PREFACE TO THE ENGLISH EDITION v

ACKNOWLEDGMENTS FOR THE GERMAN EDITION vii

chapter 1

physical basis of dermatologic radiotherapy 1

- 1.1 ELECTROMAGNETIC RADIATION 1
- 1.2 PRODUCTION OF X RAYS 2
 - *Bremsstrahlung* 2
 - *Characteristic radiation* 3
- 1.3 THE X-RAY TUBE 5
- 1.4 RADIATION QUALITY 6
 - *Factors affecting radiation quality* 6
- 1.5 RADIATION QUANTITY 9
- 1.6 INTERACTION OF X RADIATION AND MATTER 9

	▪ <i>Half-value layer (HVL); half-value thickness (HVT)</i>	10
	▪ <i>Attenuation</i>	12
1.7	RADIATION DOSIMETRY	13
	▪ <i>Basic concepts</i>	13
	▪ <i>Special concepts</i>	15
	▪ <i>Basic methods</i>	17
	▪ <i>Dosimeters commonly used in dermatologic radiation therapy</i>	18
	▪ <i>Frequency of calibration</i>	19
	▪ <i>Procedure of dose measurement</i>	19
	▪ <i>Measurement of dose distribution in the body</i>	21
1.8	SELECTION OF PHYSICAL TREATMENT FACTORS	23
	▪ <i>Factors affecting radiation quality</i>	25
	▪ <i>Factors affecting radiation quantity</i>	26
	▪ <i>Cones</i>	27
	▪ <i>Exposure time</i>	27
	▪ <i>Synopsis of the effects of changes in physical factors</i>	28
	▪ <i>Practical considerations governing selection of treatment factors</i>	31
1.9	METHODS OF DERMATOLOGIC RADIOTHERAPY	34
	▪ <i>Grenz-ray therapy</i>	34
	▪ <i>Contact therapy</i>	35
	▪ <i>Soft x-ray therapy</i>	36
	▪ <i>Superficial x-ray therapy</i>	38
	▪ <i>Intermediate x-ray therapy</i>	38
	▪ <i>Orthovoltage therapy</i>	38
	▪ <i>Fast electrons (electron beam therapy)</i>	40
1.10	ROENTGEN THERAPY APPARATUS USED IN DERMATOLOGIC RADIATION THERAPY	42
1.11	RADIONUCLIDES	42
	▪ <i>Gamma-ray sources</i>	43

- *Beta-ray emitters* 43
- *Alpha-ray emitters* 43

chapter 2
general radiobiology 45

- 2.1 INTRODUCTION 45
- 2.2 PRIMARY REACTIONS TO PHYSICAL PROCESSES 45
 - *Chemical reactions* 46
 - *Biologic effects of radiation* 46
- 2.3 FACTORS INFLUENCING THE RESPONSE TO RADIATION 48
 - *Dose dependence* 48
 - *Effect of oxygen tension* 48
 - *Linear energy transfer (LET) dependence* 48
 - *Time dependence* 48
 - *Biologic and clinical factors* 48
- 2.4 ABSORPTION OF X RAYS IN SKIN, SUBCUTANEOUS TISSUE, CARTILAGE, AND BONE 49
- 2.5 EFFECTS OF X RAYS ON SKIN AND SKIN APPENDAGES 50
 - *Roentgen erythema* 50
 - *Histology of the cutaneous reactions to radiation* 52
 - *Effect on hair follicles* 52
 - *Effects on sebaceous glands and sweat glands* 52
 - *Radiodermatitis* 53
 - *Influence of physical treatment factors on cutaneous reactions to radiation* 57

chapter 3
radiation safety and protection 61

- 3.1 GENERAL CONSIDERATIONS 61
- 3.2 SHIELDING 61
 - *Techniques* 62
- 3.3 DOSE LIMITS 65
 - *Occupational exposure* 65
 - *Maximum permissible cumulative dosage for benign dermatoses* 65

chapter 4
radiotherapy of cutaneous tumors 69

- 4.1 GENERAL CONSIDERATIONS 69
 - *Indications for x-ray therapy of cutaneous tumors* 69
 - *Advantages and disadvantages of radiotherapy* 70
 - *Practical procedure of x-ray therapy of cutaneous malignancies* 72
- 4.2 RADIOTHERAPY OF MALIGNANT EPITHELIAL TUMORS OF THE SKIN 77
 - *General considerations* 77
 - *Treatment planning* 77
 - *Specific indications* 80
 - *Variations of technique in different anatomic sites* 83
- 4.3 RADIOTHERAPY OF MALIGNANT MELANOMA 92

- 4.4 RADIOTHERAPY OF MALIGNANT MESODERMAL NEOPLASMS (SARCOMAS) 93
- 4.5 RADIOTHERAPY OF CUTANEOUS LYMPHOMAS, RETICULOSES, AND LEUKEMIAS 94
- 4.6 RADIOTHERAPY OF PREMALIGNANT SKIN CONDITIONS 99
 - *Pseudomalignant lesions* 103
- 4.7 RADIOTHERAPY OF BENIGN SKIN TUMORS 104
 - *Vascular tumors* 104
 - *Tumors of the lymphatic vessels* 107
 - *Tumors of the connective tissue* 108
 - *Benign epithelial tumors* 110

chapter 5
radiotherapy of benign dermatoses 113

- 5.1 GENERAL CONSIDERATIONS 113
- 5.2 SPECIFIC INDICATIONS 115
 - *Viral infections* 115
 - *Bacterial infections* 116
 - *Protozoal infections* 120
 - *Fungal infections* 120
 - *Dermatitis and eczema* 121
 - *Papulosquamous dermatoses* 125
 - *Dyskeratoses* 129
 - *Granulomatous diseases of the skin* 129
 - *Diseases of the connective tissue* 130
 - *Disturbances of pigmentation* 131
 - *Diseases of the sebaceous glands* 132

- *Diseases of the apocrine sweat glands* 132
- *Diseases of the eccrine sweat glands* 133
- *Disorders of the hair* 133
- *Diseases of the nails* 133

chapter 6
teleroentgen therapy of generalized
dermatoses 135

- 6.1 GENERAL CONSIDERATIONS 135
- 6.2 PHYSICAL FOUNDATION OF
TELEROENTGEN THERAPY 135
 - *Distribution of the dose rate* 136
 - *Depth of penetration* 136
- 6.3 RADIATION PROTECTION IN
TELEROENTGEN THERAPY 136
 - *Radiation protection for medical personnel* 137
- 6.4 TECHNICAL PROCEDURE 137
 - *Dosage* 137
- 6.5 INDICATIONS FOR TELEROENTGEN
THERAPY 137
