Contents at a Glance

Table of Contents

HOURL 1: What Makes Roblox Special?

- Roblox Empowers Social Connectivity

- Roblox Manages User Content

- Roblox Enables Fast Prototyping and Iteration

- Conceptualize with Ease

- Whats Inside Robloxs Engine

- Free, Free, Free

- Unlimited Possibilities

- Express Your Own Aesthetic

HOURL 2: Using Studio

- Installing Roblox Studio

- Using Studio Templates

- Working with the Game Editor

- Translating, Scaling, and Orienting Objects

- Snapping

- Collisions

# **Table of Contents**

Anchoring

Saving and Publishing Your Project

Playtesting

## **Hour 3: Building with Parts**

Creating a Part

Changing a Parts Appearance

Creating Decals and Textures

## **Hour 4: Building with Physics**

Working with Attachments and Constraints

Building a Door

Disabling CanCollide to Move a Player Through the Door

Adding Hinges and Springs

Using a Motor

## **Hour 5: Building Terrain**

Using Terrain Tools to Generate Landscapes

Using the Edit Tab

Working with the Region Tab

Using Height Maps and Color Maps

## **Hour 6: Lighting Environment**

Properties of World Lighting

Using Lighting Effects

Using SpotLight, PointLight, and SurfaceLight

## **Hour 7: Atmosphere Environment**

Using Atmosphere Properties

Customizing Skybox

## **Hour 8: Effects Environment**

# **Table of Contents**

Using Particles

Using Beams

## **Hour 9: Importing Assets**

Inserting and Uploading Free Models

Importing with MeshParts and Asset Manager

Importing Textures

Importing Sounds

## **Hour 10: Game Structure and Collaboration**

Adding Places in a Game

Collaborating in Roblox Studio

Creating and Accessing Roblox Packages in Roblox Studio

## **Hour 11: Lua Overview**

Using the Coding Workspace

Using Variables to Modify Properties

Adding Comments to Your Code

Using Functions and Events

Working with Conditional Statements

Understanding Arrays and Dictionaries

Using Loops

Working with Scope

Creating Custom Events

Debugging Code

## **Hour 12: Collisions, Humanoids, Score**

Introduction to Collisions

Detecting Collisions

Introduction to Humanoids

# **Table of Contents**

## **Hour 13: Interacting with GUIs**

- Creating GUIs

- Basic GUI Elements

- Coding Interactive GUIs

- Tweening

- Layouts

- Making a GUI Countdown

## **Hour 14: Coding Animation**

- Working with Position and Rotation

- Moving Objects Smoothly with Tween

- Moving an Entire Model

## **Hour 15: Sounds and Music**

- Creating a Soundtrack

- Importing Music and Sound Assets

- Creating Ambient Sounds

- Triggering Sounds Using Code

- Grouping Sounds

## **Hour 16: Using the Animation Editor**

- Introduction to the Animation Editor

- Creating Poses

- Saving and Exporting Animations

- Easing

- Working with Inverse Kinematics

- Animation Settings

- Working with Animation Events

## **Hour 17: Combat, Teleporting, Data Stores**

# **Table of Contents**

Introduction to Tools

Teleportation

TeleportService

Using Persistent Data Stores

Data Store Functions

Protecting and Responding to Errors

## **HOURL 18: Multiplayer Code and the Client-Server Model**

The Client-Server Model

What Are RemoteFunctions and RemoteEvents?

Server-Side Validation

Teams

Network Ownership

## **HOURL 19: Module Scripts**

Getting to Know the Module Script

Understanding Client-Side Versus Server-Side Module Scripts

Using Module Scripts: Game Loop

## **HOURL 20: Coding Camera Movements**

Introduction to Cameras

Coding a Camera Move

Using the Render Step

Offsetting the Camera

## **HOURL 21: Cross-Platform Building**

Improving Game Performance

Improving Your Scripts

Making Your Game Mobile-Friendly

Console and VR

# **Table of Contents**

## **Hour 22: Global Community Building**

- Introduction to Localization

- Global Compliance

- Privacy Policies: GDPR, CCPA, and You

## **Hour 23: Monetization**

- Game Passes: One-Time Purchases

- Selling Your Game Pass in Game

- Developer Products: Consumables

- Roblox Premium

- Developer Exchange: Earn Real Money from Your Game

## **Hour 24: Attracting Players**

- Game Icons, Thumbnails, and Trailers

- Updates

- Advertising and Notifications

- Analytics

## **Appendix A: Lua Scripting References**

- Modifying Properties That Are Data Type and Enumerations

- Conditional Structures

- Expanding Lua Knowledge

## **Appendix B: Properties and Functions of Humanoid**

**Index**
