Preface	iii
1 Fredholm Theory in Paraalgebras	1
1.1 Paraalgebras	1
1.2 Fredholm Elements	4
1.3 Admissible Ideals	9
1.4 Minimal Ideals	11
1.5 The Pre- and Quasi-Socle	16
1.6 Semi-Simple Paraalgebras	19
2 Majorized Operators on Banach-Kantorovich Spaces	21
2.1 Introduction	21
2.2 The Paraalgebra of Majorized Operators	22
2.3 Principal Ideals	23
2.4 Located Operators	26
2.5 Fredholm Elements	29
2.6 Other Admissible Ideals	32
2.7 The Situation in Banach Lattices	35
3 Interpolation Morphisms	37
3.1 Introduction	37
3.2 Compatible Couples of Banach Spaces	38
3.3 The Paraalgebra of Interpolation Morphisms	39
3.4 Fredholm Elements	44
3.5 Interpolation of Fredholm Elements	52
3.6 Perturbation Results for the Real Interpolation Method	53

4	Triangular Operators on Nests	57
4.1	Introduction	57
4.2	The Mappings M_+ and M_-	58
4.3	Finite Dimensional Triangular Operators	59
4.4	The Paraalgebra of Triangular Operators	63
4.5	Fredholm Elements	69
4.6	Compact Triangular Operators	74
	Bibliography	77
	Curriculum vitae	80
