

Table of Contents

Synthesis of Ruthenium(II) Complexes of Aromatic Chelating Heterocycles: Towards the Design of Luminescent Compounds	
R. Krause	1
Platinum Amine Coordination Compounds as Anti-Tumor Drugs. Molecular Aspects of the Mechanism of Action	
J. Reedijk, A. M. J. Fichtinger-Schepman, A. T. van Oosterom, P. van de Putte	53
The Chemistry of Chelating Agents in Medical Sciences	
R. A. Bulman	91
Author Index Volumes 1–67	143
