

Contents

1 General Fundamentals

1.1	A Historical Overview of the Development of Contrast Media for Diagnostic Imaging Procedures in Radiology <i>H. J. Maurer and W. Clauß</i>	1
1.2	Chemistry of X-Ray Contrast Media <i>T. Gulbrandsen</i>	6
1.3	Structure – Toxicity Relationships and Molecule Design <i>P. Dawson</i>	11
1.4	Results of Toxicological Tests Assessing the Risk of Nonionic Contrast Media in Humans <i>C. Schöbel and P. Günzel</i>	12
1.5	Physicochemical Properties of Contrast Media: Osmotic Pressure, Viscosity, Solubility, Lipophilicity, Hydrophilicity, Electrical Charge <i>U. Speck</i>	20
1.6	Pharmacokinetics of Contrast Media <i>W. Krause and G. Schuhmann-Gampieri</i>	26
1.7	Clinical Documentation of the Tolerance, Safety and Efficacy of X-Ray Contrast Media <i>E. Andrew, W. Clauß, A. Alhassan and H. P. Bohn</i>	34

2 Pharmaceutical Quality and Stability of Contrast Media

2.1	What Are the Steps in the Production of Contrast Media? <i>B. Wolden</i>	39
2.2	Which Chemical Degradation Products Are Formed? <i>D. Herrmann</i>	39

VI Contents

2.3	What Additives Do Contrast Media Formulations Contain? <i>B. Wolden</i>	40
2.4	What Is the Importance of Additives in Contrast Medium Formulations? <i>P. Dawson</i>	41
2.5	How Is the Sterility or Microbial Purity of Contrast Media Checked? <i>B. Wolden</i>	42
2.6	How Is the Chemical Stability of Contrast Media Checked? <i>B. Wolden</i>	42
2.7	How Are Contrast Media Checked for Freedom from Pyrogens? <i>B. Wolden</i>	43
2.8	To What Are Colour Changes of Contrast Media Attributable? <i>D. Herrmann and B. Wolden</i>	43
2.9	Does Particulate Contamination Occur, and How Important Is It? <i>B. Wolden</i>	44
2.10	Which Factors Reduce the Stability of Contrast Media, and What Are the Implications of Storage Recommendations? <i>D. Herrmann</i>	44
2.11	What Precautions Are Necessary in Drawing Up Contrast Media into Syringes and in Administering Them Using Infusion Devices? <i>D. Herrmann</i>	47
2.12	How Long Do Contrast Media Remain Usable After the Original Container Has Been Opened? <i>D. Herrmann</i>	48
2.13	May Contrast Media Be Diluted or Mixed with Other Drugs? <i>D. Herrmann</i>	49
2.14	Is the Resterilization and Reuse of Disposable Angiography Catheters Justified? <i>M. Thelen</i>	49

2.15	Is There an Increased Risk of Coagulation when Catheters Are Reused?	
	<i>P. Dawson</i>	51

3 Influence of Contrast Media on Organs and Vessels

3.1	What Are the Mechanisms of Toxicity Associated with Contrast Media?	
	<i>P. Dawson</i>	53
3.2	Do Contrast Media Affect the Viscosity of Blood?	
	<i>N. H. Strickland</i>	54
3.3	Are There Any Differences Between Ionic and Nonionic Contrast Media in Their Effect on Coagulation?	
	<i>P. Dawson</i>	57
3.4	Do Contrast Media Affect Cardiovascular Function?	
	<i>P. Dawson</i>	58
3.5	Do Contrast Media Affect Pulmonary Function?	
	<i>P. Dawson</i>	59
3.6	Do Contrast Media Affect Hepatic Function?	
	<i>V. Taenzer</i>	60
3.7	Do Contrast Media Affect Renal Function?	
	<i>J. E. Scherberich</i>	61
3.8	Do Iodinated X-Ray Contrast Media Affect Thyroid Function?	
	<i>B. Glöbel</i>	63
3.9	What Is the Relationship Between Iodinated Contrast Media and the Blood-Brain Barrier?	
	<i>P. Dawson</i>	64
3.10	Do Contrast Media Affect the Central Nervous System?	
	<i>M. R. Sage</i>	64
3.11	Do Contrast Media Affect Blood Vessel Walls?	
	<i>F. Laerum</i>	67

4 Determination of Risk Factors Regarding the Administration of Contrast Media

4.1	What Are the Known Risks of Contrast Media Use? <i>W. Clauß</i>	71
4.2	Does Known X-Ray Contrast Media Hypersensitivity and a History of Allergies Mean Increased Risk in Examinations Using X-Ray Contrast Media? <i>W. Clauß</i>	72
4.3	Does an Existing Iodine Allergy Mean Increased Risk in Examinations Using X-Ray Contrast Media? <i>W. Clauß</i>	73
4.4	Why Does the Administration of Iodinated Contrast Media to Patients with Manifest or Latent Hyperthyroidism Represent a Risk? <i>B. Glöbel</i>	74
4.5	Why Does the Administration of Iodinated Contrast Media Represent a Risk to Patients with Bland Nodular Goitre? <i>B. Glöbel</i>	75
4.6	Does Underlying Cardiovascular Disease Constitute an Increased Risk in Contrast Media Administration? <i>P. Dawson</i>	76
4.7	Why Is Pre-existing Lung Disease a Risk for the Administration of Contrast Media? <i>P. Dawson</i>	77
4.8	Why Is Pre-existing Renal Impairment a Risk in the Administration of Contrast Media? <i>J. E. Scherberich</i>	77
4.9	Why Is Pre-existing Diabetes Mellitus a Risk in the Administration of Contrast-Media? <i>J. E. Scherberich</i>	77
4.10	Why Is Pre-existing Paraproteinaemia a Risk in the Administration of Contrast Media? <i>J. E. Scherberich</i>	78

4.11	How Can the Risk of Provoking a Hypertensive Crisis in Patients with Pheochromocytoma Be Reduced?	
	<i>P. Dawson</i>	78
4.12	Can Dehydration Before Contrast Media Administration Be Recommended Today?	
	<i>J. E. Scherberich</i>	79
4.13	Are Patients with Autoimmune Disorders at Any Particular Risk on Contrast Media Administration?	
	<i>P. Dawson</i>	80
4.14	Does the Administration of Iodinated Contrast Media to Patients with Sickle Cell Anaemia Result in Further Change in Erythrocytic Shape?	
	<i>R. Dickerhoff</i>	81
4.15	Are Contrast Media-Induced Side Effects Dependent on Age?	
	<i>H. Katayama</i>	82
4.16	Does Weather Influence the Rate of Undesirable Reactions to Contrast Media Administration?	
	<i>D. Zuckert</i>	83
4.17	Can Contrast Media Procedures Be Carried Out Despite Defined Risks?	
	<i>P. Dawson</i>	84
4.18	What Interactions Are Known Between the Administration of Contrast Media and Other Medications?	
	<i>P. Dawson</i>	85
4.19	What Is the Role of X-Ray Contrast Media Administered During Pregnancy or in Nursing Mothers?	
	<i>H. Imhof and K. Vergesslich</i>	86

5 Prophylactic Measures

5.1	What Is the Place of Fasting and Dehydration Before Contrast Media Administration?	
	<i>W. Clauß</i>	89

X Contents

5.2	Can Hypersensitivity Reactions to Contrast Media Be Predicted Through Preliminary Testing? <i>W. Clauß and V. Taenzer</i>	91
5.3	Is Sedation Indicated Before Administering Contrast Media? <i>G. Wisser</i>	91
5.4	Does General Anaesthesia Prevent the Occurrence of Contrast Media-Induced Side Effects? <i>G. Wisser</i>	92
5.5	Can the Rate of Contrast Media-Induced Side Effects Be Lowered by Premedication with Antihistamines? <i>R. Tauber</i>	93
5.6	Can the Adverse Reactions Rate/Be Reduced by Administration of Corticosteroids? <i>W. Clauß</i>	94

6 Informing the Patient Prior to Contrast Media Administration

6.1	What Is the Patient's "Right to Know" Prior to an X-Ray Examination Using Contrast Media? <i>H. J. Maurer and W. Spann</i>	97
6.2	What Special Information Should a Healthy Volunteer/Patient Receive Who Is Participating in a Clinical Study of a New Drug? <i>W. Clauß and E. Andrew</i>	98

7 Administration of Contrast Media

7.1	Are Contrast Media Heated to Body Temperature Better Tolerated? <i>P. Dawson</i>	101
7.2	Are There Any Guidelines for Maximum Doses in Angiography? <i>P. Dawson</i>	102

7.3	Are There Any Guidelines for Maximum Doses in Myelography?	
	<i>I. O. Skalpe</i>	102
7.4	Are There Any Guidelines for Maximum Doses in Cholegraphy?	
	<i>V. Taenzer</i>	103
7.5	Can "Maximum" Doses Be Exceeded?	
	<i>P. Dawson</i>	103
7.6	Does the Injection Rate Affect the Tolerance?	
	<i>P. Dawson</i>	104
7.7	What Fluids Can be Recommended for Flushing Catheters?	
	<i>P. Dawson</i>	105

8 Adverse Reactions and Their Pathophysiology and Management

8.1	What Adverse Reactions Can be Expected After Administration of Contrast Media?	
	<i>R. G. Grainger</i>	107
8.2	Do Late-Occurring Adverse Reactions to Contrast Media Necessitate Longer Supervision of the Patient?	
	<i>P. Davies</i>	109
8.3	Do Late Reactions Occur More Frequently After Administration of Nonionic Contrast Media?	
	<i>P. Davies</i>	111
8.4	What Are the Mediators of Anaphylactoid Reactions to Iodinated Contrast Media?	
	<i>P. Dawson</i>	112
8.5	What Adverse Reactions to Contrast Media Are Dose Independent or Dependent?	
	<i>H. Katayama</i>	113
8.6	Are Antibodies to Radiographic Contrast Media Known?	
	<i>R. C. Brasch</i>	114

8.7	Are There Allergies to Contrast Media? <i>R. C. Brasch</i>	115
8.8	Can Sensitization Due to Frequent Contrast Media Administration Be Observed? <i>R. C. Brasch</i>	116
8.9	Can Epileptogenicity and Arachnoiditis Be Observed After Myelography with Nonionic Contrast Media? <i>I. O. Skalpe</i>	116
8.10	Are Contrast Media Dialysable? <i>J. E. Scherberich</i>	117
9	Clinical Use of Iodinated Contrast Media for the Visualization of Vessels, Organs and Organ Systems	
9.1	Carotid and Vertebral Arteries and Cerebral Vessels <i>I. O. Skalpe</i>	119
9.2	Spinal Angiography and Phlebography <i>A. Thron</i>	122
9.3	Angiography of the Extremities <i>H. J. Maurer</i>	128
9.4	Phlebography <i>B. Hagen</i>	133
9.5	Direct Lymphography and Indirect Lymphangiography <i>H. Weissleder</i>	138
9.6	Angiography and Thoracic Aortography <i>P. Romaniuk</i>	144
9.7	Angiographic Procedures for the Liver, Spleen, Pancreas and Portal Venous System <i>W. Rödl</i>	161
9.8	Computed Tomography in the Liver, Pancreas and Spleen <i>A. Adam</i>	169

9.9	The Gastrointestinal Tract <i>W. Dihlmann and L. Hering</i>	176
9.10	Contrast Media in the Gallbladder and Bile Ducts <i>V. Taenzer</i>	190
9.11	Intravenous Urography <i>P. Dawson</i>	192
9.12	Urethrography and Micturating Cystography, Cavernosography, and Seminal Vesiculography and Vasography <i>D. Rickards</i>	196
9.13	The Kidneys and Adrenal Glands <i>G. P. Krestin</i>	202
9.14	Contrast Media in Gynaecology <i>H. J. Maurer and J. G. Heep</i>	208
9.15	Arthrography <i>V. Papassotiriou</i>	213
9.16	What Advantages Do Nonionic Contrast Media Have for Paediatric Patients? <i>H. J. Kaufmann and C. Bassir</i>	222
9.17	What Is the Role of Newer Contrast Media in Interventional Radiology? <i>P. Dawson</i>	225
10	Contrast Media for Magnetic Resonance Imaging and Ultrasound	
10.1	Contrast Media for Clinical Magnetic Resonance Imaging <i>H. P. Niendorf and J. C. Dinger</i>	227
10.2	Ultrasonographic Contrast Media <i>R. Schliefl, R. Schürmann, and H. P. Niendorf</i>	234
