Contents

Introduction

- Organization of this book

- Preparing for the exam

- Microsoft certifications

- Quick access to online references

- Errata, updates, & book support

- Stay in touch

Chapter 1 Prepare the data

- Skill 1.1: Get data from different data sources

  - Identify and connect to a data source

  - Change data source settings

  - Select a shared dataset or create a local dataset

  - Select a storage mode

  - Use Microsoft Dataverse

  - Change the value in a parameter

  - Connect to a dataow

- Skill 1.2: Clean, transform, and load the data

# **Table of Contents**

- Profile the data
- Resolve inconsistencies, unexpected or null values, and data quality issues
- Identify and create appropriate keys for joins
- Evaluate and transform column data types
- Shape and transform tables
- Combine queries
- Apply user-friendly naming conventions to columns and queries
- Configure data loading
- Resolve data import errors
- Chapter summary
- Thought experiment
- Thought experiment answers

## **Chapter 2 Model the data**

### **Skill 2.1: Design a data model**

- Define the tables and design a data model that uses a star schema
- Configure table and column properties
- Design and implement role-playing dimensions
- Define a relationship's cardinality and cross-filter direction
- Create a common date table

### **Skill 2.2: Develop a data model**

- Create calculated tables
- Create hierarchies
- Create calculated columns
- Implement row-level security roles
- Use the Q&A feature

### **Skill 2.3: Create model calculations by using DAX**

- Create basic measures by using DAX
- Use CALCULATE to manipulate filters
- Implement Time Intelligence using DAX

# Table of Contents

Replace implicit measures with explicit measures

Use basic statistical functions

Create semi-additive measures

Use quick measures

## Skill 2.4: Optimize model performance

Remove unnecessary rows and columns

Identify poorly performing measures, relationships, and visuals

Reduce cardinality levels to improve performance

## Chapter summary

Thought experiment

Thought experiment answers

## Chapter 3 Visualize and analyze the data

### Skill 3.1: Create reports

Add visualization items to reports

Choose an appropriate visualization type

Format and configure visualizations

Use a custom visual

Apply and customize a theme

Configure conditional formatting

Apply slicing and filtering

Configure the report page

Use the Analyze in Excel feature

Choose when to use a paginated report

### Skill 3.2: Create dashboards

Manage tiles on a dashboard

Configure mobile view

Use the Q&A feature

Add a Quick Insights result to a dashboard

Add a dashboard theme

# **Table of Contents**

Pin a live report page to a dashboard

## **Skill 3.3: Enhance reports for usability and storytelling**

Configure bookmarks

Create custom tooltips

Edit and configure interactions between visuals

Configure navigation for a report

Apply sorting

Configure sync slicers

Group and layer visuals by using the Selection pane

Drill down into data using interactive visuals

Export report data

Design reports for mobile devices

## **Skill 3.4: Identify patterns and trends**

Use the Analyze feature in Power BI

Identify outliers

Choose between continuous and categorical axes

Use groupings, binnings, and clustering

Use AI visuals

Use the Forecast feature

Create reference lines by using the Analytics pane

## **Chapter summary**

Thought experiment

Thought experiment answers

## **Chapter 4 Deploy and maintain assets**

### **Skill 4.1: Manage files and datasets**

Identify when a gateway is required

Configure a dataset scheduled refresh

Configure row-level security group membership

Provide access to datasets

# **Table of Contents**

Manage global options for files

## **Skill 4.2: Manage workspaces**

Create and configure a workspace

Assign workspace roles

Configure and update a workspace app

Publish, import, or update assets in a workspace

Apply sensitivity labels to workspace content

Configure subscriptions and data alerts

Promote or certify Power BI content

Chapter summary

Thought experiment

Thought experiment answers
