

Table of Contents

Program Development and Execution Support

- REXEC: A Decentralized, Secure Remote Execution Environment for Clusters 1
Brent N. Chun, David E. Culler (University of California)
- A Visual BSP Programming Environment for Distributed Computing 15
*Jeremy Martin (Oxford Supercomputing Center),
Alex Wilson (Embedded Solutions, Ltd.)*
- Transparent Network Connectivity in Dynamic Cluster Environments 30
Xiaodong Fu, Hua Wang, Vijay Karamcheti (New York University)

Network Router Architecture

- A New Methodology to Computer Deadlock-Free Routing Tables for Irregular Networks 45
*José Carlos Sancho, Antonio Robles, José Duato
(Universidad Politécnica de Valencia)*
- On the Performance of Up*/Down* Routing 61
*Francisco J. Alfaro (University of Murcia), Aurelio Bermúdez,
Rafael Casado (University of Castilla-La Mancha), José Duato
(Universidad Politécnica de Valencia), Francisco J. Quiles,
José L. Sánchez (University of Castilla-La Mancha)*
- Extending Dynamic Reconfiguration to NOWs with Adaptive Routing 73
*Aurelio Bermúdez (University of Castilla-La Mancha),
Francisco J. Alfaro (University of Murcia), Rafael Casado
(University of Castilla-La Mancha), José Duato (Universidad
Politécnica de Valencia), Francisco J. Quiles, José L. Sánchez
(University of Castilla-La Mancha)*

System Support for Communication Abstractions

- MPI Derived Data Types Support in VIRTUS 84
Rosario Cristaldi, Giulio Iannello (Università di Napoli)
- Fast Collective Communication Algorithms for Reflective Memory Network Clusters 100
*Vijay Moorthy, Dhableswar K. Panda, P. Sadayappan
(The Ohio State University)*

Broadcast/Multicast over Myrinet Using NIC-Assisted Multidestination Messages.....	115
<i>Darius Buntinas, Dhabaleswar K. Panda (The Ohio State University), José Duato (Universidad Politécnica de Valencia), P. Sadayappan (The Ohio State University)</i>	

Network Software and Interface Architecture

Simulation Studies of Gigabit Ethernet Versus Myrinet Using Real Application Cores.....	130
<i>Helen Chen, Pete Wyckoff (Sandia National Laboratories)</i>	

Comparison and Evaluation of Design Choices for Implementing the Virtual Interface Architecture (VIA)	145
<i>Mohammad Banikazemi (The Ohio State University), Bulent Abali (IBM TJ Watson), Dhabaleswar K. Panda (The Ohio State University)</i>	

Efficient Communication Using Message Prediction for Cluster Multiprocessors.....	162
<i>Ahmad Afsahi, Nikitas J. Dimopoulos (University of Victoria)</i>	

Author Index	179
