

Table of Contents

Preface	9
Introduction	11
Thorax	21
Thorax – lateral view (vertical beam)	24
Thorax – dorsoventral view (vertical beam)	26
Thorax – ventrodorsal view (vertical beam)	28
Thorax – thoracic inlet (dorsocranio-ventrocaudal oblique) ..	30
Thorax – lateral view (horizontal beam)	32
Thorax – ventrodorsal view (horizontal beam)	34
Abdomen	37
Abdomen – lateral view (vertical beam)	40
Abdomen – lateral view for male urethra (vertical beam)	42
Abdomen – ventrodorsal view (vertical beam)	44
Abdomen – dorsoventral view (vertical beam)	46
Abdomen – lateral view (horizontal beam)	48
Abdomen – ventrodorsal view (horizontal beam)	50
Head	53
Head – lateral view	56
Head – dorsoventral view	58
Head – ventrodorsal view	60
Head – oblique views for maxilla	62
Head – frontal view	64
Head – fronto-occipital view for occipital bone and foramen magnum	66
Head – open-mouth view for tympanic bullae, C1, and odontoid process	68
Head – lateral oblique view for temporomandibular joints ..	70
Head – lateral oblique view for tympanic bullae	72
Mandible	74
Mandible – ventrodorsal intraoral view	76
Mandible – oblique view	78

Nasal Passages, Paranasal Sinuses, and Maxillary Region	80
Nasal study – ventrodorsal open-mouth view	82
Nasal study – dorsoventral intraoral view	84
Dental Studies	86
Dental studies – oblique view of upper premolars and molars	88
Dental studies – oblique view of lower premolars and molars	90
Dental studies – upper incisors	92
Dental studies – lower incisors	94
Pharyngeal studies	96
Pharyngeal study – lateral view	98
Spine	101
Spine – Occipito-atlanto-axial Region	104
Occipito-atlanto-axial region – lateral view	106
Occipito-atlanto-axial region – ventrodorsal view	108
Occipito-atlanto-axial region – lateral view for odontoid process	110
Occipito-atlanto-axial region – fronto-occipital view	112
Occipito-atlanto-axial region – open-mouth view for odontoid process	114
Spine – Cervical Region	116
Cervical spine – lateral view	118
Cervical spine – ventrodorsal view	120
Spine – Cervicothoracic Region	122
Cervicothoracic spine – lateral view	124
Cervicothoracic spine – ventrodorsal view	126
Spine – Thoracic Region	128
Thoracic spine – lateral view	130
Thoracic spine – ventrodorsal view	132
Spine – Thoracolumbar Region	134
Thoracolumbar spine – lateral view	136
Thoracolumbar spine – ventrodorsal view	138

Spine – Lumbar Region	140
Lumbar spine – lateral view	142
Lumbar spine – ventrodorsal view	144
Spine – Lumbosacral Region	146
Lumbosacral spine – lateral view	148
Lumbosacral spine – ventrodorsal view	150
Pelvic Region	153
Pelvis and hip joints – lateral view	156
Pelvis and hip joints – ventrodorsal view	158
Hip joints – lateral view	160
Hip dysplasia study – ventrodorsal view with limbs extended .	162
Hip dysplasia study – ventrodorsal view with limbs flexed (“frog-leg”)	164
Hip dysplasia study – ventrodorsal view using fulcrum technique	166
Hip dysplasia study – ventrodorsal view using a stressed half-axial view	168
Hip dysplasia study – ventrodorsal view using a compression-distraction stress method (2 views)	170
Forelimb	173
Scapula	176
Scapula – lateral view – neutral position	178
Scapula – lateral view in dorsal displacement	180
Scapula – caudocranial (ventrodorsal) view	182
Shoulder	184
Shoulder – lateral view in neutral position	186
Shoulder – lateral view in stressed positions	188
Shoulder – caudocranial (ventrodorsal) view	190
Shoulder – craniocaudal view	192
Humerus	194
Humerus – lateral view	196
Humerus – craniocaudal view with limb extended	198
Humerus – craniocaudal view with limb flexed	200
Humerus – caudocranial view with horizontal beam	202

Elbow	204
Elbow – lateral view	206
Elbow – craniocaudal view with vertical beam	208
Elbow – craniocaudal view with horizontal beam	210
Antebrachium	212
Antebrachium – lateral view	214
Antebrachium – craniocaudal view with vertical beam	216
Carpus, Metacarpus, and Digits	218
Carpus, metacarpus, and digits – lateral view	220
Carpus, metacarpus, and digits – dorsopalmar view	222
Digits – lateral view	224
Hindlimb	227
Femur	230
Femur – lateral view	232
Femur – lateral view (alternative view)	234
Femur – craniocaudal view with limb extended	236
Femur – caudocranial view with horizontal beam	238
Stifle	240
Stifle – lateral view	242
Stifle – caudocranial view	244
Stifle – caudocranial view with horizontal beam	246
Patella – proximodistal view with limb flexed	248
Patella – caudocranial view with horizontal beam	250
Tibia and Fibula	252
Tibia and fibula – lateral view	254
Tibia and fibula – caudocranial view	256
Tarsus, Metatarsus, and Digits	258
Tarsus, metatarsus, and digits – lateral view	260
Tarsus, metatarsus, and digits – plantarodorsal view	262
Tarsus, metatarsus, and digits – dorsoplantar view	264
Digits – lateral view	266
