

Table of Contents

Representation, Similarity and Retrieval

Nested Graph-Structured Representations for Cases	1
<i>L. Macedo, Amílcar Cardoso</i>	
On Bayesian Case Matching	13
<i>P. Kontkanen, P. Myllymäki, T. Silander, and H. Tirri</i>	
Similarity Measures for Object-Oriented Case Representations	25
<i>R. Bergmann, A. Stahl</i>	
Exploring the Dialectic Between Abstract Rules and Concrete Facts: Operationalizing Principles and Cases in Engineering Ethics	37
<i>B. McLaren, K. Ashley</i>	
Defining and Combining Symmetric and Asymmetric Similarity Measures	52
<i>D. G. Bridge</i>	
Retrieval in a Prototype-Based Case Library: A Case Study in Diabetes Therapy Revision	64
<i>R. Bellazzi, S. Montani, and L. Portinale</i>	
Similarities and Reuse of Proofs in Formal Software Verification	76
<i>E. Melis, A. Schairer</i>	
Structured Cases, Trees and Efficient Retrieval	88
<i>F. Ricci, L. Senter</i>	
Case-Based Classification of Ultrasonic B-Scans: Case-Base Organisation and Case Retrieval	100
<i>J. Jarmulak</i>	

Adaptation and Reuse

Case-Based Model Selection for Engineering Diagnosis	112
<i>B. Raphael, I. Smith</i>	
Using Example-Based Reasoning for Selective Move Generation in Two Player Adversarial Games	126
<i>D. Sinclair</i>	

Reuse of Complex Electronic Designs: Requirements Analysis for a CBR Application	136
<i>I. Vollrath</i>	
Retrieval of Java Classes for Case-Based Reuse	148
<i>B. Tessem, R. A. Whitehurst, and C. L. Powell</i>	
WWW Assisted Browsing by Reusing Past Navigations of a Group of Users	160
<i>M. Jaczynski, B. Trousse</i>	
Reformulation in Case-Based Reasoning	172
<i>E. Melis, J. Lieber, and A. Napoli</i>	
An Adaptation Heuristic for Case-Based Estimation	184
<i>D. McSherry</i>	

Learning and Maintenance

Categorizing Case-Base Maintenance: Dimensions and Directions	196
<i>D. B. Leake, D. C. Wilson</i>	
Modelling the Competence of Case-Bases	208
<i>B. Smyth, E. McKenna</i>	
An Architecture for Maintaining Case-Based Reasoning Systems	221
<i>F. Heister, W. Wilke</i>	
A Study of Competence-Preserving Case Replacing Strategies in Case-Based Reasoning	233
<i>J. Surma, J. Tyburcy</i>	
Representation of Failure Context for Diagnosis of Technical Applications	239
<i>B. D. Netten</i>	
Different Learning Strategies in a Case-Based Reasoning System for Image Interpretation	251
<i>P. Perner</i>	

Case-Based Reasoning Models

Supporting Dialogue Inferencing in Conversational Case-Based Reasoning	262
<i>D. W. Aha, T. Maney, and L. A. Breslow</i>	
A Textual Case-Based Reasoning System Using XML on the World-Wide Web	274
<i>H. Shimazu</i>	
Study and Formalization of a Case-Based Reasoning System Using a Descriptive Logic	286
<i>S. Salotti, V. Ventos</i>	
Defining Knowledge Layers for Textual Case-Based Reasoning	298
<i>M. Lenz</i>	
A Case-Based Approach to User Modelling	310
<i>A. Micarelli, F. Sciarrone, L. Ambrosini, and V. Cirillo</i>	
A Generic Case-Based Framework for Assisting Instructional Design	322
<i>D. M. Zhang, L. Alem</i>	

Applications and Domains

Case-Based Reasoning in CARE-PARTNER: Gathering Evidence for Evidence-Based Medical Practice	334
<i>I. Bichindaritz, E. Kansu, and K. M. Sullivan</i>	
The Development of HOMER: A Case-Based CAD/CAM Help-Desk Support Tool	346
<i>M. Göker, T. Roth-Berghofer, R. Bergmann, T. Pantleon, R. Traphöner, S. Wess, and W. Wilke</i>	
Case-Based Design for Tablet Formulation	358
<i>S. Craw, N. Wiratunga, and R. Rowe</i>	
Experiences with Prototype Designs and Retrieval Methods in Medical Case-Based Reasoning Systems	370
<i>R. Schmidt, L. Gierl</i>	
CBR for the Reuse of Corporate SQL Knowledge	382
<i>M. Fagan, S. Corley</i>	

Case-Bases Incorporating Scheduling Constraint Dimensions: Experiences in Nurse Rostering	392
<i>S. Scott, R. Simpson</i>	
An Operator Support System Based on Case-Based Reasoning for the Plastic Moulding Injection Process	402
<i>M. Malek, M. P. Toitgans, J. L. Wybo, and M. Vincent</i>	
A CBR Architecture for Project Knowledge Management	414
<i>R. J. Aarts</i>	
SARA: A Case-Based Student Modelling System	425
<i>M. E. Shiri A., E. Aïmeur, and C. Frasson</i>	
An Interactive Case-Based Reasoning System for the Development of Image Processing Applications	437
<i>V. Ficet-Cauchard, C. Porquet, and M. Revenu</i>	
Virtual Reality as an Environment for CBR	448
<i>I. Watson, L. Oliveira</i>	
Collecting Experience on the Systematic Development of CBR Applications Using the INRECA Methodology	460
<i>R. Bergmann, S. Breen, E. Fayol, M. Göker, M. Manago, S. Schmitt</i>	
<i>J. Schumacher, A. Stahl, S. Wess, and W. Wilke</i>	
A Solution to Cure the Deviation Problems at Winders	471
<i>P. Renoux, R. MacHattie</i>	
Author Index	481
