INEQUALITIES IN ANALYSIS

P. DRABEK, H. HEINIG AND A. KUFNER Higher dimensional Hardy inequality	3
GRADIMIR V. MILOVANOVIĆ Integral inequalities for algebraic polynomials	17
C.E.M. PEARCE, J. PEČARIĆ AND S. VAROŠANEC Inequalities of Gauß-Minkowski type	27
SABUROU SAITOH Natural norm inequalities in nonlinear transforms	39

INEQUALITIES FOR MATRICES AND DISCRETE PROBLEMS

MARTIN BOHNER Positive definiteness of discrete quadratic functionals	55
MOSHE GOLDBERG Stable norms – Examples and remarks	61
TAKAYUKI FURUTA Applications of order preserving inequalities to a generalized relative operator entropy	65
J. PEČARIĆ AND B. MOND The arithmetic mean – the geometric mean and related matrix inequalities	77

INEQUALITIES FOR EIGENVALUE PROBLEMS

M.S. ASHBAUGH, R.D. BENGURIA AND R.S. LAUGESSEN Inequalities for the first eigenvalues of the clamped plate and buckling problems	95
MARK S. ASHBAUGH AND RAFAEL D. BENGURIA One the Payne-Pólya-Weinberger conjecture on the n -dimensional sphere	111
R.C. BROWN AND D.B. HINTON Norm eigenvalue bounds for some Sturm-Liouville problems	129
W.N. EVERITT, M. MÖLLER AND A. ZETTL Discontinuous dependence of the n -th Sturm-Liouville problem	145

INEQUALITIES FOR DIFFERENTIAL OPERATORS

HORST ALZER Note on Wirtinger's inequality	153
RAVI P. AGARWAL AND PETER Y.H. PANG Opial-type inequalities involving higher order partial derivatives of two functions	157
B.M. BROWN AND N.G.J. DIAS The HELP type integral inequalities for $2n^{\text{th}}$ order differential operators	179
MOSHE MARCUS An estimate related to the Gagliardo-Nirenberg inequality	193
FRANCESCO MUGELLI AND GIORGIO TALENTI Sobolev inequalities in 2-dimensional hyperbolic space	201

CONVEXITY

ROMAN BADORA On the separation with n -additive functions	219
JANUSZ MATKOWSKI AND JÜRG RÄTZ Convexity of power functions with respect to symmetric homogeneous means	231

JANUSZ MATKOWSKI AND JÜRG RÄTZ	
Convex functions with respect to an arbitrary mean	249

ZSOLT PÁLES	
Separation by semidefinite bilinear forms	259

INEQUALITIES IN FUNCTIONAL ANALYSIS AND FUNCTIONAL EQUATIONS

JÁNOS ACZÉL AND GYULA MAKSA	
Inequalities for selection probabilities	271

ROMAN GER	
Delta-exponential mappings in Banach algebras	285

THEMISTOCLES M. RASSIAS	
On a problem of S.M. Ulam and the asymptotic stability of the	
Cauchy functional equation with applications	297

RAYMOND M. REDHEFFER AND PETER VOLKMANN	
Die Funktionalgleichung $f(x) + \max \{f(y), f(-y)\} =$	
$\max \{f(x+y), f(x-y)\}$	311

APPLICATIONS

ALAIN BRILLARD	
Asymptotic analysis of nonlinear thin layers	321

BERND KAWOHL	
The opaque square and the opaque circle	339

MICHAEL PLUM	
Enclosure methods with existence proof for	
elliptic differential equations	347

RAYMOND M. REDHEFFER AND PETER VOLKMANN	
Weak persistence in Lotka-Volterra populations	369

WOLFGANG REICHEL	
Uniqueness for degenerate elliptic equations via Serrin's principle	375

PROBLEMS AND REMARKS

ALOIS KUFNER	
Overdetermined Hardy inequalities	391
E.R. LOVE	
A condition for monotony	393
E.R. LOVE	
A conjectured inequality of T.J. Lyons	395
THEMISTOCLES M. RASSIAS	
A theorem of Pommerenke and a conjecture of Erdős	401
THEMISTOCLES M. RASSIAS	
Problems on finite sums decompositions of functions	403
