

Table of Contents

Editor's Preface	vii
<i>Sphagnum</i> – A Mossy Story, by Hugo Sjörs	1
Progress Toward Understanding <i>Sphagnum</i> Section <i>Sphagnum</i> in Brazil, by Howard Crum	9
Phenotypic and Genotypic Variation in <i>Sphagnum</i> , by R.E. Daniels	31
Cytogenetics of <i>Sphagnum</i> , by M.E. Newton	61
Nitrogen Metabolism of <i>Sphagnum</i> , by Hansjörg Rudolph, Jan Hohlfeld, Sven Jacobowski, Petra von der Lage, Hannes Matlok, and Hanna Schmidt	79
Ion Behavior in <i>Sphagnum</i> Cell Walls, by Jack Dainty and Conrad Richter	107
Experimental Studies of Protonemal Morphogenesis in <i>Sphagnum</i> : The Role of Growth Regulators and the Cytoskeleton, by Jamie A. Goode, Anthony D. Stead, and Jeffrey G. Duckett	129
Mechanisms of Interactions Among <i>Sphagnum</i> Species Along Water-Level Gradients, by Håkan Rydin	153
Distribution of <i>Sphagnum</i> Species, Communities, and Habitats in Relation to Climate, by L. Dennis Gignac	187
Mineral Nutrients in Vegetation and Surface Layers of <i>Sphagnum</i> -Dominated, Peat-Forming Systems, by Nils Malmer	223
Decay and its Regulation in <i>Sphagnum</i> Peatlands, by Loretta C. Johnson and Antoni W.H. Damman	249
<i>Sphagnum</i> Species and Polluted Environments, Past and Future, by J.A. Lee, A.N. Parsons, and R. Baxter	297
Peat and People: A Review, by R.G. Turner	315
Index	329
Acknowledgments	338
