Introduction: More than a Century of Progress in Adult Orthodontic Treatment	xix
1 Potential Adult Orthodontic Patients – Who Are They?	1
Birte Melsen	
<i>Introduction</i>	<i>1</i>
<i>Who are the patients?</i>	<i>1</i>
<i>How do the patients express their needs?</i>	<i>6</i>
<i>The first visit</i>	<i>7</i>
<i>Communicating with the patient</i>	<i>9</i>
<i>Summary</i>	<i>10</i>
<i>References</i>	<i>10</i>
2 Diagnosis: Chief Complaint and Problem List	12
Birte Melsen, Marco A. Masioli	
<i>Introduction</i>	<i>12</i>
<i>Workup of a problem list – the interview and chief complaint</i>	<i>12</i>
<i>General health</i>	<i>15</i>
<i>Clinical examination</i>	<i>16</i>
<i>Extraoral examination</i>	<i>17</i>
<i>Extraoral photographs</i>	<i>19</i>
<i>Function of the masticatory system</i>	<i>22</i>
<i>Intraoral analysis – oral health</i>	<i>23</i>
<i>Evaluation of dental casts – arch form</i>	<i>24</i>
<i>Occlusal analysis</i>	<i>24</i>
<i>Space analysis</i>	<i>26</i>
<i>Cephalometric analysis</i>	<i>26</i>
<i>Final problem list</i>	<i>27</i>
<i>Indication for treatment</i>	<i>28</i>
<i>The presentation of the problem list – the tip of the iceberg</i>	<i>29</i>
<i>Concluding remarks</i>	<i>33</i>
<i>References</i>	<i>33</i>
3 Aetiology	35
Birte Melsen	
<i>Introduction</i>	<i>35</i>
<i>Biological background</i>	<i>35</i>
<i>Aetiology of malocclusions in adults</i>	<i>41</i>
<i>Age-related changes in the skeleton</i>	<i>42</i>

	<i>Age-related changes in the craniofacial skeleton</i>	46
	<i>Age-related changes in the local environment</i>	47
	<i>Consequences of deterioration of the dentition</i>	48
	<i>Case reports</i>	49
	<i>Conclusion</i>	52
	<i>References</i>	52
4	Interdisciplinary versus Multidisciplinary Treatments	54
	Birte Melsen
