

Contents

0. Introduction	1
Detailed table of contents	16
Some notations and conventions	21
 Chapter I	
Classical involutive Lie algebras of finite rank operators	23
 Chapter II	
Classical involutive Banach-Lie algebras and groups of bounded and compact operators.	72
 Chapter III	
Examples of infinite dimensional Hilbert symmetric spaces	115
 Chapter IV	
On the cohomology of the classical complex Lie algebras of compact operators.	134
 V. Bibliography	147
