

Contents

Security for Object-Oriented Systems: An Editorial Overview <i>B. Thuraisingham, R. Sandhu and T.C. Ting</i>	1
---	---

Part I: Applications and Systems

Integrating Object Oriented Technology and Security in Medical Database Systems <i>G. Pangalos</i>	11
The Security Facilities of PCTE <i>B. Bird</i>	25
A Base for Secure Object Oriented Environments <i>K. Vosseberg, P. Brössler and J.L. Keedy</i>	43
An Object-Oriented Application Security Framework <i>J.A. Talvitie</i>	55

Part II: Multilevel Secure Systems

Multilevel Security in Object-Oriented Databases <i>N. Boulahia-Cuppens, F. Cuppens, A. Gabillon and K. Yazdanian</i>	79
Object-Oriented Security in the Trusted Mach Operating System <i>S. Gupta</i>	90
Enforcing Mandatory Access Control in Object Bases <i>E. Bertino, S. Jajodia and P. Samarati</i>	96
Information Flow Control in Object-Oriented Programs <i>C. Bryce</i>	117

Part III: Authorization and Access Control

A Method-Based Authorization Model for Object-Oriented Databases <i>E.B. Fernández, M.M. Larrondo-Petrie and E. Gudes</i>	135
The Factors that Influence Apropos Security Approaches for the Object-Oriented Paradigm <i>S.A. Demurjian and T.C. Ting</i>	151

An Access Control Model for a Parallel Object-Based Programming Language	
<i>C. Bryce</i>	166
Research Issues in Discretionary Authorizations for Object Bases	
<i>E. Bertino and P. Samarati</i>	183
 Part IV: Multilevel Applications, Systems, and Issues	
Using Object Modeling Techniques to Design MLS Data Models	
<i>M.H. Kang, O. Costich and J.N. Froscher</i>	203
Can We Do Without Monotonically Non-Decreasing Levels in Class Hierarchies?	
<i>W.R. Herndon</i>	212
Concurrency, Synchronization, and Scheduling to Support High-Assurance Write-Up in Multilevel Object-Based Computing	
<i>R.K. Thomas and R.S. Sandhu</i>	218
Secure Database Interoperation via Dynamic Addition of Roles	
<i>V.E. Jones and M. Winslett</i>	229
Author Index	235
