

CONTENTS

Development and application of antibodies to primary (DA, L-DOPA) and secondary (cGMP) messengers: A technical report	
H.W.M. Steinbusch, S.P. Van Vliet, J.G.J.M. Bol and J. De Vente	1

HODOLOGY

Transmitter-related retrograde labeling and immunohistochemistry to localize amino acid transmitters in neural pathways and cells	
P. Streit, P. Grandes, P. Morino, Ph. Tschopp and M. Cuénod	29
Ultrastructural identification and quantification of neuroactive amino acids	
O.P. Ottersen.....	45
Video-microscopic techniques to study axonal transport, neuronal fine structure and cytochemical parameters in live neurons	
D.G. Weiss.....	59
Investigating the three-dimensional morphology of fluorescence-labelled neurons using confocal laser scanning microscopy	
P. Wallén, G.V. Di Prisco and R. Dubuc	75
Chairman's report	
F. Vandesande.....	89

DETECTION OF SPECIFIC MOLECULES

Combined cytolabeling methods for investigating chemo-specific neuronal interactions and transmitter co-localization	
O. Bosler, P. Kachidian, D. André, G. Dusticier and A.M. François-Bellan	93
Molecular neuroanatomy of synapses, cells and systems in the brain	
P. Somogyi.....	117

Regulated expression of transcription factor and neurotransmitter genes in neural populations: studies using <i>in situ</i> hybridization with radiolabelled oligonucleotide probes	
G.R. Uhl, D.A. Appelby and T. Nishimori	137

The use of markers to study the regulation of glial cells in the PNS and CNS	
R. Mirsky and K. R. Jessen	143

Chairlady's report	
M.R. Matthews.....	153

QUANTITATIVE ASPECTS

Applications to the study of acetylcholine release of the choline oxidase acetylcholine assay	
N. Morel and M. Israel.....	169

Morphometric evaluation of populations of neuronal profiles in the central nervous system	
M. Zoli and L.F. Agnati	183

Positron emission tomography: functional neuroanatomy <i>in vivo</i>	
J.C. Baron	197

Microfluorometric imaging of time and space dependent calcium concentration changes in mammalian neurons	
W. Müller and J.A. Connor	209

Chairman's report	
F. Fonnum.....	223

RECEPTORS

Immunocytochemistry of neuropeptide receptors using anti-idiotypic antibodies and antibodies to peptides encoded by complementary RNA	
J.Y. Couraud, S. Maillet, D. Zouaoui, W. Kümmer, J. Grassi, P. Pradelles and M. Conrath	225

New approaches for receptor analysis: histochemistry of the GABA/BZ receptors in the rat CNS	
J.M. Séquier and J.G. Richards.....	241

Chairman's report	
R. Couteaux	263

SHORT PAPERS

Extracellular dyes induce photodegeneration and photopermeabilization of vertebrate and invertebrate neurones	
S. Picaud, H. Wunderer, L. Peichl and N. Franceschini.....	267

A method to study projections of GABAergic neurons using deletion of the GABA immunostaining by metallic ions	
I. Cournil, P. Meyrand and M. Moulins.....	273

Ultrastructural immunocytochemical localization of choline acetyltransferase in sympathetic ganglia	
M.R. Matthews, A. Ribeiro-da-Silva and A. C. Cuello	279

A dual immunoperoxidase labelling method to study the ultrastructural relationships between choline acetyltransferase- and neuropeptide Y-containing neurons in the rat striatum	
J. Vuillet, R. Dimova, A. Nicoullon and L. Kerkerian-Le Goff	283

Characterization of microglia and brain macrophages	
N. Delhay-Bouchaud, C. Fardeau, I. Riva, S. Caron and C. Bouchaud.....	289

Visualization and quantification of 5-HT_{1A} receptors in the rat brain by radioimmunohistochemistry	
S. El Mestikawy, M. Riad, L. Matthiessen, H. Gozlan, M. Hamon, G. Daval and D. Vergé.....	295

Anti-idiotypic antibodies against opioid receptors: first ultrastructural evidence for a presynaptic inhibition by opioids in the dorsal horn of the rat spinal cord	
M. Conrath, D. Zouaoui, E. Apartis, F. Herbrecht and A. Cupo	301
Antibodies to complementary peptide for labelling substance P receptors in the dorsal horn of the rat spinal cord for both light and electron microscopy	
D. Zouaoui, S. Maillet, J.Y. Couraud and M. Conrath	307
Comparative ultrastructural localization of neuropeptide mRNAs using tritiated and biotinylated oligodeoxynucleotide probes	
A. Trembleau, M. Landry, M. Fèvre-Montange and A. Calas.....	313
Use of <i>in situ</i> hybridization and immunohistochemistry to study the effects of intranigral injections of colchicine on enkephalin- and substance P-containing neurons of the limbic forebrain	
P.A. Boyer, A. Trembleau, P. Mailly and M. Arluison	319
Chairman's report	
J. Taxi	325
