Part I: Conformal Supergravity

1. Introduction and Summary	1
1.1 Brief Survey	1
1.2 Assumptions	2
1.3 Results	2
2. Superspace Geometry	4
2.1 Affine Structure	4
2.2 Metric Structure	5
2.3 Explicit Equations	6
2.4 Transformation Laws	6
3. Constraints	8
4. Bianchi Identities	10
5. Symmetries of the Constraints	20
6. Consistency of the Constraints	23
7. Linearized Ricci Identities	25
8. Non-Linear Ricci Identities	34
9. Invariant Actions	37
9.1 Chiral Superfields	37
9.2 Superfield Actions	38
9.3 Chiral Actions	39
9.4 Summary	45

Part II: Poincaré Supergravity

10. Introduction and Summary	47
10.1 Brief Survey	47
10.2 Assumptions	48
10.3 Results	48
11. Upper Bounds	50
12. On-Shell Poincaré Supergravity	51
12.1 Linearized $N = 8$ Supergravity	51
12.2 Non-Linear $N = 8$ Supergravity	53

13. One-Form Gauge Potentials	56
13.1 Superspace Geometry	56
13.2 Constraints	57
13.3 Bianchi Identities	58
13.4 Ricci Identities	60
13.5 $N = 4$	63
13.6 $N = 3, 4$ Off-Shell Supergravity	66
14. Two-Form Gauge Potentials	67
14.1 Superspace Geometry	67
14.2 Constraints	68
14.3 Bianchi Identities	68
14.4 Ricci Identities	70
14.5 Solution of the Constraints	71
15. $N = 2$ Off-Shell Supergravity	73
15.1 The Minimal Field Representation	73
15.2 Multiplets Without Local $SO(2)$	75
15.3 Multiplets with Local $SO(2)$	78
16. $N = 1$ Off-Shell Supergravity	84
16.1 The Minimal Multiplet	84
16.2 The New Minimal Multiplet	85

Part III: Conclusion

17. Matter Couplings	87
17.1 $N = 1$	88
17.2 $N = 2$	93
17.3 $N > 2$	97
18. Outlook into Quantum Supergravity	98
18.1 Poincaré Supergravity	98
18.2 Conformal Supergravity	98
Appendix A: Conventions	99
Appendix B: Differential Forms	101
Appendix C: Useful Formulas	102
Appendix D: Non-Linear Ricci Identities	108
Appendix E: Second Bianchi Identity	114
Appendix F: Non-Linear $N = 8$ Supergravity	117
References	121
Super-Index	125
