List of contributors, vii

Preface, x

List of abbreviations, xi

About the companion website, xxii

Section I: Transfusion medicine from ancient times to the current pandemic

- 1** Transfusion in the new millennium, 3
Ennio C. Rossi and Toby L. Simon
- 2** Disasters and the blood community (including COVID-19), 14
Ruth Sylvester and Louis M. Katz
- 3** Responding to regulatory challenges during public health emergencies, 21
Peter W. Marks

Section II: Blood donation

- 4** Recruitment and screening of donors and the collection of blood, 27
Susan N. Rossmann, Mary Townsend, and Toby L. Simon
- 5** Blood donor testing, 37
Nancy Van Buren and Jed B. Gorlin
- 6** Acute adverse reactions after blood donation, 49
Anne F. Eder
- 7** Chronic effects of blood and plasma donation, 56
Bryan R. Spencer and Toby L. Simon
- 8** Global perspective: ensuring blood and blood product safety and availability through regulation and certification, 65
Eva D. Quinley

Section III: Blood groups and pretransfusion testing

- 9** Carbohydrate blood groups, 81
Laura Cooling
- 10** Rh and LW blood group antigens, 100
Aline Floch, Don L. Siegel, and Connie M. Westhoff
- 11** Other protein blood groups, 109
Jennifer Ricci Hagman and Jill R. Storry
- 12** Immunohematology and compatibility testing, 118
Connie M. Westhoff and Lynsi Rahorst

Section IV: Blood components

Part I: Red cells

- 13** Red blood cell production and kinetics, 133
Mark J. Koury and Lionel Blanc

- 14** Red blood cell metabolism and preservation, 143
John R. Hess and Angelo D'Alessandro

Part II: Platelets

- 15** Platelet production and kinetics, 158
Thomas C. Binns, Christopher A. Tormey and Henry M. Rinder
- 16** Platelet immunology and alloimmunization, 168
Cheryl L. Maier, Seema R. Patel, and H. Clifford Sullivan
- 17** Preparation, preservation, and storage of platelet concentrates, 179
Moritz Stolla, Valery J. Li, and Johnathan P. Mack

Part III: White cells

- 18** Neutrophil production and kinetics: neutropenia and neutrophilia, 188
Lawrence Rice and Eric Salazar
- 19** Granulocyte collection and transfusion, 194
Jenny Petkova, Corinne Goldberg, and Jeffrey McCullough

Part IV: Plasma

- 20** Composition of plasma, 200
Peter Hellstern
- 21** Plasma and cryoprecipitate for transfusion, 209
Torunn Oveland Apelseth, Simon J. Stanworth, and Laura Green
- 22** The purification of plasma proteins for therapeutic use, 216
Nathan Brinkman, Karl McCann, and Barry Gooch
- 23** Immunoglobulin products, 236
Melvin Berger

Section V: Apheresis

- 24** Basic principles of apheresis and the collection of blood components by apheresis, 251
Edwin A. Burgstaler and Jeffrey L. Winters
- 25** Therapeutic apheresis: plasma processing, 259
Patricia A. R. Bruncker and Monica B. Pagano
- 26** Therapeutic phlebotomy and cellular hemapheresis, 278
Patricia A. R. Bruncker and Jeffrey A. Bailey

Section VI: Blood transfusion

- 27** Patient blood management, 293
Darrell J. Triulzi, Jansen N. Seheult, Mark H. Yazer, and Jonathan H. Waters
- 28** Clinical and technical aspects of blood administration, 306
Edward S. Lee, Debra L. Mraz, and Edward L. Snyder
- 29** Anemia and red blood cell transfusion, 314
Jeffrey L. Carson, Asher A. Mendelson, and Paul C. Hébert

- 30** Sickle cell disease, thalassemia, and hereditary hemolytic anemias, 326
Ross M. Fasano, Emily Riehm Meier, and Satheesh Chonat
- 31** Autoimmune hemolytic anemias and paroxysmal nocturnal hemoglobinuria, 346
Christopher A. Tormey and Alexa J. Siddon
- 32** Hemolytic disease of the fetus and newborn, 364
Jennifer Webb, Wen Lu, and Meghan Delaney
- 33** Obstetric transfusion practice, 373
James Sikora and John D. Roback
- 34** Transfusion in infants and children, 381
Jeanne E. Hendrickson and Cassandra D. Josephson
- 35** Thrombocytopenia and platelet transfusion, 392
Michael F. Murphy, Simon J. Stanworth, and Lise J Estcourt
- 36** Management of immune-mediated thrombocytopenia, 402
Caroline Gabe, Donald M. Arnold, James W. Smith, and Theodore E. Warkentin
- 37** Coagulation concentrates for inherited bleeding disorders, 424
Gary M. Woods and Robert F. Sidonio, Jr.
- 38** Coagulation factor concentrates and pharmacologic therapies for acquired bleeding disorders, 443
Natalie Bavli and Ravi Sarode
- 39** Perioperative transfusion practice, 453
Leanne Thalji, Allan M. Klompas, Matthew A. Warner, Daryl J. Kor, and James R. Stubbs
- 40** Transfusion therapy in the care of trauma and burn patients, 471
John R. Hess, Benjamin R. Huebner, Samuel P. Mandell and Eileen M. Bulger
- 41** Transfusion support for the oncology patient, 482
Kristin M. Stendahl, Wade L. Schulz, and Edward L. Snyder
- 42** Pathogen-reduced blood components and derivatives, 489
Edward S. Lee, Edward L. Snyder, and Jeffrey McCullough

Section VII: Adverse sequelae of transfusion

- 43** Hemovigilance: weighing the risks versus benefits of transfusion, 503
Scott Koepsell
- 44** Transfusion-transmitted viral infections (TTVIs), 507
Eric A. Gehrie

- 45** Transfusion transmission of parasites and prions, 523
Bryan R. Spencer and Paula P. Saá
- 46** Bacterial contamination of blood components, 533
Evan M. Bloch, Richard J. Benjamin, and Sandra Ramirez-Arcos
- 47** Hemolytic transfusion reactions, 543
Sandhya R. Panch and Celina Montemayor
- 48** Nonhemolytic transfusion reactions, 553
Emmanuel A. Fadeyi and Gregory J. Pomper
- 49** Transfusion-related acute lung injury and other respiratory-related transfusion reactions, 569
E. Alexander Dent and H. Clifford Sullivan
- 50** Transfusion-associated graft-versus-host disease, 582
Eric A. Gehrie and Courtney E. Lawrence
- 51** Transfusional iron overload, 587
Sujit Sheth

Section VIII: Cellular and tissue transplant technologies

- 52** Hematopoietic growth factors, 601
David J. Kuter
- 53** Hematopoietic stems cells and transplantation, 617
Garrett S. Booth
- 54** HLA antigens, alleles, and antibodies, 624
Scott M. Krummey, Robert A. Bray, Howard M. Gebel, and H. Clifford Sullivan
- 55** Chimeric antigen receptor T cells and other cellular immunotherapies, 633
Andrew D. Fesnak and Don L. Siegel
- 56** Gene therapy applications to transfusion medicine, 642
Seena Tabibi, Eric A. Gehrie, Emanuela M. Bruscia, and Diane S. Krause
- 57** Tissue engineering and regenerative medicine, 648
Cecilia Motta, Qi Xing, Cynthia Wilkins, and Julie Allickson
- 58** Human tissue allografts: responsibilities in understanding the path from donor to recipient, 660
Cassandra D. Josephson and Matthew J. Kuehnert

Index, 674
