The Dihalides of Group IVB Elements	
J. L. Margrave, K. G. Sharp and P. W. Wilson	1
The Chemistry of Iminoboranes	
A. Meller	37
Atomic Absorption Spectroscopy for the Determination of Elements in Medical Biological Samples	
G. D. Christian	77

The Dihalides of Group IVB Elements

Prof. John L. Margrave, Dr. Kenneth G. Sharp, and Dr. Paul W. Wilson

Department of Chemistry, Rice University, Houston, Texas, USA

Contents

Introduction	2
A. Difluoromethylene	3
B. Other Carbon Dihalides	10
C. Silicon Difluoride	13
1. Gas Phase Spectra	13
2. Studies of SiF ₂ Condensate	15
3. Reactions of SiF ₂	16
D. Other Silicon Dihalides	22
E. Germanium Difluoride	24
F. Other Germanium Dihalides	27
G. Tin and Lead Dihalides	30
References	32

The Chemistry of Iminoboranes

Dozent Dr. A. Meller

Institut für Anorganische Chemie, Technische Hochschule Wien, Austria

Contents

I.	Introduction	38
II.	General Survey of Synthetic Procedures	39
III.	Iminoboranes Derived from Borine or Alkylboranes	41
IV.	Iminoboranes Derived from Halo- and Organohaloboranes	43
	1. 1,2-Addition of Haloboranes Across the CN Triple Bond of Nitriles	43
	2. Reactions of Diphenylketimino Compounds	47
	3. Miscellaneous Reactions	48
	4. Substitution of Halogen	49
V.	Iminoboranes Derived from Triorganoboranes	51
VI.	Iminoboranes Derived from Organothioboranes	52
	1. Addition of B—S, B—C, or B—Cl Bonds Across the C≡N Groups of Substituted Nitriles	52
	2. Substitution Reactions on Halosubstituted Iminoboranes with Organothiols	54
VII.	Imine-Borane Adducts	56
VIII.	Spectroscopic Studies on Iminoboranes	58
	1. Infrared Spectra	58
	2. Nuclear Magnetic Resonance and Nuclear Quadrupole Resonance Spectroscopy	59
	3. Mass Spectroscopic Data	61
IX.	Listing of Compounds	61
	References	75
