

Contents

- 405 Introduction: Seismogenic and Tsunamigenic Processes in Shallow Subduction Zones
J. Sauber, R. Dmowska
- 409 Dynamic Stress Drop of Recent Earthquakes: Variations within Subduction Zones
L. J. Ruff
- 433 Comparison of Depth Dependent Fault Zone Properties in the Japan Trench and Middle America Trench
S. L. Bilek, T. Lay
- 457 Changes in Earthquake Source Properties across a Shallow Subduction Zone: Kamchatka Peninsula
V. M. Zobin
- 467 Sources of Tsunami and Tsunamigenic Earthquakes in Subduction Zones
K. Satake, Y. Tanioka
- 485 Local Tsunamis and Distributed Slip at the Source
E. L. Geist, R. Dmowska
- 513 Geologic Setting, Field Survey and Modeling of the Chimbote, Northern Peru, Tsunami of 21 February 1996
J. Bourgeois, C. Petroff, H. Yeh, V. Titov, C. E. Synolakis, B. Benson, J. Kuroiwa, J. Lander, E. Norabuena
- 541 Asperity Distribution of the 1952 Great Kamchatka Earthquake and its Relation to Future Earthquake Potential in Kamchatka
J. M. Johnson, K. Satake
- 555 The October 4, 1994 Shikotan (Kuril Islands) Tsunamigenic Earthquake: An Open Problem on the Source Mechanism
A. Piatanesi, P. Heinrich, S. Tinti
- 575 Relation between the Subducting Plate and Seismicity Associated with the Great 1964 Alaska Earthquake
R. von Huene, D. Klaeschen, J. Fruehn

- 593 Seismicity of the Prince William Sound Region for over Thirty Years Following the 1964 Great Alaskan Earthquake
D. I. Doser, A. M. Veilleux, M. Velasquez
- 633 Historical Seismicity and Seismotectonic Context of the Great 1979 Yapen and 1996 Biak, Irian Jaya Earthquakes
E. A. Okal
- 677 Rupture Process of the 1995 Antofagasta Subduction Earthquake ($M_w=8.1$)
D. L. Carlo, T. Lay, C. J. Ammon, J. Zhang
- 709 GPS-derived Deformation of the Central Andes Including the 1995 Antofagasta $M_w=8.0$ Earthquake
J. Klotz, D. Angermann, G. W. Michel, R. Porth, C. Reigber, J. Reinking, J. Viramonte, R. Perdomo, V. H. Rios, S. Barrientos, R. Barriga, O. Cifuentes
- 731 Source Characteristics of the 12 November 1996 M_w 7.7 Peru Subduction Zone Earthquake
J. L. Swenson, S. L. Beck
- 753 Seismic Subduction of the Nazca Ridge as Shown by the 1996–97 Peru Earthquakes
W. Spence, C. Mendoza, E. R. Engdahl, G. L. Choy, E. Norabuena
