Contents

Part I: Required Preliminary Mathematical Knowledge

1 Fundamentals 3
1.1 Sets, Relations and Maps 3
1.1.1 Sets 3
1.1.2 Relations 7
1.1.3 Maps 9
1.1.4 Countable Sets 14
1.1.5 Partially Ordered Sets, Directed Sets and Nets 16
1.1.6 Maximal Conditions and Minimal Conditions 19
1.2 Topological Spaces 21
1.2.1 Neighborhood Systems and Topologies 21
1.2.2 Limit Points Closure of a Set and Closed Sets 23
1.2.3 Interior and Boundary 26
1.2.4 Bases Countability Axioms Separability 27
1.2.5 Subspace Separation and Connected Sets 30
1.2.6 Convergence and Hausdorff Spaces 32
1.2.7 Various Special Types of Topological Spaces 35
1.3 Metrization 36
1.3.1 Continuous Functions 37
1.3.2 Metric and Pseudo-metric Spaces 38
1.3.3 Some Properties of Metrizable and Pseudo Metrizable Space 39
1.4 Measures 44
1.4.1 Algebras and Sigma-Algebras 45
1.4.2 Measures 47
1.5 Probability 50
1.5.1 Probability Space and Probability Measure 51
1.5.2 Some Useful Properties of Probability 52
1.6 Combinatoric Systems 56

Bibliografische Informationen
http://d-nb.info/992310261

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

Exercises ... 58
References ... 60

2 Lattices ... 61
2.1 Lattices ... 61
2.2 Distributive Lattices ... 67
2.3 Boolean Algebra ... 72
2.4 Completely Distributive Lattices ... 77
2.5 Topological Molecular Lattices ... 86
Exercises ... 92
References ... 94

Part II: Methodology and Mathematical Framework of AFS Theory

3 Boolean Matrices and Binary Relations ... 97
Exercises ... 109
Open Problems ... 110
References ... 110

4 AFS Logic, AFS Structure and Coherence Membership Functions ... 111
4.1 AFS Fuzzy Logic ... 111
4.1.1 EI Algebra ... 113
4.1.2 Simple Concepts and Complex Concepts ... 123
4.1.3 AFS Structure of Data ... 128
4.1.4 Coherence Membership Functions of the AFS Fuzzy Logic and the AFS Structure of Data ... 130
4.2 Coherence Membership Functions via AFS Logic and Probability ... 134
4.2.1 Coherence Membership Functions Based on the Probability Measures ... 135
4.2.2 Coherence Membership Functions Based on Weight Functions and Probability Distributions ... 136
4.3 Coherence Membership Functions and the Probability Measures of Fuzzy Events ... 142
4.3.1 The Probability Measures of Fuzzy Events ... 142
4.3.2 Coherence Membership Functions Based on Probability Measure of the Fuzzy Events ... 145
4.4 Coherence Membership Functions of Multi-normal Distributions and Gaussion Weights ... 146
4.5 Experimental Studies ... 151
4.5.1 Probability Distribution of Iris Plant Data ... 151
4.5.2 Consistency of the Membership Functions on the Observed Data and the Whole Space ... 153

4.5.3 Universality of the Laws Discovered on the Observed Data 155
4.5.4 Stability Analysis of AFS Fuzzy Logic on the Different Observed Data Sets Drawn from the Same Probability Space 158
Exercises 162
Open Problems 163
References 163

5 AFS Algebras and Their Representations of Membership Degrees 167
5.1 AFS Algebra 167
5.1.1 EI^n Algebras 167
5.1.2 $E^{\#}I^n$ Algebras 169
5.2 AFS Algebra Representation of Membership Degrees 174
5.3 Norm of AFS Algebra and Membership Functions of Fuzzy Concepts 178
5.4 Further Algebraic Properties of AFS Algebra 183
5.4.1 Order of EI Algebra 184
5.4.2 Algebraic Structures of EI Algebra 190
5.4.3 Algebraic Structures of EI^n Algebra 197
5.4.4 Algebraic Structures of $E^{\#}I^n$ Algebra 206
5.5 Combinatoric Properties of the AFS Structure 214
Exercises 219
Open problems 222
References 223

Part III: Applications of AFS Theory

6 AFS Fuzzy Rough Sets 227
6.1 Rough Sets and Fuzzy Rough Sets 227
6.1.1 Rough Sets and Their Equivalent Definition 228
6.1.2 Fuzzy Rough Sets 230
6.2 Fuzzy Rough Sets under Framework of AFS Theory 235
6.2.1 AFS Structure of Information Systems 235
6.2.2 Representations of Fuzzy Concepts in the Information Systems 236
6.2.3 Definitions of AFS Fuzzy Rough Sets 241
6.2.4 Some Properties of AFS Fuzzy Rough Sets 245
6.2.5 Algorithm of Approximating Upper and Lower Approximations of Fuzzy Concepts 249
6.2.6 Experiments 253
6.3 Comparisons with Fuzzy Rough Sets and Other Constructs of Rough Sets 257
6.3.1 Comparisons with Fuzzy Rough Sets 257

6.3.2 Comparisons with Other Constructs of Rough Sets ... 260
Exercises ... 262
Open problems ... 263
References ... 265

7 AFS Topology and Its Applications ... 269
7.1 Topology on AFS Structures and Topological Molecular Lattice on $^*EI^n$ Algebras ... 269
7.2 Topology on AFS Structures and Topological Molecular Lattice on EI^n Algebras ... 279
7.3 Fuzzy Similarity Relations Based on Topological Molecular Lattices ... 282
7.4 Fuzzy Clustering Algorithms Based on Topological Molecular Lattices ... 285
7.5 Empirical Studies ... 287
7.5.1 Empirical Examples of Taiwan Airfreight Forwarder ... 287
7.5.2 Experimental Studies on the Iris Data Set ... 290
Exercises ... 293
Open problems ... 294
Appendix A ... 295
Appendix B ... 296
References ... 299

8 AFS Formal Concept and AFS Fuzzy Formal Concept Analysis ... 303
8.1 Concept Lattices and AFS Algebras ... 304
8.2 Some AFS Algebraic Properties of Formal Concept Lattices 312
8.3 Concept Analysis via Rough Set and AFS Algebra ... 320
8.3.1 Monotone Concept ... 321
8.3.2 AFS Formal Concept ... 323
8.3.3 Rough Set Theory Approach to Concept Approximation ... 330
8.4 AFS Fuzzy Formal Concept Analysis ... 336
Exercises ... 343
Open problems ... 345
References ... 346

9 AFS Fuzzy Clustering Analysis ... 351
9.1 Elementary Fuzzy Clustering Method via AFS Fuzzy Logic ... 354
9.2 Applications of the Elementary Fuzzy Clustering for Management Strategic Analysis ... 370

9.2.1 Improvements of the Elementary Fuzzy Clustering Method 373
9.2.2 Experimental Study of the Liang's Algorithm 375
9.2.3 Applications of the Improved Algorithm 377
9.3 Feature Selection, Concept Categorization and Characteristic Description via AFS Theory 381
9.3.1 Feature Selection 382
9.3.2 Principal Concept Selection and Concept Categorization 384
9.3.3 Characteristic Description of Samples 390
9.3.4 AFS Fuzzy Clustering Algorithm Based on the $1/k - A$ Nearest Neighbors 391
9.3.5 AFS Fuzzy Clustering Algorithm Based on Principal Concepts and the Categories of Concepts 393
9.4 Experimental Evaluation of the Algorithms 395
9.4.1 Experimental Studies of AFS Fuzzy Clustering Algorithm Based on Principal Concepts and the Categories of Concepts 395
9.4.2 Experimental Results of AFS Fuzzy Clustering Algorithm Based on the $1/k - A$ Nearest Neighbors 405
Exercises 416
Open problems 417
References 417

10 AFS Fuzzy Classifiers 423
10.1 Classifier Design Based on AFS Fuzzy Logic 424
10.1.1 Classifier Design Based on AFS Fuzzy Logic 425
10.1.2 Experimental Results 427
10.2 AFS Classifier Design Based on Entropy Analysis 434
10.2.1 Fuzzy Entropy 435
10.2.2 Classifier Design 437
10.2.3 Experimental Studies 439
10.2.4 Experiment Studies of Parameters 446
10.2.5 Stability and Universality of the Coherence Membership Functions 450
10.2.6 Comparative Analysis 453
10.3 AFS Fuzzy Classifier Based on Fuzzy Decision Trees 454
10.3.1 Generation of Fuzzy Rules from AFS Decision Trees 456
10.3.2 Construction of AFS Decision Trees 459
10.3.3 Rule Extraction and Pruning 461
10.3.4 Determining the Optimal Threshold δ 464

10.3.5 Inference of Decision Assignment and Associated Confidence Degrees 468
10.3.6 Experimental Studies 469
10.3.7 Structure Complexity 477
Exercises 479
Open problems 479
Appendix A 480
References 485

Bibliography 491
