva, Rec. pharyngeus	132	Liquor
10	M. sternocleidomastoideus	68	Cochlea	133	Seitenventrikel, Septum pellucidum (a)
11	M. sternohyoideus / sternothyroideus	69	Vestibulum: Utriculus / Sacculus	134	III. Ventrikel
12	Mm. scaleni	70	Canales semicirculares lat. (a), ant. (b), post. (c)	135	IV. Ventrikel
13	M. deltoideus	71	Foramen (a) und Processus (b)	136	Aquaeductus mesencephali
14	M. latissimus dorsi		stylomastoideum / styloideus	137	Cisterna basalis
15	M. teres major	72	N. facialis	138	Cisterna pontis / pontocerebellaris
16	M. teres minor	73	Sinus sphenoidalis	139	Cisterna ambiens
17	M. levator scapulae	74	Os (Cellulae) ethmoidale(s)	140	Cisterna pericallosa
18	M. subscapularis	75	Sinus maxillaris	141	Foramen monroi
19	M. supraspinatus	76	Sinus frontalis	142	Bulbus / N. olfactorius
20	M. infraspinatus	77	Cavum nasi	143	Centrum semiovale / corona radiata
21	M. rhomboideus	78	Canalis- / Nervus opticus	144	Tractus opticus
22	M. erector spinae	79	Fossa pterygopalatina	145	Chiasma opticum
23	M. trapezius	80	Foramen magnum	146	Hypophyse, Fossa hypophysealis
24	M. serratus anterior	81	Trachea, Bifurcatio (a), Bronchien (b)	147	Infundibulum
25	M. splenius capitis / cervicis	82	Ösophagus	148	Corpus pineale (Epiphyse)
26	M. longus colli / capitis	83	Gld. thyreoidea	149	Fornix
27	M. longissimus colli / capitis	84	Pulmo	150	Bulbus oculi, Lens (a)
28	M. semispinalis capitis	85	A. carotis comm., int. (a), ext. (b)	151	Glandula lacrimalis
29	M. semispinalis cervicis	86	V. jugularis int. (a), ext. (b), ant. (c)	152	Ductus lacrimalis
30	Mm. multifidi	87	A. thyroidea superior	153	Gld. parotis
31	M. digastricus	88	A. vertebralis	154	Gld. submandibularis
32	M. rectus / obliquus capitis	89	Äste der A. / V. facialis / angularis	155	Lingula, Gld. sublingualis (a)
33	M. genioglossus, M. geniohyoideus	90	A. basilaris	156	Tonsillen
34	M. mylohyoideus	91	A. cerebri ant. (a), med. (b), post. (c)	157	Waldeyer Rachenring
35	M. constrictor pharyngis: inf. (a), med. (b)	92	A. communicans ant. (a), post. (b)	158	Zähne (Dentes)
36	Mm. pterygoidei med. (a) / lat. (b)	93	Aa. pericallosae	159	Os hyoideum
37	M. levator veli palatini	94	Aa. insulares	160	Condylus occipitalis
38	M. tensor veli palatini	95	A. cerebelli sup. (a), ant. inf. (b)	161	Processus pterygoideus
39	M. palatopharyngeus	96	A. / V. temporalis superficialis	162	Crista galli
40	M. thyrohyoideus	97	A. lingualis	163	Processus clinoideus, dorsum sellae
41	M. stylohyoideus	98	A. pharyngea ascendens	164	Protuberantia occ. ext.
42	M. masseter	99	V. retromandibularis	165	Protuberantia occ. int.
43	M. temporalis	100	V. cerebri magna (Galen)	166	Conchae nasales
44	M. buccinator	101	Sinus sagittalis sup. (a), occ. (b)	167	Cartilago cricoidea
45	M. orbicularis oris	102	Sinus transversus, rectus (a)	168	Cartilago arytenoidea
46	M. levator palpebrae / M. orbicularis oculi	103	Sinus sigmoideus	169	Cartilago thyroidea
47	äußere Augenmuskeln: M. rectus sup. (a), inf. (b), M. rectus med. (c), lat. (d), M. obliquus sup. (e), inf. (f)	104	Cerebellum	170	Epiglottis
48	Platysma, M. risorius	105	Vermis cerebelli	171	Plica aryepiglottica
49	M. nasalis, levator labii sup.	106	Mesencephalon	172	Recessus piriformis
50	Corp. vertebr.: Atlas (a), Dens axis (b), Proc. spin. (c), articul. (d), Disc. intervert. (e), Proc. transv. / costalis (f)	107	Pons, Medulla oblongata	173	Vestibulum laryngis
51	Costa	108	Pedunculi cerebelli	174	Vestibulum / Cavum oris
52	Clavicula	109	Pedunculi- / Crura cerebri	175	Uvula, Palatum molle
53	Scapula: Acromion (a), Spina scapulae (b), Proc. coracoideus (c), Facies glenoidalis (d)	110	Lobus temporalis	176	Pharynx
54	Canalis vertebralis mit Rückenmark	111	Lobus frontalis	177	Plica vocalis
55	Schädelkalotte: Ossa front. (a), temp. (b), pariet. (c), occ. (d)	112	Lobus occ., Area striata (a)	178	Rima glottis
56	Os zygomaticum, Arcus (a)	113	Lobus parietalis	179	Ligamentum nuchae
57	Os maxillare, Palatum durum (a)	114	Corpus mamillare	180	Infarktarea, Odemzone
58	Os mandibulare, Caput (a)	115	Gyrus angularis	181	Abszess / Einschmelzung
59	Septum nasi, Os nasale (a)	116	Corpus callosum	182	Katheter, Tubus, Sonde
		117	Nucleus caudatus	183	A. / V. cervicalis profunda
		118	Putamen	184	Ganglion / N. spinalis
		119	Globus pallidus	185	Plexus cervicalis
		120	Thalamus	186	Äste des N. trigeminus
		121	Capsula interna	187	Plica aryepiglottica
		122	Capsula externa	188	Frakturspalt
		123	Plexus choroideus
