

TABLE OF CONTENTS

A sketch of the various formulations of the theoretical optical potential for scattering processes	
G.Passatore	Page 1
Equivalent potentials in the description of scattering processes	
F.Capuzzi	" 20
Green function approach to single particle states in nuclei	
S.Boffi.....	" 44
Many-body theory of the optical-model potential	
J.-P.Jeukenne, A.Lejeune and C.Mahaux.....	" 68
Optical model potential and nuclear density distributions	
P.E.Hodgson.....	" 88
Non-local optical potential: theoretical and phenomenological aspects	
M.M.Giannini and G.Ricco.....	" 130
The systematics of the $1f_{7/2}$ neutron single-particle energies	
F.Malaguti.....	" 155
Small angle elastic scattering of polarized protons	
G.Bendiscioli, E.Lodi-Rizzini, A.Rotondi, M.L.Stanga and A.Venaglioni.....	" 160

Dispersion relation analyses of the energy dependence
of the optical potential

G.Passatore Page 177

Theoretical investigations of the optical-model
potential

J.-P.Jeukenne, A.Lejeune and C.Mahaux..... " 204
