

Table of Contents

Involving Humans

On the Design of <i>Forgiving</i> Biometric Security Systems	1
<i>Raphael C.-W. Phan, John N. Whitley, and David J. Parish</i>	
Remotely Telling Humans and Computers Apart: An Unsolved Problem	9
<i>Carlos Javier Hernandez-Castro and Arturo Ribagorda</i>	

Web 2.0

Leveraging Social Links for Trust and Privacy in Networks	27
<i>Leucio Antonio Cutillo, Refik Molva, and Thorsten Strufe</i>	
Open Problems in Web 2.0 User Content Sharing	37
<i>San-Tsai Sun and Konstantin Beznosov</i>	

Protecting Resources

Mitigating Drive-By Download Attacks: Challenges and Open Problems	52
<i>Manuel Egele, Engin Kirda, and Christopher Kruegel</i>	
Context-Dependent Authentication and Access Control	63
<i>Michael Kirkpatrick and Elisa Bertino</i>	

Pervasive Devices

New Directions in RFID Security	76
<i>Erik-Oliver Blass and Refik Molva</i>	
Tailored Security and Safety for Pervasive Computing	85
<i>Erik-Oliver Blass and Martina Zitterbart</i>	

Protocol Security

Rational Protocols	93
<i>Christian Cachin</i>	
Security Issues for P2P-Based Voice- and Video-Streaming Applications	95
<i>Jan Seedorf</i>	

Threshold Things That Think: Authorisation for Resharing	111
<i>Roel Peeters, Markulf Kohlweiss, and Bart Preneel</i>	

Privacy

Privacy Policies, Tools and Mechanisms of the Future	125
<i>Vincent Naessens, Mehmet Tahir Sandikkaya, Jorn Lapon, Kristof Verslype, Pieter Verhaeghe, Girma Nigusse, and Bart De Decker</i>	

Security and Privacy Preservation in Human-Involved Networks.....	139
<i>Craig Asher, Jean-Philippe Aumasson, and Raphael C.-W. Phan</i>	

Discussing Anonymity Metrics for Mix Based Anonymity Approaches...	149
<i>Dang Vinh Pham and Joss Wright</i>	

Author Index	169
