

Index

Page locators in **bold** indicate tables. Page locators in *italics* indicate figures. This index uses letter-by-letter alphabetization.

A

- ul>
- abdominal aortic aneurysm (AAA) 556, 559
- abdominal cavity
 - adult abdominal hernias 40–41, 43–49
 - anatomy and structural anomalies 40–41, 41–49
 - developmental and childhood structural anomalies 40, 41–42
- abdominal compartment syndrome 346–347, 349, 557
- abdominal pain
 - acute pancreatitis 346
 - angiography 912
 - Crohn's disease 257
- abetalipoproteinemia 191, 194–195
- acalculous cholecystitis 949
- acanthosis nigricans (AN) 645
- accommodation 137
- acetaminophen-induced liver injury 462, 464, 468, 958
- achalasia
 - esophageal motility disorders 76–79, 82
 - per-oral endoscopic myotomy 796–798
 - upper gastrointestinal endoscopy 699
- acidophil bodies 504
- acinar cells 39, 365, 367–369
- acquired adult diaphragmatic hernia 41, 42
- acquired immunodeficiency syndrome *see* HIV/AIDS
- acquired pyloric stenosis 15, 19
- acrodermatitis enteropathica 645
- actin 512
- acute abdomen 25, 26
- acute appendicitis 841
- acute cholangitis 483, 484–485, 955
- acute cholecystitis 398, 403, 405
 - interventional radiology 949
 - nuclear medicine imaging 893, 895
- acute esophageal necrosis 118, 125
- acute febrile neutrophilic dermatosis 649
- acute kidney injury (AKI) 526–527
- acute liver failure (ALF)
 - chronic viral hepatitis 456
 - drug-induced liver injury 466
 - metabolic liver disease 491, 494
- acute lymphoblastic leukemia (ALL) 640
- acute mesenteric ischemia 662, 663–672
- acute mesenteric venous thrombosis 662, 667
- acute myelogenous leukemia (AML) 639
- acute necrotic collection (ANC) 351–354, 352–353
- acute pancreatitis (AP) 341–357
 - clinical manifestations 341, 342
 - complications 351–353, 352, **352**
 - diagnosis and classification 341, **343**, 344
 - differential diagnosis 341
 - epidemiology and risk factors 341, **342**
 - management 341, **343**, 354–356
 - pathophysiology 341–351, 342–343, 346–351
 - positron emission tomography 892
- acute peripancreatic fluid collections (APFC) 351–354, 352–353
- acute portal vein thrombosis 750, 753
- acute radiation enteropathy 677–679, 678–680
- acute renal failure 529
- acute tubular necrosis (ATN) 527
- acute uncomplicated diverticulitis (AUD) 280–281, 283–284
- acute viral hepatitis 431–446
 - biopsy/histopathology 433, 446, 965
 - epidemiology 431, 432–435
 - genetic organization and replication 431, 436–442
 - pathogenesis and immune response 431–432, 443
 - prevention and treatment 433–434
 - serological testing 443–446
 - ultrasonography 814
- adenocarcinoma
 - associated skin lesions 645–646
 - biopsy/histopathology 963
 - colorectal cancer screening 340
 - computed tomography 836–837, 839, 843–844
 - endometrial adenocarcinoma 873
 - endoscopic mucosal biopsy 975, 975, 978–979, 979, 990–991, 990
 - endoscopic ultrasonography 823, 829, 833
- esophageal neoplasms 108, 114, 116
- gallstones 407
- gastroesophageal reflux disease 90
- gastrointestinal dilation and stenting 735, 737
- magnetic resonance imaging 848, 867
- malignant tumors of the colon 313, **314**, 315
- mucinous adenocarcinoma 875, 879
- peptic ulcer disease 141
- peritoneum 559
- polyps of the colon and rectum 304, 306
- positron emission tomography 871–875, 877–879, 881, 887
- tumors of the biliary tract 429
- tumors of the small intestine 225, 227–228
- tumors of the stomach 170, 171–174
- ultrasonography 820
- upper gastrointestinal endoscopy 695, 698, 704
- adenoma
 - angiography 926
 - biopsy/histopathology 962
 - colonoscopy and sigmoidoscopy 722–723
 - colorectal cancer screening 338–339
 - endoscopic management of colorectal lesions 785–786
 - endoscopic mucosal biopsy 978, 978, 984, 989, 989
 - magnetic resonance imaging 847, 850
 - polyposis syndromes 323
 - polyps of the colon and rectum 304, 306
 - tumors of the stomach 175
 - upper gastrointestinal endoscopy 709
- adenomatous polyps 304, 306
 - colonoscopy and sigmoidoscopy 723
 - endoscopic management of colorectal lesions 783
- adhesiolysis 791, 791
- adjustable gastric banding (AGB) 575, 577, 582–583
- ADPKD *see* autosomal dominant polycystic kidney disease
- adrenaline 147, 150
- adrenal nodules 822, 828
- adult respiratory distress syndrome (ARDS) 350

- AFP *see* α -fetoprotein
- AGB *see* adjustable gastric banding
- AH *see* alcoholic hepatitis
- AIDS *see* HIV/AIDS
- AIH *see* autoimmune hepatitis
- AIP *see* autoimmune pancreatitis
- AKI *see* acute kidney injury
- alcoholic hepatitis (AH) 496–498
- alcohol-related liver disease (ALD) 496–498
- ascites 530
- biopsy/histopathology 956–957, 959–960, 962, 967
- global alcohol consumption 496, 497
- hepatic fibrosis and cirrhosis 519
- natural history 496, 497
- pathogenesis 496–498, 498
- alcohol-related steatohepatitis (ASH) 496, 519
- ALD *see* alcohol-related liver disease
- ALF *see* acute liver failure
- ALL *see* acute lymphoblastic leukemia
- allogeneic hematopoietic stem cell transplantation 588
- alopecia 261
- α -fetoprotein (AFP) 544
- AMA *see* antimitochondrial antibodies
- AMAG *see* autoimmune metaplastic atrophic gastritis
- AML *see* acute myelogenous leukemia
- ampulla of Vater 50
- ampullary cancer 423
- ampullary lesions 775, 780–781
- ampullary masses 724, 725
- Amyand hernia 41
- amyloidosis
- endoscopic mucosal biopsy 983, 983–984
- mesenteric amyloidosis 557, 562
- miscellaneous esophageal diseases 119, 128
- AN *see* acanthosis nigricans
- ANA *see* antinuclear antibodies
- anal fissures 259, 261, 287, 295
- anal polyps 883, 993, 993
- anal sinus crypts 27
- anal skin tags 259, 262
- anal sphincter complex 27, 30
- anal transition zone (ATZ) 27–28, 31, 254
- anastomotic strictures 697
- anastomotic ulcers 706
- ANC *see* acute necrotic collection
- Ancylostoma* spp. 614–615, 627
- angiodysplasia 235, 721
- angiography 910–931
- acute pancreatitis 357
- chronic pancreatitis 363
- gastrointestinal angiography 910–911, 912–923
- general technique 910, 911–912
- hepatic angiography 914–915, 925–929
- interventional radiology 932, 936–946, 951
- intestinal ischemia and vasculitis 662, 665–672
- miscellaneous diseases of the small intestine 233, 235
- pancreatic angiography 911–914, 923–924
- splenic angiography 915–916, 930–931
- upper gastrointestinal bleeding in portal hypertension 750, 763
- angioplasty
- interventional radiology 938, 941
- intestinal ischemia and vasculitis 662, 669, 672
- angiosarcoma 885
- angular cheilitis 660
- annular pancreas 17, 843
- anomalous pancreaticobiliary ductal union 416, 418
- anorectal disease 287–303
- abscesses 287, 292
- anal fissures 287, 295
- defecation 287, 295–296
- diarrhea, gastroenteritis, and anorectal infections 209, 215
- digital rectal examination 287, 296, 301–302
- endoscopic mucosal biopsy 993–994, 993–994
- fecal incontinence 287, 297–301, 301
- fistulas 287, 293
- functional anorectal pain syndromes 287, 301–302
- gross anatomy 288
- hemorrhoids 287, 290–291
- instruments for anorectal examination 289
- magnetic resonance imaging 849, 869
- malignant neoplasms 287, 302
- malignant tumors of the colon 315–316
- positron emission tomography 873, 883, 887
- rectal prolapse 287, 294
- ulcerations 287, 294
- anorexia 225
- anovaginal fistula 812
- anoxia 958
- ANS *see* autonomic nervous system
- antibiotics
- acute pancreatitis 354–355
- diverticular disease of the colon 280–281
- peptic ulcer disease 141
- antibody-mediated rejection 969
- antibody testing 456, 459, 459
- antimitochondrial antibodies (AMA) 472, 476
- antinuclear antibodies (ANA) 472
- antiretrovirals 595
- α 1-antitrypsin deficiency 490
- antivirals
- acute viral hepatitis 433–434
- chronic viral hepatitis 448, 452, 456, 460
- hepatic fibrosis and cirrhosis 510, 517
- antrum 688, 701, 706
- aorta 825, 832
- aortic stenosis 630
- AP *see* acute pancreatitis
- APC *see* argon plasma coagulation
- APFC *see* acute peripancreatic fluid collections
- aphthous ulcers 261, 648
- appendicitis 549, 551, 841
- appendix 28, 31
- arachnoid portal fibrosis 956
- ARDS *see* adult respiratory distress syndrome
- argon plasma coagulation (APC) 750
- arterial blood supply
- colon 28–32, 32
- gallbladder and biliary tract 50, 53

 tumors of the biliary tract 425, 427
 Chicago Classification 77
 Child–Turcotte–Pugh (CTP) score 538, 539
Chlamydia spp. 594
 chlorpromazine-induced liver disease 961
 cholangiocarcinoma (CCA)
 biopsy/histopathology 963
 cystic lesions of the liver and biliary tract 416,
 417
 magnetic resonance imaging 848, 861–862
 primary sclerosing cholangitis 408–409,
 412–413
 tumors of the biliary tract 423, 425–429
 cholangiography
 cystic lesions of the liver and biliary tract 416,
 417–421
 primary sclerosing cholangitis 408, 409–413
 tumors of the biliary tract 424–426
 see also individual modalities
 cholangitis 348–349
 cholecystectomy 394, 401, 402–404
 interventional radiology 949
 minimally invasive surgery 790, 790
 cholecystitis 398, 403, 405
 interventional radiology 949
 nuclear medicine imaging 893, 895
 cholecystokinin octapeptide (CCK-8) 272
 choledochal cysts *see* cystic lesions of the liver
 and biliary tract
 choledochoceles 416, 418–421
 choledochoduodenostomy (CDS) 831
 choledocholithiasis 394, 405–406
 acute cholangitis and liver abscess 485
 endoscopic retrograde
 cholangiopancreatography 724, 725
 magnetic resonance imaging 860
 cholelithiasis *see* gallstones

- computed tomography (CT) (*cont'd*)
 dysmotility of the small intestine and
 colon 183, 186
 endoscopic ultrasonography 830
 esophageal neoplasms 108
 esophagus 14
 gallstones 394, 398, 407
 gastrointestinal dilation and stenting 731,
 736, 739–742
 gastrointestinal manifestations of
 immunological disorders 598, 600
 gastrointestinal manifestations of systemic
 diseases 630–639
 gastrointestinal tract 835, 836–842
 hepatocellular carcinoma 544
 inguinal hernia 846
 interventional radiology 934, 946, 952
 intestinal ischemia and vasculitis 662,
 663–666, 668, 673–674
 intraabdominal abscesses and fistulas 549,
 550–553
 liver 842–843
 malignant tumors of the colon 313, 316
 miscellaneous diseases of the small intes-
 tine 231–232, 234
 miscellaneous esophageal diseases 122, 126
 miscellaneous stomach diseases 179–180
 pancreas 38, 843–845
 pancreatic neuroendocrine tumors 383, 386,
 388
 peritoneum 556, 558–563, 846
 polyps of the colon and rectum 304, 305
 protozoan infection 605
 stomach and duodenum 15, 17
 tumors of the biliary tract 430
 ulcerative colitis 251
 ultrasonography 813
 upper gastrointestinal bleeding in portal
 hypertension 750, 753
 vascular diseases of the liver 533–534,
 536–537
 Zollinger–Ellison syndrome 155
 computed tomography enterography
 (CTE) 256, 258–259
 condyloma acuminata 209, 215, 721
 condyloma lata 215, 993
 confluent necrosis 958
 confocal laser endomicroscopy (CLE) 694
 congenital epithelial hypertrophy 324
 congenital esophageal duplications 3, 7
 congenital esophageal stenosis 3, 5
 congenital hypertrophic pyloric stenosis 15, 19
 congenital intraabdominal cystic lesions 40, 41
 congenital pediatric groin hernia 40
 congenital venous malformations 3, 6
 conjunctivitis 649
 connective tissue disorders 629, 631–632
 constipation 187–188
 contractile deceleration point (CDP) 76
 contractile front velocity (CFV) 76
 contrast radiography *see* barium contrast
 radiography; radiography
 conventional polypectomy 782, 784, 787
 corkscrew esophagus 76
 corkscrew hepatic artery 816
 corticosteroids
 autoimmune hepatitis 471, 475
 drug-induced liver injury 463–466, 469
 gastrointestinal manifestations of systemic
 diseases 629, 632
 Cowden syndrome 309, 312, 331–333
 CP *see* chronic pancreatitis
 CpAM *see* capsid protein allosteric modulators
 CPN *see* celiac plexus neurolysis
 CRC *see* colorectal cancer
 creatinine clearance 454
 CREST syndrome 476, 478
 cricopharyngeal bar 3, 10, 73–74
 cricopharyngeal myotomy 700
 Crohn's disease (CD) 255–263
 associated skin lesions 646
 capsule endoscopy and deep enteroscopy 713,
 714–715
 computed tomography 838–839
 differential diagnosis 259–260, 262
 endoscopic findings 255, 256–257, 256,
 262–263
 endoscopic mucosal biopsy 973, 982–983, 983
 extraintestinal manifestations and complications
 256–259, 260–262
 gastrointestinal dilation and stenting 728
 histological findings 255, 258
 intraabdominal abscesses and fistulas 549,
 552, 555
 magnetic resonance imaging 868
 minimally invasive surgery 792
 miscellaneous esophageal diseases 119, 126
 of the ileal pouch 247, 261, 263
 postoperative Crohn's disease 260–261,
 262–263, 262
 radiography 812
 radiological findings 255–256, 258–259
 retroperitoneum 556, 560
 upper gastrointestinal endoscopy 696
 Cronkhite–Canada syndrome 334–335,
 988–989, 988
 CRS *see* cytoreductive surgery
 cryoglobulinemia 658
 crypt abscesses 676
 crypt base cells (CBC) 678
 crypt cell apoptosis 599
 cryptogenic cirrhosis 530
 cryptogenic multifocal ulcerous stenosing
 enteritis 232
Cryptosporidium spp. 602, 604–606, 608–609
 biopsy/histopathology 969
 complications of secondary immunodefi-
 ciency states 589, 595
 crypt–villus axis 196, 678–679, 678–680
 CT *see* computed tomography
 CTA *see* computed tomography angiography
 CTE *see* computed tomography enterography
 CTP *see* Child–Turcotte–Pugh
 CUJ *see* chronic ulcerative jejunoileitis
 Cullen's sign 346
 cutaneous disease *see* skin lesions
 cutaneous larvae migrans 627
 CVD *see* cardiovascular disease
 CVID *see* common variable immunodeficiency
 cyanoacrylate injection 750, 762

 CYP *see* cytochrome P449
 cystic duct 50, 52
 cystic fibrosis (CF)
 disorders of epithelial transport, metabolism,
 and digestion 190–191, 192–194
 pancreatitis of genetic and complex
 etiologies 370–371
 cystic fibrosis transmembrane regulator
 (CFTR) 366–368, 367–368, 372–374
 cystic hyatid disease 625
 cystic lesions of the liver and biliary tract 416–422
 classification 50, 58
 clinical presentation 416, 417
 diagnosis 416, 417–418
 management 416–419, 419–422
 cystic neoplasms of the pancreas (CNP) 375,
 376–382
 classification 375
 cystic pancreatic endocrine tumors 375, 376
 guidelines 380–381
 intraductal papillary mucinous neoplasms 375,
 378–379
 mucinous cystic neoplasms 375, 380
 positron emission tomography 879
 serous cystadenoma 375, 376
 solid pseudopapillary neoplasm 375, 377
 cystic pancreatic endocrine tumors 375, 376
Cystoisospora spp. 604–606, 608–609
 cytochrome P450 (CYP) 62, 462
 cytological ballooning 499, 500, 504
 cytomegalovirus (CMV)
 biopsy/histopathology 967
 complications of secondary
 immunodeficiency states 591–592
 Crohn's disease 255, 258
 endoscopic mucosal biopsy 972
 esophageal infections secondary to HIV/
 AIDS 100–101, 102–105
 gastrointestinal manifestations of
 immunological disorders 600, 601
 upper gastrointestinal endoscopy 696
 cytoreductive surgery (CRS) 556

dCCA *see* distal cholangiocarcinoma
DCI *see* distal contractile integral
DDCR *see* disordered and/or diminished contractile response
DEB *see* drug-eluting beads
deep enteroscopy 713, 714–717
deep mural injury 782, 785–787
defecation 287, 295–296
Degos disease 654
dehiscence 744–745
delayed bleeding 782, 787
delayed radiation enteritis 680–681, 680–682
dermatitis herpetiformis 649–650
dermatological disease *see* skin lesions
dermatomyositis 661
DES *see* distal esophageal spasm
diabetes mellitus (DM)
 gastrointestinal manifestations 629, 633–634
 nonalcoholic fatty liver disease 505
diaphragmatic hernia 40–41, 43
diarrhea
 bile acid diarrhea 274, 681–682
 dysmotility of the small intestine and colon 187
 infectious colitis 209, 210–214
Dientamoeba spp. 604, 607
diet and nutrition
 irritable bowel syndrome 278
 malignant tumors of the colon 309, 310
 obesity and overweight 568
 peptic ulcer disease 141
 see also nutrition support
Dieulafoy lesions 701
diffuse esophageal glycogenic acanthosis 333
diffuse glycogenic acanthosis 690
diffuse idiopathic skeletal hyperostosis (DISH) 4, 14
diffuse large B-cell lymphoma 880, 883, 889
digital rectal examination (DRE) 287, 296, 301–302
digital subtraction angiography (DSA) 939–940
dilantin-induced hepatotoxicity 955, 968
DILI *see* drug-induced liver injury
DILIN expert opinion causality scale 463, 468
Diphyllobothrium spp. 622
DIPS *see* direct intrahepatic portocaval shunt
direct-acting antivirals (DAA)
 chronic viral hepatitis 456, 460
 hepatic fibrosis and cirrhosis 510, 517
