Part I – Thematic Chapters

Harry van der Hulst

1 Word accent	3
1.1 Introduction	3
1.2 Basic concepts	4
1.2.1 Accent	4
1.2.2 Syllable weight	10
1.2.3 Fixed accent, free accent and morphology	15
1.3 Metrical theory	21
1.3.1 The lexicographic practice	21
1.3.2 The foot	24
1.3.3 Weight sensitivity	29
1.3.4 Retraction rules	31
1.3.5 Extrametricality	33
1.3.6 Foot typology	36
1.3.7 Unbounded feet	50
1.3.8 The treatment of exceptions	53
1.4 Overview	66
1.4.1 The development of metrical theory	66
1.4.2 The prosodic hierarchy	68
1.4.3 Variants of metrical theory	70
1.4.4 Primary Accent First theory	72
1.4.5 Optimality theory	75
1.5 Accent and tone	77
1.5.1 Tone	78
1.5.2 Monomelodic systems: three alternatives	79
1.5.3 Polymelodic systems	88
1.5.4 The phonetic manifestation of tone	92
1.5.5 Accent locations in tonal accent languages	93
1.5.6 Summary	94
1.6 Terms, transcriptions and conventions	95
1.7 Concluding remark	96

Marina Nespor

2	Stress domains	117
2.1	Introduction	117
2.2	The prosodic hierarchy	117
2.3	The mapping of compounds onto prosodic structure	126
2.3.1	The morphological constituent structure of compounds	127
2.3.2	The phonological structure of compounds	129
2.4	Postlexical word stress readjustments	140
2.4.1	Stress readjustments within the clitic group	140
2.4.2	Word stress readjustments in the phonology of rhythm: the international phrase	145
2.5	Conclusions	151

Ellis Visch

3	The rhythmic organization of compounds and phrases	161
3.1	Introduction	161
3.2	Stress shift and stress strengthening: theoretical background . . .	165
3.2.1	"Tree-cum-grid" theory	165
3.2.2	"Tree-only" theory	167
3.2.3	"Grid-only" theory	168
3.2.4	"Tree-cum-grid" theory revisited	169
3.2.5	Gussenhoven (1991)	177
3.2.6	Conclusion	179
3.3	Bracketed grids: the assignment of stress above the word level .	179
3.3.1	Introduction	180
3.3.2	The Faithfulness Condition	181
3.3.3	Exhaustive versus non-exhaustive parsing	183
3.3.4	Summary	187
3.4	Move x and Add x in English	188
3.4.1	Ordinary right- and left-branching structures	188
3.4.2	Internal rhythm	191
3.4.3	English compounds	196
3.4.4	Summary	196
3.5	The case of Dutch: a comparison with English	197
3.5.1	Uni-directional adjustments in Dutch phrases and compounds . .	197
3.5.2	Interactions	202
3.5.3	Summary	205
3.6	Language sketches	206
3.6.1	Italian	206

3.6.2 Catalan and Modern Greek	210
3.6.3 Polish	211
3.6.4 German	214
3.6.5 Spanish	217
3.6.6 Other languages (Swedish, Danish, Finnish, French)	220
3.7 Summary and conclusions	221

Carlos Gussenhoven and Gösta Bruce

4 Word prosody and intonation	233
4.1 Introduction	233
4.2 Lexical and postlexical tones	235
4.2.1 Stockholm Swedish	237
4.2.2 Venlo Dutch	242
4.3 Intonation and secondary stress	253
4.3.1 The timing of the Swedish focal H in compounds	255
4.3.2 The Dutch chanted call	259
4.4 Summary and conclusions	266

Grzegorz Dogil and Briony Williams

5 The phonetic manifestation of word stress	273
---	-----

Grzegorz Dogil

5.1 The phonetic manifestation of word stress in Lithuanian, Polish and German and Spanish	273
5.1.1 Introduction	273
5.1.2 Phonetic dimensions of word stress: articulatory, auditory, and acoustic	275
5.1.3 Acoustic correlates of word stress in Lithuanian	278
5.1.4 Acoustic correlates of word stress in Polish	284
5.1.5 Acoustic correlates of word stress in German	291
5.1.6 Phonetic cues to non-primary stress — Polish and Spanish	299
5.1.7 Conclusion	309

Briony Williams

5.2 The phonetic manifestation of stress in Welsh	311
5.2.1 Background	311
5.2.2 Measurements of speech production	314
5.2.3 Speech perception experiment	317
5.2.4 Discussion	323
5.2.5 Summary and conclusions	324

Aditi Lahiri, Tomas Riad and Haike Jacobs

6	Diachronic prosody	335
6.1	Introduction	335
6.2	Common Germanic	335
6.2.1	Primary stress	338
6.2.2	Secondary stress	339
6.3	West Germanic	341
6.3.1	The early period	343
6.3.2	The middle period	347
6.4	North Germanic	356
6.4.1	Reduction	356
6.4.2	Expansion	361
6.5	Typology of Germanic quantity shift	364
6.6	Development of tonal accents	367
6.6.1	Scandinavian Accent II	367
6.6.2	Tone in Limburgian and Rhine Franconian dialects	372
6.7	Romance loans	374
6.8	Romance	378
6.8.1	Latin	378
6.8.2	From Latin to Romance	388
6.8.3	From Latin to French	392
6.8.4	Summary and discussion	399
6.9	Summary of types of changes in metrical systems	400
6.9.1	Changes in quantity	400
6.9.2	Foot type and word edge	401
6.9.3	Treatment of loans	401
6.9.4	Why, how and universals	401

Part II – Case Studies*Harry van der Hulst, Bernadet Hendriks and Jeroen van de Weijer*

7	A survey of word prosodic systems of European languages	425
7.1	Introduction	425
7.2	Language summaries	425
7.2.1	Languages analyzed in this book	425
7.2.2	Languages not analyzed in this book	442
7.3	Classification by type	456
7.3.1	Classification by type per (sub)family	456
7.3.2	Classification by accent location	462
7.3.3	Classification by area	463

*Wim Zonneveld, Mieke Trommelen, Michael Jessen, Gösta Bruce
and Kristján Árnason*

8 Word-stress in West-Germanic and North-Germanic languages 477

Wim Zonneveld

8.0 Introduction 477

Mieke Trommelen and Wim Zonneveld

8.1 Word stress in West-Germanic languages 478

8.1.1 English 478

8.1.2 Dutch 492

Michael Jessen

8.1.3 German 515

8.2 Word stress in North-Germanic languages 545

Curtis Rice

8.2.1 Norwegian 545

Gösta Bruce

8.2.2 Swedish 554

Kristján Árnason

8.2.3 Icelandic and Faroese 567

Gösta Bruce and Ben Hermans

9 Word tone in Germanic languages 605

Gösta Bruce

9.1 Scandinavian languages 605

9.1.1 Introduction 605

9.1.2 Prominence levels 608

9.1.3 Accentual structure 612

9.1.4 Interaction between accentual and rhythmical structure 627

9.1.5 Summary and conclusions 631

Ben Hermans

9.2 A description of tonal accent in a Limburgian dialect 633

9.2.1 Introduction 633

9.2.2 Aspects of the phonological system that have a bearing on the
distribution of tone 634

9.2.3 The realization of the tones: their contrastive functioning 637

9.2.4 Distributional gaps 640

9.2.5 An analysis 644

9.2.6 Summary 653

Iggy M. Roca

10 Stress in the Romance languages	659
10.1 Introduction	659
10.1.1 Latin stress	659
10.1.2 The Romance languages	661
10.2 Syllable windows and extrametricality	666
10.2.1 Overview	666
10.2.2 The three-syllable window	670
10.2.3 The two-syllable window	683
10.3 Closed syllables	685
10.3.1 Quantity sensitivity	685
10.3.2 Stem-final palatals	697
10.4 Verbs	702
10.4.1 Basic morphology	702
10.4.2 Morphologically transparent stress	704
10.4.3 TV allomorphy	706
10.4.4 Morpheme merger	709
10.4.5 The imperfect indicative	712
10.4.6 The future and the conditional	715
10.4.7 The presents	720
10.4.8 Formal apparatus	729
10.5 Interaction with morphology	737
10.5.1 Word compounds	737
10.5.2 Adverbs from Latin <i>-mente</i>	747
10.5.3 Word-internal double stress in Romansh	751
10.5.4 The Portuguese diminutive	753
10.5.5 Cyclic and non-cyclic application	757
10.6 Summary and conclusions	769

Grzegorz Dogil, Jadranka Gvozdanović and Sandro Kodzasov

11 Slavic languages	813
<i>Grzegorz Dogil</i>	
11.1 West Slavic	813
11.1.1 Introduction	813
11.1.2 Descriptive framework	815
11.1.3 Czech	818
11.1.4 Slovak	826
11.1.5 Sorbian	828
11.1.6 Polish	829
11.1.7 Quantity-sensitive systems of West Slavic	837

Jadranka Gvozdanović

11.2	South Slavic	839
11.2.1	Introduction	839
11.2.2	Western Macedonian	840
11.2.3	Eastern Macedonian and Bulgarian	843
11.2.4	Slovene	843
11.2.5	Croatian and Serbian	849
11.2.6	Comparison of Croatian and Serbian with Slovene and conclusion	852

Sandro Kodzasov

11.3	Russian	852
11.3	Introduction	852
11.3.2	Stress placement in declension	856
11.3.3	Stress placement in derived words	863
11.3.4	Metrical patterns of non-compounds	865
11.3.5	Stress in compounds	867
11.3.6	Conclusion	868

Gregorz Dogil

12	Baltic languages	877
12.1	Introduction	877
12.2	Lithuanian	877
12.2.1	Basic stress patterns	878
12.2.2	Stress advancement	882
12.2.3	Stress retraction in dialects	883
12.2.4	Natural classes of accents	885
12.2.5	Analysis	887
12.2.6	Conclusion	890
12.3	Latvian	890

Gabriel Drachman and Angeliki Malikouti-Drachman

13	Greek word accent	897
13.1	Introduction	897
13.2	The parameters	897
13.3	Unstressed, underived and uninflected words	898
13.3.1	Unstressed forms	898
13.3.2	Underived and uninflected words	899
13.4	Adjectives	901
13.4.1	Introduction	901

13.4.2	The o-class	901
13.4.3	Some further classes	902
13.4.4	Inflection and the adjective	903
13.4.5	Stress and allomorphy in derived adjectives	904
13.5	Nouns	905
13.5.1	The prosodic status of inflection	905
13.5.2	The noun classes and extrametricality	907
13.5.3	Allomorphy in derived nouns	908
13.6	The verb	910
13.6.1	Introduction	910
13.6.2	The data and patterning	911
13.6.3	Explanations for the stress alternations	912
13.6.4	The proposed analysis	912
13.6.5	A reassessment of nominal stress	914
13.7	The clitics	915
13.7.1	Introduction	916
13.7.2	Clitics and stress	916
13.7.3	Proclitics versus enclitics	917
13.7.4	Epenthesis	918
13.8	Dialectal variation of the verb	919
13.8.1	Introduction	919
13.8.2	The data	920
13.8.3	Stems versus endings	920
13.8.4	Exemplification	921
13.8.5	Leftward stem stress iteration	921
13.8.6	Extended endings in the dialects	922
13.8.7	Clitic stressing in the dialects	923
13.9	Prefixing	924
13.9.1	Prefixing: the verb	924
13.9.2	Prefixing with the adjective	926
13.9.3	Prefixing with the noun	927
13.10	Compounds	928
13.10.1	The properties of compounds in Greek	928
13.10.2	The types of compound	928
13.10.3	The two stress domains	930
13.10.4	Stress alignment	930
13.10.5	A remark on semantics	932
13.10.6	Visibility of prosodic domains	932
13.10.7	Further diagnostics	933
13.11	Summary and conclusions	934

13.11.1	Summary	935
13.11.2	Conclusions	937

José Ignacio Hualde

14	Basque accentuation	947
14.1	Introduction	947
14.2	The Western type	950
14.2.1	The Northern Biscayan pitch-accent systems	950
14.2.2	Zeberio (Southwestern Biscayan)	966
14.3	The Central type	969
14.3.1	Oñati	969
14.3.2	Other Gipuzkoan varieties with pre-initial accentuation . . .	972
14.3.3	Bidasoa Valley	973
14.4	The Hondarribia type	974
14.5	The Northern High Navarrese type	976
14.6	The Southern High Navarrese type	976
14.7	The Labourdin/Low Navarrese type	977
14.8	The Souletin/Roncalese or Eastern type	978
14.8.1	Souletin	978
14.8.2	Roncalese	981
14.9	Summary and conclusions	983

Sandro Kodzasov

15	Caucasian: Daghestanian languages	995
15.1.1	General information on the Daghestanian language family . .	995
15.1.2	Basic prosodic types, distribution and general characteristics	996
15.2	Examples arranged according to family and prosodic type . .	998
15.2.1	Northern languages	998
15.2.2	Southern languages	1009
15.3	Conclusion	1018
