

Contents

Overview of J-PARC

<i>Shoji Nagamiya</i>	1
1 What Is J-PARC?	1
2 Accelerator and Facility Construction	3
3 Examples of Sciences at J-PARC	8
4 Future of the J-PARC	13
References	15

The T2K Long-Baseline Neutrino Experiment

<i>A.K. Ichikawa</i>	17
1 Introduction – The Current Situation in Neutrino Oscillation Physics	17
2 The T2K Long-Baseline Experiment	22
3 T2K Physics Goals	34
4 Summary	42
References	42

$K_L \rightarrow \pi^0 \nu \bar{\nu}$

<i>G.Y. Lim</i>	45
1 Introduction	45
2 KEK-PS E391a	48
3 J-PARC E14	62
4 Summary	73
References	74

Search for T Violation in $K^+ \rightarrow \pi^0 \mu^+ \nu$ Decays

<i>J. Imazato</i>	75
1 Introduction	75
2 $K^+ \rightarrow \pi^0 \mu^+ \nu$ Decay and Muon Transverse Polarization	76
3 Experimental Status of P_T	84
4 J-PARC TREK Experiment	87
5 TREK Detector	90
6 Sensitivity	99

7	Summary	101
	References	103

Gamma-Ray Spectroscopy of Λ Hypernuclei

<i>Hirokazu Tamura</i>	105
1 Introduction	105
2 Physics Subjects and Experimental Plans	107
3 Experimental Apparatus	114
4 The Day-1 Experiment: γ Spectroscopy of Light Λ Hypernuclei (E13)	119
5 Future Experiments	126
6 Summary	137
References	137

Search for Pentaquark Θ^+

<i>Megumi Naruki</i>		139
1	Introduction	139
2	Past Experiments with Meson Beams	142
3	J-PARC E19 Experiment	146
4	Future Prospect	157
References		159

In-Medium Mass Modification of Vector Mesons

<i>Satoshi Yokkaichi</i>	161
1 Introduction	161
2 Theoretical Predictions	163
3 KEK-PS E325 Experiment	165
4 Other Experiments	177
5 Dielectron Measurement at J-PARC	180
6 Production of Mesic Nuclei at J-PARC	189
References	192

Experimental Investigations of Mesonic Bound States in Nuclei

<i>Masahiko Iwasaki</i>	195
1 Introduction	195
2 Observation of Deeply Bound Pionic Atoms.....	196
3 Study of the Kaonic Atom.....	198
4 Search for Kaon Bound States	204
5 Search for the ϕ -Meson Bound States	214
6 Summary.....	226
References	227

Muon Particle and Nuclear Physics Programs at J-PARC

<i>Yoshitaka Kuno</i>	231
1 Overview	231
2 Physics Motivation of Lepton Flavor Violation of Charged Leptons ..	234
3 Phenomenology of $\mu^- \rightarrow e^-$ Conversion	238
4 Overview of LFV Searches at J-PARC	242
5 Phase 1: COMET: $\mu - e$ Conversion at 10^{-16}	243
6 Phase 2: PRISM: $\mu - e$ Conversion at 10^{-18}	256
7 Summary	261
References	261
Index	263
