

Contents

Monitoring Compositional Changes and Biochemical Functions

Measuring Body Composition in Intensive Care Patients (<i>G. L. Hill, D. Monk, and L. D. Plank</i>)	3
Applications of Magnetic Resonance Spectroscopy to Nutrition and Metabolism (<i>D. O. Jacobs and M. K. Robinson</i>)	19
Muscle Function and Energetics (<i>K. N. Jeejeebhoy</i>)	46
Muscle Intracellular Ions during Malnutrition and Refeeding (<i>C. Pichard, D. Slosman, and A. G. Dulloo</i>)	63
Estimation of Peroxidative Damage (<i>H. Esterbauer</i>)	80

What Type of Metabolic Support?

Does Indirect Calorimetry Reflect Energy Expenditure in the Critical Ill Patient? (<i>R. Chioloro, D. Bracco, and J. P. Revelly</i>)	95
Are We Giving Unbalanced Amino Acid Solutions? (<i>P. Fürst and P. Stehle</i>)	119
Anabolic Drive in Critically Ill Patients: Pros and Cons a Prevailing Glucose System (<i>G. Iapichino and D. Radrizzani</i>)	137
Are Present Fat Emulsions Appropriate? (<i>Y. A. Carpentier</i>)	157

Organ Specific Nutrients and Associated Therapy

Effects of Enteral Nutrients on the Critically Ill Gut (<i>J. I. Lew and J. L. Rombeau</i>)	175
Nutrition of some Cells of the Immune System and its Importance in the Response to Trauma (<i>E. A. Newsholme</i>)	198
The Impact of Nutrition on Muscle Tissue in Critical Illness (<i>J. Wernerman, P. Garlick, and E. Vinnars</i>)	215
Enhancing Wound Healing in Severely Burned Patients (<i>D. A. Gilpin, M. J. Muller, and D. N. Herndon</i>)	236
Organ Specific Nutrients and Associated Therapy: Growth Factors – Growth Hormone (<i>L. S. Young, T. A. Byrne, and D. W. Wilmore</i>)	252

Preventing Complications

Parenteral versus Enteral Nutrition (<i>G. P. Zaloga</i>)	267
The Importance of the Gut as a Central Organ in the Pathogenesis of MOF (<i>M. P. Fink</i>)	294
Altering Bowel Contents with Lactulose and other Substances prevents Endotoxemia (<i>P. A. M. van Leeuwen, M. A. Boermeester, and A. P. J. Houdijk</i>)	306
Metabolic Support: Modulation of Purine Metabolism (<i>J. M. Boeynaems</i>)	320
Metabolic Responses to Anti-Cytokine Therapies (<i>S. F. Lowry</i>)	333
The Maintenance of Antioxidant Defenses during Inflammation (<i>R. F. Grimble</i>)	347

Disease/Nutrients Interactions

Acute Renal Failure in the ICU: Approaches to Nutritional Support (<i>D. Bihari, I. Mitchell, and R. Chang</i>)	367
Nutritional Support in Liver Disease (<i>E. Lerebours</i>)	377
Nutrition and Metabolism in Acute Respiratory Failure (<i>J. Takala</i>)	390
Nutritional Complications associated with Chemotherapy and Irradiation in Cancer Treatment (<i>T. R. Ziegler</i>)	407
Nutrition in Sepsis (<i>F. B. Cerra</i>)	427
Subject Index	439
