

Table of Contents

Chapter 1	Introduction	1
	References Cited	1
Chapter 2	Getting Started in Carbonate Petrography:	
	Methodology and Applications	2
	Introduction	2
	Essential Elements of Carbonate Petrography	3
	Classification	9
	Mapping and the Fundamental Characteristics of Carbonate Bodies	12
	Models and Cycles	13
	How Carbonate Petrology Started.	18
	Selected Chronologic, Annotated References .	20
	References Cited	31
Chapter 3	Identification of Biotic Constituents	34
	Introduction	34
	Geometry of Skeletal Architecture	35
	General Observations on Skeletal Microstruc- ture	37
	Skeletal Mineralogy	38
	Post-Mortem Changes in Shells and Shell Microstructure	39
	Tintinnines	41
	Radiolarians	43
	Foraminifers	43
	Sponges (Porifera)	48
	Archaeocyathids	48
	Corals (Anthozoan Coelenterates)	49
	Stromatoporoids	52
	Bryozoans	54
	Brachiopods	57
	Worms	60
	Mollusks	62
	Molluscan Skeletal Architecture	62
	Molluscan Skeletal Microstructure	62
	Pelecypods	64
	Gastropods	66
	Cephalopods	67

Arthropods	68
Trilobites	68
Ostracodes	69
Echinoderms	70
Conodonts	72
Vertebrates	73
Faecal Pellets	74
Wood	74
Calcareous Algae	75
Red Algae (Rhodophyta).	75
Green Algae (Chlorophyta)	78
Blue-Green Algae (Cyanophyta).	80
A Problematic Alga	80
Calcispheres	81
Some Additional Fossil Groups Not Discussed	82
Microfacies References	82
References Cited	85
 Chapter 4	
Plates	93
References Cited	94
Plate Titles	95
Plates and Plate Descriptions.	97
Index to Plates	299
