

Contents

1	Classification and epidemiology	
	<i>M. Hanefeld</i>	
1.1	Introduction and classification	1
1.2	NIDDM sub-groups	2
1.3	Impaired glucose tolerance (IGT)	3
1.4	Epidemiology of NIDDM	3
1.5	Mortality and causes of death in NIDDM	4
1.6	Summary	5
2	Pathophysiology	
	<i>M. Weck</i>	
2.1	Genetic and environmental factors	7
2.2	The triumvirate – B-Cells, musculature, liver – responsible for NIDDM	8
2.3	Cellular mechanisms of insulin resistance	14
2.4	The role of FFA in the pathogenesis of insulin resistance in NIDDM	16
2.5	Pathophysiological processes in the early stages of NIDDM	17
2.6	Glucose toxicity hypothesis	19
2.7	Summary	20
3	Course	
	<i>Sabine Fischer</i>	21
4	Uncomplicated type II diabetes: patient history and clinical findings	
	<i>J. Schulze</i>	25
4.1	Patient history	26
4.2	Clinical findings	28
4.3	Summary	29
5	The hormonal-metabolic syndrome in type II diabetes	31
5.1	Obesity	
	<i>M. Weck</i>	34
5.2	Dyslipoproteinemia	
	<i>M. Hanefeld</i>	42

5.3	Hypertension <i>J. Schulze</i>	49
5.4	Hyperuricemia <i>H.-E. Schröder</i>	56
5.5	Disturbances in the coagulation and the rheology <i>U. Julius</i>	61
5.6	Disturbances in the liver and biliary system	68
6	Diagnostics	
6.1	Clinical diagnostics <i>J. Schulze</i>	71
6.2	Laboratory diagnostics and self-monitoring <i>M. Weck</i>	74
7	Therapy	89
7.1	Health education and instruction <i>U. Julius</i>	91
7.2	Weight reduction <i>M. Weck</i>	98
7.3	Health promoting nutritional management <i>U. Julius</i>	111
7.4	Physical exercise <i>M. Hanefeld</i>	126
7.5	Oral hypoglycemics <i>M. Hanefeld, U. Julius</i>	130
7.6	Insulin therapy <i>J. Schulze, H. Rietzsch</i>	160
7.7	Differential therapy with antidiabetics <i>M. Hanefeld</i>	169
8	Special therapeutic aspects	
8.1	Treatment of hypertension <i>J. Schulze, Silke Meisel, M. Hanefeld</i>	175
8.2	Treatment of dyslipproteinemia <i>M. Hanefeld</i>	182
8.3	The treatment of hyperuricemia <i>H.-E. Schröder</i>	189
8.4	Treatment of coagulation disorders and blood flow disorders <i>U. Julius</i>	193

9	Late complications of diabetes	
9.1	The diabetic foot	
	<i>Sabine Fischer, H. Rietzsch</i>	199
9.2	Diabetic polyneuropathy	
	<i>H. Rietzsch</i>	232
9.3	Retinopathy	
	<i>J. Schulze</i>	245
9.4	Nephropathy	
	<i>J. Schulze</i>	251
10	Medical-social aspects and legal determinations	
	<i>Silke Meisel</i>	257
