Introduction

PART I: Getting Started

Chapter 1: An Overview

What Is a User Story?

Where Are the Details?

How Long Does It Have to Be?

The Customer Team

What Will the Process Be Like?

Planning Releases and Iterations

What Are Acceptance Tests?

Why Change?

Summary

Questions

Chapter 2: Writing Stories

Table of Contents

- Independent
- Negotiable
- Valuable to Purchasers or Users
- Estimatable
- Small
- Testable
- Summary
- Developer Responsibilities
- Customer Responsibilities
- Questions

Chapter 3: User Role Modeling

- User Roles
- Role Modeling Steps
- Two Additional Techniques
- What If I Have On-Site Users?
- Summary
- Developer Responsibilities
- Customer Responsibilities
- Questions

Chapter 4: Gathering Stories

- Elicitation and Capture Should Be Illicit
- A Little Is Enough, or Is It?
- Techniques
- User Interviews
- Questionnaires
- Observation
- Story-Writing Workshops
- Summary

Table of Contents

Developer Responsibilities

Customer Responsibilities

Questions

Chapter 5: Working with User Proxies

The Users Manager

A Development Manager

Salespersons

Domain Experts

The Marketing Group

Former Users

Customers

Trainers and Technical Support

Business or Systems Analysts

What to Do When Working with a User Proxy

Can You Do It Yourself?

Constituting the Customer Team

Summary

Developer Responsibilities

Customer Responsibilities

Questions

Chapter 6: Acceptance Testing User Stories

Write Tests Before Coding

The Customer Specifies the Tests

Testing Is Part of the Process

How Many Tests Are Too Many?

The Framework for Integrated Test

Types of Testing

Summary

Table of Contents

Developer Responsibilities

Customer Responsibilities

Questions

Chapter 7: Guidelines for Good Stories

Start with Goal Stories

Slice the Cake

Write Closed Stories

Put Constraints on Cards

Size the Story to the Horizon

Keep the UI Out as Long as Possible

Some Things Arent Stories

Include User Roles in the Stories

Write for One User

Write in Active Voice

Customer Writes

Dont Number Story Cards

Dont Forget the Purpose

Summary

Questions

PART II: Estimating and Planning

Chapter 8: Estimating User Stories

Story Points

Estimate as a Team

Estimating

Triangulate

Using Story Points

What If We Pair Program?

Some Reminders

Table of Contents

Summary

Developer Responsibilities

Customer Responsibilities

Questions

Chapter 9: Planning a Release

When Do We Want the Release?

What Would You Like in It?

Prioritizing the Stories

Mixed Priorities

Risky Stories

Prioritizing Infrastructural Needs

Selecting an Iteration Length

From Story Points to Expected Duration

The Initial Velocity

Creating the Release Plan

Summary

Developer Responsibilities

Customer Responsibilities

Questions

Chapter 10: Planning an Iteration

Iteration Planning Overview

Discussing the Stories

Disaggregating into Tasks

Accepting Responsibility

Estimate and Confirm

Summary

Developer Responsibilities

Customer Responsibilities

Table of Contents

Questions

Chapter 11: Measuring and Monitoring Velocity

Measuring Velocity

Planned and Actual Velocity

Iteration Burndown Charts

Burndown Charts During an Iteration

Summary

Developer Responsibilities

Customer Responsibilities

Questions

PART III: Frequently Discussed Topics

Chapter 12: What Stories Are Not

User Stories Aren't IEEE 830

User Stories Are Not Use Cases

User Stories Aren't Scenarios

Summary

Questions

Chapter 13: Why User Stories?

Verbal Communication

User Stories Are Comprehensible

User Stories Are the Right Size for Planning

User Stories Work for Iterative Development

Stories Encourage Deferring Detail

Stories Support Opportunistic Development

User Stories Encourage Participatory Design

Stories Build Up Tacit Knowledge

Why Not Stories?

Summary

Table of Contents

Developer Responsibilities

Customer Responsibilities

Questions

Chapter 14: A Catalog of Story Smells

Stories Are Too Small

Interdependent Stories

Goldplating

Too Many Details

Including User Interface Detail Too Soon

Thinking Too Far Ahead

Splitting Too Many Stories

Customer Has Trouble Prioritizing

Customer Wont Write and Prioritize the Stories

Summary

Developer Responsibilities

Customer Responsibilities

Questions

Chapter 15: Using Stories with Scrum

Scrum Is Iterative and Incremental

The Basics of Scrum

The Scrum Team

The Product Backlog

The Sprint Planning Meeting

The Sprint Review Meeting

The Daily Scrum Meeting

Adding Stories to Scrum

A Case Study

Summary

Table of Contents

Questions

Chapter 16: Additional Topics

Handling NonFunctional Requirements

Paper or Software?

User Stories and the User Interface

Retaining the Stories

Stories for Bugs

Summary

Developer Responsibilities

Customer Responsibilities

Questions

PART IV: An Example

Chapter 17: The User Roles

The Project

Identifying the Customer

Identifying Some Initial Roles

Consolidating and Narrowing

Role Modeling

Adding Personas

Chapter 18: The Stories

Stories for Teresa

Stories for Captain Ron

Stories for a Novice Sailor

Stories for a Non-Sailing Gift Buyer

Stories for a Report Viewer

Some Administration Stories

Wrapping Up

Chapter 19: Estimating the Stories

Table of Contents

The First Story

Advanced Search

Rating and Reviewing

Accounts

Finishing the Estimates

All the Estimates

Chapter 20: The Release Plan

Estimating Velocity

Prioritizing the Stories

The Finished Release Plan

Chapter 21: The Acceptance Tests

The Search Tests

Shopping Cart Tests

Buying Books

User Accounts

Administration

Testing the Constraints

A Final Story

PART V: Appendices

Appendix A: An Overview of Extreme Programming

Roles

The Twelve Practices

XP's Values

The Principles of XP

Summary

Appendix B: Answers to Questions

Chapter 1, An Overview

Chapter 2, Writing Stories

Table of Contents

Chapter 3, User Role Modeling

Chapter 4, Gathering Stories

Chapter 5, Working with User Proxies

Chapter 6, Acceptance Testing User Stories

Chapter 7, Guidelines for Good Stories

Chapter 8, Estimating User Stories

Chapter 9, Planning a Release

Chapter 10, Planning an Iteration

Chapter 11, Measuring and Monitoring Velocity

Chapter 12, What Stories Are Not

Chapter 13, Why User Stories?

Chapter 14, A Catalog of Story Smells

Chapter 15, Using Stories with Scrum

Chapter 16, Additional Topics
