

Contents

Chapter 1 The Perinatal Necropsy

Jean W. Keeling

Introduction	1
Importance of Negative Findings	2
Adequate Clinical Information	3
Place of Structured Request Forms in Perinatal Pathology	3
Growth and Development	6
Equipment for Perinatal Necropsy	8
Post-mortem Examination	9
Examination of the Placenta	29
The Post-mortem Report	32
Appendix	32

Chapter 2 Placenta and Umbilical Cord and the Immunology of Pregnancy

T. Yee Khong

Introduction	47
Development of the Placenta	47
Multiple Pregnancy	55
Abnormalities in Development and Placentation	58
Placental Macroscopic Abnormalities	59
Placental Microscopic Abnormalities	62
Umbilical Cord and Membranes	63
Placenta Following Intrauterine Fetal Death	66
Placental Oedema	66
Placenta in Genetic and Congenital Abnormalities of the Fetus	67
Placenta in Sudden Infant Death Syndrome	67
Placenta in Maternal Disorders	68
Intrauterine Growth Retardation	71

Infection	71
Immunological Aspects of Placentation	77
Morphological Correlates of Pregnancy Immunology	80

Chapter 3 Spontaneous Abortion and the Pathology of Early Pregnancy

Simon Knowles

Spontaneous Abortion	87
Ectopic Gestation	100
Molar Placental Disease	102

Chapter 4 Congenital Malformations, Prenatal Diagnosis and Fetal Examination

Jean W. Keeling and Patricia A. Boyd

Introduction	111
Definitions	111
Causes of Congenital Malformations	112
Prenatal Diagnosis	117
Prenatal Maternal Serum Screening	122
Examination of Fetus and Placenta	124
Artefactual Abnormalities	127
Specific Fetal Anomalies	129
Chromosome Anomalies	139
Amnion Rupture Sequence	141

Chapter 5 Genetic Metabolic Disease

Geoffrey A. Machin

Introduction	149
Prenatal Diagnosis	152
Pathogenesis and Classification	153
Clinical Presentation	154
Screening	159
Necropsy and Biopsy Investigation	160
Reference Laboratories for Investigation of Metabolic Disorders	161

Chapter 6 Epidemiology of Fetal and Neonatal Death

Jean Golding

Introduction	165
Accuracy of Perinatal Death Statistics	165
Epidemiological Analyses	167
Studies of Perinatal Mortality	167
Causes of Perinatal Death	168
Avoidability of Death	173
Cause or Association	174
Maternal and Environmental Factors Associated with Perinatal Death	174
Characteristics of the Infant	177
Conclusions	178

Chapter 7 Macerated Stillbirth*Isabella E. Moore*

Introduction	183
Changes Associated with Maceration	183
Limitations of Examination	185
Histological Examination	186
Additional Investigations	187
Examination of the Placenta	188
Pathological Findings in Macerated Stillbirths	189
Conclusions	195

Chapter 8 Prematurity*Gillian Batcup*

Introduction and Definitions	199
Predisposing Factors	200
Spontaneous Preterm Delivery	202
Pathology of the Preterm Infant	205
Conclusions	220

Chapter 9 Pathology of Twinning*Geoffrey A. Machin*

Introduction	223
Prevalence, Types and Causes of Multiple Births	223
Methods of Zygosity Determination	224
Prenatal Detection of Twin Pregnancy	225
Complications of Monochorionic Twinning	225
Complications of Monoamniotic Twinning	230
Congenital Anomalies in Twins	231
Active Management of Vascular Sequelae in Monochorionic Twins	231
Practical Twin Pathology	233

Chapter 10 Intrapartum Asphyxia and Birth Trauma*Jean W. Keeling*

Introduction	239
Fetal Response to Asphyxia	240
Fetal Response to Labour	240
Incidence	241
Placental Factors During Labour	241
Maternal Factors in Labour	242
Fetal Factors in Labour	242
Intrapartum Asphyxial Insult	244
Traumatic Birth Injury	246

Chapter 11 Fetal Hydrops*Jean W. Keeling*

Introduction	253
--------------------	-----

Distribution and Control of Fetal Fluid	254
Mechanisms of Fetal Hydrops	255
Causes and Associations of Fetal Hydrops	255
Pathological Findings	259
Significance of Pathological Abnormalities	266
Investigation of Fetal Hydrops	267

Chapter 12 Congenital Tumours

P. Jeremy Berry

Introduction	273
Incidence	274
Aetiology	274
Investigation of Congenital Tumours	277
Teratomas	277
Congenital Neuroblastoma	280
Renal Tumours	283
Liver Tumours	286
Congenital Mesenchymal Tumours	287
Congenital Leukaemia	290
Tumours of the Central Nervous System	290
Maternal Malignant Disease in Pregnancy	290

Chapter 13 Infection in Pregnancy and the Neonatal Period

Helen Holzel

Adverse Effects of Infection During Pregnancy	295
Introduction	295
Viral Infection	295
Parasitic Infection	302
Bacterial Infection	304
Infection in the Neonate	306
Introduction	306
Congenital Infection	307
Bacterial Infection	308
Acute Neonatal Viral Infection	312
Investigation of Infection	314

Chapter 14 Iatrogenic Disease

Jean W. Keeling

Introduction	323
Maternal Medication During Pregnancy	323
Prenatal Diagnosis	324
Intrapartum Monitoring	326
Breech Delivery	326
Neonatal Intensive Care	328
Medication	337
Nutritional Rickets	340
Necrotising Enterocolitis	340

Chapter 15 The Gastrointestinal Tract and Exocrine Pancreas*Dick Variend*

Development	347
Oral Cavity	348
Oesophagus	349
Stomach	350
Small Intestine	350
Colon and Rectum	359
Anorectal Malformations	363
Abdominal Wall Defects and Hernias	363
Exocrine Pancreas	366

Chapter 16 Liver and Gall Badder*D. Ian Rushton*

Embryology	373
Physiology	374
Classification of Fetal and Neonatal Liver Disease	375
Cholestasis	376
Neonatal Giant Cell Transformation	378
Conjugated Hyperbilirubinaemia	378
Extrahepatic Biliary Atresia	379
Paucity of the Intrahepatic Bile Ducts	380
Infectious Causes of Conjugated Hyperbilirubinaemia	381
Non-viral Infections	383
Metabolic Disorders	386
Perinatal Haemochromatosis	389
Cirrhosis, Fibrosis and Cystic Disease	389
Trauma and Iatrogenic Disease	390
Circulatory Disorders	393
Liver Disease in Babies of Diabetic Mothers	394
Malformations of the Liver	395
Tumours	396
Gall Bladder and Extrahepatic Bile ducts (Excluding EHBA)	397

Chapter 17 The Respiratory System*Steve J. Gould*

Introduction	403
Normal Development	404
Developmental Anomalies	407
Lung Hypoplasia	413
Acquired Pathology	416
Infection	423

Chapter 18 The Cardiovascular System*Jerry N. Cox and Jakob Briner*

Introduction	429
Development of the Heart	429
Changes in the Circulation at Birth	433
Persistent Fetal Circulation	433
Examination of the Heart	434

Congenital Heart Disease	435
Infection	446
Endocardial Fibroelastosis	448
Myocardial Necrosis	450
Tumours	451
Conduction System	452
Pericardium	455
Ductus Arteriosus	455
Aorta and Peripheral Vessels	457
Lymphatics	459

Chapter 19 The Urinary System

R. Anthony Risdon

Introduction	465
Development	465
Malformations of the Kidney	467
Tumours of the Kidney in the Neonate	477
Hereditary Abnormalities of Renal Tubular Transport	480
Renal Hypoperfusion	480
Congenital Nephrotic Syndrome	480
Renal Infection	483
Renal Glomerular Lesions in Cyanotic Congenital Heart Disease	483
Congenital Abnormalities of the Renal Pelvis and Ureter	484
Congenital Abnormalities of the Bladder	485
Congenital Abnormalities of the Urethra	486

Chapter 20 The Reproductive System

Jørn Müller and Niels Græm

Development	491
Intersex	494
Sex Chromosome Anomalies	496
Other Congenital Disorders of the Genitalia	496

Chapter 21 The Endocrine System

Elizabeth S. Gray

Introduction	499
Pituitary–Hypothalamic Axis	500
Adrenal Glands	502
Thyroid Gland	512
Parathyroid Glands	516
Endocrine Pancreas	517

Chapter 22 The Reticuloendothelial System and Blood

Colin L. Berry

Components of the Immune Response	529
Morphological Development	529
Cellular Development	530
Functional Aspects of Cellular Development	532
Abnormalities of the Immunoreactive Cells and Tissues	532

Thymus	533
Spleen	535
Lymph Nodes	536
Rhesus Isoimmunisation	537
Anaemia in Infancy	538

Chapter 23 Hydrocephalus and Malformations of the Central Nervous System

K. Michael Laurence

Development of the Central Nervous System	541
Hydrocephalus	544
Introduction	544
Clinical Features	544
Types of Hydrocephalus	544
Malformations Leading to Hydrocephalus	547
Inflammation Causing Hydrocephalus	551
Tumours Leading to Hydrocephalus	551
Neural Tube Defects	552
Introduction	552
Anencephaly	553
Cranial Meningocele and Encephalocele	555
Myelocele (Myelomeningocele)	557
Meningocele	559
Spina Bifida Occulta	559
Other Malformations of the Spinal Cord	559
Other Disorders with NTD as a Constant or Common Component	560
Arhinencephaly	561
Hydranencephaly	564
Agenesis of the Corpus Callosum	565
Cerebellar Malformations	566
Microcephaly	566
Megalencephaly	567
Micropolygyria	567
Porencephaly	568
Pachygyria, Lissencephaly and Agyria	568

Chapter 24 Acquired Diseases of the Nervous System

Marian V. Squier

Introduction	571
Haemorrhages	572
Brain Damage due to Hypoxia and Ischaemia	576
Vascular Malformations	585
Metabolic Disorders	586
Viral Infections	587
Protozoal Infections	589
Bacterial Infections	589
Fungal Infections	591

Chapter 25 Skeletal Muscle and Peripheral Nerves

J. Patrick Barbet

Development of Skeletal Muscle	595
Investigation of Neuromuscular Disease	602

Generalised Abnormalities	602
Localised Abnormalities	615

Chapter 26 The Skeletal System

Hans J. van der Harten

Introduction	619
Normal Development of the Skeleton	620
Osteochondrodysplasias	621
Other Generalised Skeletal Abnormalities Associated with Perinatal Death	632
Other Skeletal Abnormalities	635
Fractures	635
Osteomyelitis	635

Chapter 27 The Skin

Peter R. Millard

Development of the Skin	641
Disorders of Development	644
Dermal Developmental Disorders	646
Developmental Abnormalities of Pigment	646
Common Neonatal Skin Conditions	647
Birthmarks	649
Congenital Infections with Skin Manifestations	654
Congenital Genetically Determined Diseases	656
Blistering Disorders	659
Skin Disorders with Disordered Immune Responses	662
Skin Infiltrations and Tumour-like Lesions	663

Chapter 28 The Special Senses

Brendan McDonald

Introduction	667
The Eye	667
Embryology	667
Postnatal Development of the Eye	671
Synopsis of Eye Structure on Completion of Development	671
Developmental Abnormalities of Oculogenesis	672
Retinopathy of Prematurity (Retrolental Fibroplasia)	679
Vitreoretinal Disorders	680
Disorders of Ocular Pigmentation	680
Disorders of Optic Nerve Development	680
Infection and the Eye	681
The Ear	683
Embryology	683
Developmental Abnormalities of the Ear	684
Syndromes Affecting Oculogenesis and Otogenesis	685
Olfaction	685
Embryology	685
Congenital Disorders of Olfaction	686
Taste	686
Subject Index	689
