

CONTENTS

Preface 1

Topographical Anatomy

Chapter 1: Thoracic Limb

1. The Skeleton of the Thoracic Limb 2/3

2. Topography of the Thoracic Limb (Nerves and Muscles) 4/5

3. Cutaneous Innervation, Blood Vessels, and Lymphatic Structures 6/7

4. Vessels, Nerves and Deep Fascia of Carpus, Metacarpus, and Digit 8/9

5. The Passive Stay–Apparatus 10/11

6. Synovial Structures 12/13

Chapter 2: Pelvic Limb

1. The Skeleton of the Pelvic Limb 14/15

2. Topography of the Pelvic Limb (Nerves and Muscles) 16/17

3. Skin Innervation, Blood Vessels, and Lymphatic Structures 18/19

4. Vessels, Nerves, and Deep Fascia of Tarsus, Metatarsus, and Digit 20/21

5. Passive Stay-Apparatus; also Hoof and its Contents 22/23

6. Hoof (Ungula) (H. Bragulla and K.-D. Budras) 24/25

7. Synovial Structures 26/27

Chapter 3: Head

1. Skull and Dentition 28/29

2. Skull with Teeth and Paranasal Sinuses 30/31

3. Supf. Veins, Facial Nerve (VII), and Muscles Supplied by the Facial Nerve 32/33

4. Trigeminal Nerve (V–3 and V–2), Muscles of Mastication, Salivary Glands, and Lymphatic Structures 34/35

5. Adnexa of the Eye 36/37

6. The Eye (P. Simoons and K.-D. Budras) 38/39

7. Nose and Nasal Cavity, Mouth and Tongue 40/41

8. Pharynx, Guttural Pouch, and Larynx 42/43

9. Laryngeal Muscles and Head–Neck Junction 44/45

Chapter 4: The Central Nervous System

1. The Brain 46/47

2. The Spinal Cord 48/49

Chapter 5: Axial Skeleton and Neck

1. Vertebral Column with Thorax and Nuchal Ligament 50/51

2. Neck and Thoracic Wall 52/53

3. Deep Shoulder–Girdle Muscles, the Muscles of the Ventral Part of the Neck and the Visceral Space they enclose 52/53

Chapter 6: Thoracic Cavity

1. Thoracic Wall, Respiratory Muscles, Lungs, and Lymphatic Structures 54/55

2. Heart and Thymus 56/57

Chapter 7: Abdominal Wall and Cavity

1. The Abdominal Wall 58/59

2. Topography of the Abdominal Organs and their Relation to the Abdominal Wall 60/61

3. Spleen, Liver and Bile Duct, Pancreas, and Stomach with Omenta 62/63

4. Intestines 64/65

Chapter 8: Pelvis, Inguinal Region, and Urogenital Organs

1. Bony Pelvis with Sacrosciatic Ligament, Supf. Inguinal Structures 66/67

2. Inguinal Area 68/69

3. Prepubic Tendon, Inguinal Canal of the Mare, Nerves of the Lumbar Plexus, Hypaxial Lumbar Muscles, and Udder 70/71

4. Lymphatics, Adrenal Glands, and Urinary Organs 72/73

5. Arteries, Veins, and Nerves of the Pelvic Cavity 74/75

6. Female Reproductive Organs 76/77

7. Male Reproductive Organs 78/79

8. Perineum, Pelvic Diaphragm, and Tail 80/81

Chapter 9: Selected Body Systems in Tabular Form

1. Muscles 81

2. Lymphatic Structures 94

3. Peripheral Nervous System 97

4. Cranial Nerves 102

Chapter 10: Contributions to the Clinical and Functional Anatomy of the Horse 106
