Invited Paper

Cost Effective Methodologies for Queueing Models of ATM Switched Networks <i>Demetres Kouvatsos, Bradford University, UK</i>	3
---	---

ATM Networks

Evaluation of Source Policing Functions with Strict Enforcement Policies in ATM Networks <i>Edward Chan and K.K. Liu, City University, Hong Kong</i>	35
Performance Analysis of a Fault-tolerant ATM Switch in Single-fault Conditions <i>S. Segkhoonthod and M.C. Sinclair, University of Essex, UK.....</i>	48
Developing an Object Oriented Simulation Framework for ATM Network Performance Studies <i>Stephen Cusack and Rob Pooley, University of Edinburgh, UK</i>	64

Multimedia Systems

Workload Modelling for Cost-Effective Resource Management in ATM Networks <i>Mourad Kara and Peter M. Dew, University of Leeds, UK.....</i>	81
Supporting Quality of Service Guarantees Across Heterogeneous LANs <i>Frank Ball and David Hutchison, Lancaster University, UK.....</i>	94

Analytical Models

MRE Analysis of Open Exponential Queueing Networks with Server Vacations and Blocking <i>Demetres Kouvatsos and Charalabos Skianis, University of Bradford, UK.....</i>	111
IPP Overflow Traffic on a Two-stage Queueing Network <i>Fred Hung-Ming Chen, Zsehong Tsai, John Mellor and Philip Mars, University of Durham, UK.....</i>	123

"General" Marketing-Dependent Rates and Probabilities in GSPNs <i>Isabel Rojas, University of Edinburgh, UK</i>	138
---	-----

Negative Customers Model Queues with Breakdowns <i>Peter Harrison, Naresh M. Patel and Edwige P. Pitel, Imperial College, London, UK</i>	153
--	-----

MEM for Closed Exponential Queueing Networks with RS-Blocking and Multiple Job Classes <i>Demetres D. Kouvatsos and Irfan-Ullah Awan, University of Bradford, UK...</i>	168
---	-----

Formal Methods for Performance

A Stochastic Process Algebra Based Modelling Tool <i>Holger Hermanns and Vassilis Mertsiotakis, University of Erlangen, Germany</i>	187
---	-----

Specification of Stochastic Properties in Real-Time Systems <i>Abderrahmane Lakas, Gordon S. Blair and Amanda Chetwynd, Lancaster University, UK</i>	202
--	-----

Detecting Reversibility Structures in Markovian Process Algebras <i>Madhu Bhabuta, Peter Harrison and K. Kanani, Imperial College, London, UK</i>	217
---	-----

Access Networks

Wavelength Assignment Between the Central Nodes of the COST 239 European Optical Network <i>L.G. Tan and M.C. Sinclair, University of Essex, UK</i>	235
---	-----

Algorithms for Wavelength Assignment in All-Optical Networks <i>L. Wuttisittikulij and M.J. O'Mahony, University of Essex, UK</i>	248
---	-----

Wave Propagation in Biaxial Planar Waveguides Using Equivalent Circuit in Laplace Space <i>A.C. Boucouvalas, Bournemouth University, UK</i>	258
---	-----

Distributed Systems

An Architecture for the Measurement and Modelling of Service Provision in Distributed Systems <i>Clive King and Ian Pyle, University of Wales, UK</i>	269
---	-----

A Two-Tier Load Balancing Scheme for Distributed Systems <i>Christopher Edwards and Madjid Merabti, Liverpool John Moores University, UK</i>	278
--	-----

Adaptive Distributed Simulation for Computationally Intensive Modelling <i>Kam Hon Shum, University of Cambridge, UK</i>	293
--	-----

Optimising Simple Statistical Calculations Using Distributed Memory Computers <i>D.M. Al-jumeily, D.B. Clegg, D.C. Pountney and P. Harris, Liverpool John Moores University, UK</i>	308
---	-----

Simulation

Object Oriented Simulation Models for Performance Modelling <i>Rob Pooley, Edinburgh University, UK</i>	323
---	-----

Device Driver Workload Modelling Through an Abstract Machine <i>Gaius Mulley, University of Glamorgan, UK</i>	338
---	-----

Wide Area Networks

Reduction of Channel Idle Time in a Trunked Mobile Radio Network <i>S.R. Robson, National Band Three Ltd., UK and M.C. Sinclair, University of Essex, UK</i>	355
--	-----

A Comparative Study of k-Shortest Path Algorithms <i>A.W. Brander and M.C. Sinclair, University of Essex, UK</i>	370
---	-----
