

CONTENTS

1. Introduction	1
2. Anatomy	6
2.1. Introduction	6
2.2. Embryology	7
2.3. Structure	7
2.4. Description	8
2.5. Relation to Vascular and Nervous Structures	14
2.6. Branches	16
3. Congenital Abnormalities	18
3.1. Duplication	18
3.2. Tortuosity and Kinking	19
3.3. Persistent Primitive Arteries	19
3.4. Branches	21
4. Wall Lesions	23
4.1. Atherosclerosis	23
4.2. Dissection	26
4.3. Fibromuscular Dysplasia	34
4.4. Unusual Lesions of the V.A.	40
5. Arteriovenous Malformations	43
5.1. Spontaneous Vertebro-vertebral Fistulas	43
5.2. Traumatic Arteriovenous Fistulas	45
5.3. Congenital Regional Arteriovenous Malformation or Angio- dysplasia	54
6. Tumor	58
6.1. Introduction	58
6.2. Relation to the V.A.	59
6.3. Location of Tumors Involving the V.A.	59
6.4. External Compression	62
6.5. Histology of Tumors Involving the V.A.	66
7. External Compression	77
7.1. Second Portion	77
7.2. First Portion	85
7.3. Third Portion	87

8. Trauma	90
8.1. Modality	90
8.2. Mechanism	93
8.3. Level of Injury	95
8.4. Onset of Symptoms	95
9. Infancy and Childhood	97
9.1. Traumatic Lesions in the Newborn	97
9.2. Traumatic Lesions in Childhood	98
9.3. Congenital Arteriovenous Fistula	100
10. Pathophysiology	102
10.1. V. A. Preservation	102
10.2. Prevention of Ischemic Events	102
11. Pre-operative Investigations	114
11.1. Morphologic Exams	114
11.2. Functional Examinations	119
11.3. Interventional Radiology	123
11.4. Management of Pre-operative Investigations	127
12. Approach to the Cervical V. A.	129
12.1. Historical Background	129
12.2. General Principles	130
12.3. Surgical Routes	134
12.4. Discussion of Surgical Approaches	146
12.5. Surgical Competence	149
13. Techniques of V. A. Surgery	151
13.1. Introduction	151
13.2. Wall Lesions	152
13.3. Arteriovenous Malformations	167
13.4. Tumor	171
13.5. External Compression	178
13.6. Intraoperative Embolization	181
14. Personal Experience	183
14.1. Wall Lesions	185
14.2. Distal Revascularization	202
14.3. Arteriovenous Malformations	203
14.4. Tumor	210
14.5. External Compression	221
14.6. Trauma	224
14.7. V. A. Surgery and Interventional Radiology	227
15. Conclusion	231
