

CONTENTS

INTRODUCTION

Solitons and their observable signature in quasi-one-dimensional systems M. REMOISSENET.....	3
---	---

PART I : HYDROGEN-BONDED CHAINS

Local modes in molecules A.C. SCOTT.....	19
Dynamics of nonlinear excitations in DNA M. PEYRARD, A.R. BISHOP.....	29
Nonlinear excitations in chains of hydrogen-bonded molecules : incoherent neutron scattering in acetanilide and derivatives M. BARTHES, R. ALMAIRAC, J.L. SAUVAJOL, J. MORET, R. CURRAT, J. DIANOUX	43
NMR study of nonlinear excitations in prebiological systems F. MASIN, G. GUSMAN, P. BROEKAERT, C. MAERSCHALK.....	57
Finite temperature behaviour of the exciton bound states in the compres- sible molecular chain D.V. KAPOR, M.J. SKRINJAR, S.D. STOJANOVIC.....	65
Solitons on a diatomic chain with alternating interactions F.G. MERTENS, D. HOCHSTRASSER.....	75
Longitudinal and transverse proton collective dynamics on a two-dimensio- nal multistable substrate S. PNEVMATIKOS, A.V. SAVIN, A.V. ZOLOTARYUK.....	83
Toda lattice with transverse degree of freedom P.L. CHRISTIANSEN, P.S. LOMDAHL, V. MUTO.....	93

PART II : SOLID-STATE PHYSICS

Charge density waves and superconductivity : Localized bipolarons versus extended Cooper pairs ? S. AUBRY, G. ABRAMOVICI, D. FEINBERG, P. QUEMERAIS, J. RAIMBAULT.....	103
Modulated phases in crystals : symmetries of walls and wall lattices ; example of quartz P. SAINT-GREGOIRE, V. JANOVEC.....	117

Strain solitary waves in ferroelastic-martensitic transformations; lattice model and continuum approximation	
J. POUGET.....	127
Critical fluctuations in the 2D XY antiferromagnet $\text{BaNi}_2(\text{PO}_4)_2$: NMR measurements	
P. GAVEAU, J.P. BOUCHER, L.P. REGNAULT, Y. HENRY.....	141
1/S quantum corrections for the magnetic solitons in various Heisenberg models	
D.V. KAPOR, M.J. SKRINJAR, S.D. STOJANOVIC.....	147
PART III : NONLINEAR WAVE PROPAGATION : NUMERICAL AND THEORETICAL STUDIES	
Defects in nonlinear waves in convection	
A. JOETS, R. RIBOTTA.....	159
Gap solitons in nonlinear electrical transmission lines	
J.M. BILBAULT, M. REMOISSENET.....	171
Can a nontrivial solitonic mode be observed in a square Josephson junction ?	
E. TURLOT, D. ESTEVE, C. URBINA, M. DEVORET, J.C. FERNANDEZ, R. GRAUER, H. POLITANO, G. REINISCH.....	181
Radiative damping of driven sine-Gordon breathers	
R. DÖTTLING, J. ESSLINGER, W. LAY, A. SEEGER.....	193
Fluxon trapping by inhomogeneities in long Josephson junctions	
T. BOUNTIS, S. PNEVMATIKOS, S. PROTOGERAKIS, G. SOHOS.....	203
Dynamical regimes phase-locked to an external microwave field in a long, unbiased Josephson junction	
J.C. FERNANDEZ, R. GRAUER, G. REINISCH.....	213
Existence and stability of driven and damped phase-locked NLS-solitons and SG-breathers	
K.H. SPATSCHEK, M. TAKI, T. EICKERMANN.....	221
Spectral characterization of 2D nonlinear coherent structures	
J. LEON, M. BOITI, F. PEMPINELLI.....	241
The stochastic Φ^4 model	
A. SANCHEZ, L. VAZQUEZ.....	251
Invariants for the generalized Lotka-Volterra equations	
L. CAIRO, M.R. FEIX, J. GOEDERT.....	261
Slow relaxation effects in the evolution of nonlinear quantum systems	
V.M. KENKRE.....	271
