Second Edition

Statistics for Business: Decision Making and Analysis

Table of Contents

Cover

Table of Contents

1. Introduction

2. Data

3. Describing Categorical Data

4. Describing Numerical Data

5. Association between Categorical Variables

6. Association between Quantitative Variables

7. Probability

8. Conditional Probability

9. Random Variables

10. Association between Random Variables

11. Probability Models for Counts

12. The Normal Probability Model

13. Samples and Surveys

14. Sampling Variation and Quality

15. Confidence Intervals

16. Statistical Tests

17. Comparison

18. Inference for Counts

19. Linear Patterns

20. Curved Patterns

21. The Simple Regression Model

22. Regression Diagnostics

23. Multiple Regression

Table of Contents

- 24. Building Regression Models
- 25. Categorical Explanatory Variables
- 26. Analysis of Variance
- 27. Time Series
- 28. Alternative Approaches to Inference
- 29. Regression with Big Data
- 30. Two-Way Analysis of Variance
- Index
