Part I Entropy Revisited

<i>Entropy Revisited</i>	3
I. Prigogine	

Part II Plenary Lectures

Session 1 : Wetting Surface Segregation

Chairmen : R. Prud'homme (C.N.R.S. Meudon) and
D.Bedeaux (University Leiden)

N. Eustathopoulos and L. Coudurier	
<i>Adsorption and wettability in metal / ceramic systems</i>	17
J.C. Joud	
<i>Equilibrium surface segregation in solid binary alloys</i>	24
P.G. de Gennes and A.M. Cazabat	
<i>Spreading of a stratified incompressible droplet</i>	33
B. Widom	
<i>Line tension and wetting</i>	40

Session 2 : Fluids in Pores Solid Liquid Coexistence

Chairmen : G. Lebon (Univ. Liège) and J. Deconinck (Univ. Mons)

M. Baus	
<i>Liquid-Solid coexistence : a density - functional approach</i>	49
R. Evans	
<i>Phase equilibria and adsorption of fluids confined in narrow pores</i>	62
R.S. Schechter, A.C.Lam and M.S. Willis	
<i>Capillarity in porous media</i>	80

Session 3 : Mechanical Aspects of Capillarity

Chairmen : L. Napolitano (Univ. Napoli) and
H. Linde (Acad. of Science Berlin)

J.F. Padday	
<i>Capillarity in microgravity</i>	90
M.G. Velarde, X.L. Chu and A.N. Garazo	
<i>Solitons and other interfacial waves excited and sustained by capillarity</i>	108
P. Nozieres	
<i>Solid surfaces: capillarity vs elasticity</i>	113
B.V. Derjaguin	
<i>Some comments on the speeches of Evans and Nozieres</i>	128

Session 4 : Surface Tension of Solutions Line Tension

Chairmen : B.V. Derjaguin (Acad. of Science USSR) and
P. Joos (U.I. Antwerpen)

K. Motomura	
<i>Interfacial tension of organic solutions</i>	129
B.V. Toshev and A. Scheludko	
<i>Line tension and its application to the theory of heterogeneous phase formation</i>	138
J. Gaydos	
<i>A Topological constraint of the variance</i>	148
(Comment to the presentation of B.V. Toshev and A. Scheludko)	
K. Shinoda	
<i>The Necessity of Ideal Organised Solution Concept : The Comparison of Ideal Solution and Ideal Organized Solution</i>	153

Session 5 : Systems Containing Electrical Charges

Chairmen : C. Milazzo (Istituto di Sanita Roma) and
A. Bellemans (Université Libre de Bruxelles)

T.S. Sorensen	
<i>Ions in "solution" and in weak ion exchange membranes</i>	164
J. Lyklema	
<i>Thermodynamics of charged interfaces</i>	222
A.I. Rusanov	
<i>Thermodynamics of micelles</i>	234

Part III**Additional Communications**

J. DE Coninck, D. Villers and J. Platten	
<i>Non-monotonous temperature dependence of interfacial tensions</i>	243
I. Egry, G. Lohöfer and P. Neuhaus	
<i>Surface tension measurements of liquid metals</i>	247
A.V. Indenbom	
<i>The double layer at the interface between two immiscible electrolyte solutions</i>	252
L. Lavielle, A. Sanfeld and J. Schultz	
<i>Orientation thermodynamics at polymer-liquid interfaces</i>	257
H. Linde, P.D. Weidman and M.G. Velarde	
<i>Marangoni - driven Solitary Waves</i>	261
A. Passerone, L. Liggieri and F. Ravera	
<i>Growth instabilities of bubbles and drops</i>	268
A. Sanfeld	
<i>Competition between surface and volume reaction</i>	273
M.E.R. Shanahan	
<i>Capillary crawling on inhomogeneous solid surfaces</i>	276
S. Van Vaerenbergh, P. Colinet and J.C. Legros	
<i>The role of Soret effect on Marangoni - Benard stability</i>	281

Part IV Technological Applications of Interfacial Phenomena
(organized with C.E.R.E.T. - Paris)

Chairman : H. Hurwitz (Université Libre de Bruxelles)

P.G. Falciani, G. Margheri and M. Tacconi	
<i>Various optical diagnostic techniques for microgravity experiments</i>	297
M.H. Schneider	
<i>Holographic visualisation of interfacial phenomena</i>	305
H. Toulhoat	
<i>Wetting of pore walls by oil or brine in reservoir rocks</i>	318

Chairman : T. Szekrenyesy (T.V. Budapest)

T. F. Tadros	
<i>Some industrial application of surfactants</i>	349
Y.C. Bienvenu	
<i>On superficial and interfacial phenomena in powder metallurgy</i>	361
F.M. Dennery	
<i>Marangoni's effect in welding</i>	373
List of Participants	377
