Foreword	VII	Paramyxovirus-1 infection	46
Preface	VIII	Herpesvirus infection	49
Acknowledgements	IX	Falconpox	53
		Influenza	56
1 Falcons and Falconry in the Middle East	1	4 Bacterial Diseases	58
2 Haematology and blood biochemistry	12	Haematological picture of falcons with bacterial infections	60
Method for blood sample collection	12	Clostridium perfringens enterotoxaemia	62
Automated haematology system	14	Chlamydophilosis	66
Blood film preparation and staining	16	Colisepticaemia	68
Reference ranges	17	Pseudomonas septicaemia	71
Glossary of terms	20	Pasteurellosis	73
Morphology of normal falcon blood cells	20	Mycoplasmosis	74
The different anaemias in birds	21	Salmonellosis	75
Haemorrhagic anaemia	21	Tetanus	77
Haemolytic anaemia	21	Tuberculosis	78
Depression anaemia	21	5 Fungal Diseases	81
Pictures of normal haematology of different falcon species	22	Haematology pictures of aspergillosis	83
Abnormalities in falcon leukocytes	32	Aspergillosis	84
Toxic changes in heterophils	32	Other fungal diseases	88
Abnormal lymphocytes	32	Candidiasis	90
Appearance of unusual cells	32	6 Parasitic Diseases	92
Falcon leukogramme	33	Protozoa	92
Leucocytosis	33	Haemoprotozoa	93
Leukopenia	33	Malaria	93
Haematological pictures of abnormal leukocytes	33	Babesiosis	94
Blood biochemistry	36	Haemoproteosis	95
		Leucocytozoonosis	96
3 Viral Diseases	43	Protozoa of the alimentary tract	97
Haematological pictures of falcons with viral infections	43	Trichomonosis (Frounce)	97
		Flagellate enteritis	99
		Coccidiosis	99
		Helminths	102

Serratospiculosis	102
Capillariosis	106
Trichinellosis	106
Other helminths	107
Nematodes	107
Anisakidae	108
Cestodes (Tapeworms)	110
Trematodes (Flukes)	111

7 Miscellaneous Diseases 112

Poor performance	113
Bumblefoot	114
Amyloidosis	116
Gout	119

Lead intoxication	122
Ammonium chloride (schnather) intoxication ...	124

8 Diseases of Unknown Aetiology ... 126

Brain	126
Muscle	127
Liver	127

9 Vaccination Regime 129
