Upper Intestinal Diseases

Edited by G.N.J. Tytgat

36 Esophageal Diseases

<i>Joel E. Richter and Gregory Zuccaro</i>	452
General Anatomy	452
Squamocolumnar (Mucosal) Junction	452
Esophagogastric (Muscular) Junction	452
Lower Esophageal Sphincter (LES)	453
Hiatal Hernia	454
Sliding Hiatal Hernia	454
Paraesophageal Hernia	454
Gastroesophageal Reflux Disease	457
Esophagitis	457
Esophagitis Grading Systems	458
Sentinel Fold	458
Miscellaneous Findings in GERD	458
Peptic Esophageal Strictures	460
Lower Esophageal (Schatzki) Ring	462
Ringed Esophagus	463
Barrett's Esophagus	464
Postfundoplication Endoscopic Examination	465
Esophageal Motility Disorders	466
Achalasia	466
Scleroderma	467
Infections of the Esophagus	468
Candida Esophagitis	468
Herpetic Esophagitis	469
Cytomegalovirus Esophagitis	469
Human Immunodeficiency Virus Esophagitis	470
Miscellaneous Infections	470
Pill-Induced Esophageal Injury	470
Corrosive Esophagitis	472
Radiation-Induced Esophagitis	472
Skin Diseases Associated with Esophagitis	473
Esophageal Diverticula	473
Zenker's Diverticulum	473
Mid-Thoracic Traction Diverticulum	474
Epiphrenic Diverticulum	474

Esophageal Varices	475
Endoscopic Grading Classifications	475
Other Methods of Assessing Esophageal Varices	477
Tumors of the Esophagus	478
Clinical Presentation	478
Structural Evaluation	478
Benign Tumors of the Esophagus	479
Smooth-Muscle Tumor	479
Benign Tumors of the Superficial Layer of the Esophageal Wall	479
Benign Tumors of the Submucosal Layer	480
Malignant Tumors of the Esophagus	481
Endoscopic Surveillance for Cancer	481
Endoscopic Approach to Esophageal Cancer	483
