

Table of Contents

Organisational Issues

Factors with Negative Influence on Software Testing Practice in Spain: A Survey	1
<i>Luis Fernández-Sanz, M. Teresa Villalba, José Ramón Hilera, and Raquel Lacuesta</i>	
What Is a Test Case? Revisiting the Software Test Case Concept	13
<i>Dani Almog and Tsipi Heart</i>	
Automating Expert-Defined Tests: A Suitable Approach for the Medical Device Industry?	32
<i>David Connolly, Fergal Mc Caffery, and Frank Keenan</i>	

SPI Measurement and Assessment

A Model for Selecting an Optimum Set of Measures in Software Organizations	44
<i>Ansar Malook Bhatti, Hafiz Muhammad Abdullah, and Cigdem Gencel</i>	
Applying a Functional Size Measurement Procedure for Defect Detection in MDD Environments	57
<i>Beatriz Marín, Giovanni Giachetti, and Oscar Pastor</i>	
Sustainable Service Innovation Model: A Standardized IT Service Management Process Assessment Framework	69
<i>Béatrix Barafort and Anne Rousseau</i>	

Agile and Open Source Issues

How Can Agile Practices Minimize Global Software Development Co-ordination Risks?	81
<i>Emam Hossain, Muhammad Ali Babar, and June Verner</i>	
Mapping CMMI Level 2 to Scrum Practices: An Experience Report	93
<i>Jessica Diaz, Juan Garbajosa, and Jose A. Calvo-Manzano</i>	
The QualOSS Process Evaluation: Initial Experiences with Assessing Open Source Processes	105
<i>Martín Soto and Marcus Ciolkowski</i>	

SPI and Management Issues

Innovation Process Design: A Change Management and Innovation Dimension Perspective	117
<i>Thomas Peisl, Veronika Reger, and Juergen Schmied</i>	
Discovering Changes of the Change Control Board Process during a Software Development Project Using Process Mining	128
<i>Jana Šamaličková, Jos J.M. Trienekens, Rob J. Kusters, and A.J.M.M. (Ton) Weijters</i>	
Global Software Development Patterns for Project Management	137
<i>Antti Välimäki, Jukka Kääriäinen, and Kai Koskimies</i>	

Process Lifecycle and Quality Issues

Applying Application Lifecycle Management for the Development of Complex Systems: Experiences from the Automation Industry	149
<i>Jukka Kääriäinen and Antti Välimäki</i>	
Exploring the Role of Usability in the Software Process: A Study of Irish Software SMEs	161
<i>Rory V. O'Connor</i>	
Quality Attribute Techniques Framework	173
<i>Yin Kia Chiam, Liming Zhu, and Mark Staples</i>	

Standards and Reference Models

Building an Observatory of Course-of-Action in Software Engineering: Towards a Link between ISO/IEC Software Engineering Standards and a Reflective Practice	185
<i>François-Xavier Bru, Gaëlle Frappin, Ludovic Legrand, Estéban Merrer, Sylvain Piteau, Guillaume Salou, Philippe Saliou, and Vincent Ribaud</i>	
Tailoring ISO/IEC 27001 for SMEs: A Guide to Implement an Information Security Management System in Small Settings	201
<i>Thierry Valdevit, Nicolas Mayer, and Béatrix Barafort</i>	
An Integrated Framework to Guide Software Process Improvement in Small Organizations	213
<i>Francisco J. Pino, Félix García, and Mario Piattini</i>	
Author Index	225
