About the Author

Brief Contents

Detailed Contents

Part 1: Introduction

Chapter 1: What Is Economics?

Definition of Economics

Two Big Economic Questions

What, How, and for Whom?

Do Choices Made in the Pursuit of Selfinterest Also Promote the Social Interest?

The Invisible Hand

The Protest Against Market Capitalism

The Economic Way of Thinking

A Choice Is a Tradeoff

Making a Rational Choice

Benefit: What You Gain

Cost: What You Must Give Up

How Much? Choosing at the Margin

Choices Respond to Incentives

Economics as Social Science and Policy Tool

Economist as Social Scientist

Economist as Policy Adviser

Economists in the Economy

Jobs for an Economics Major

Will Jobs for Economics Majors Grow?

Earnings of Economics Majors

Skills Needed for Economics Jobs

A Diversity Challenge in the Economics Profession

Summary

Key Points

Key Terms

Table of Contents

Graphing Data

Graphing Economic Data

Scatter Diagrams

Graphs Used in Economic Models

Variables That Move in the Same Direction

Variables That Move in Opposite Directions

Variables That Have a Maximum or a Minimum

Variables That Are Unrelated

The Slope of a Relationship

The Slope of a Straight Line

The Slope of a Curved Line

Graphing Relationships Among More Than Two Variables

Ceteris Paribus

When Other Things Change

Mathematical Note Equations of Straight Lines

A Linear Equation

Slope of Line

Position of Line

Positive Relationships

Negative Relationships

Example

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 2: The Economic Problem

Production Possibilities and Opportunity Cost

Production Possibilities Frontier

Production Efficiency

Tradeoff Along the PPF

Opportunity Cost

The Opportunity Cost of Kale

Using Resources Efficiently

The PPF and Marginal Cost

Preferences and Marginal Benefit

Allocative Efficiency

Gains from Trade

Comparative Advantage and Absolute Advantage

Achieving the Gains from Trade

Table of Contents

The Lizjoe Economy and Its PPF

Economic Growth

The Cost of Economic Growth

A Nations Economic Growth

Changes in What We Produce

Economic Coordination

Firms

Markets

Property Rights

Money

Circular Flows Through Markets

Coordinating Decisions

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Part 2: How Markets Work

Chapter 3: Demand and Supply

Markets and Prices

Demand

The Law of Demand

Demand Curve and Demand Schedule

A Change in Demand

A Change in the Quantity Demanded Versus a Change in Demand

Supply

The Law of Supply

Supply Curve and Supply Schedule

A Change in Supply

A Change in the Quantity Supplied Versus a Change in Supply

Market Equilibrium

Price as a Regulator

Price Adjustments

Predicting Changes in Price and Quantity

An Increase in Demand

A Decrease in Demand

The Markets for Chocolate and Cocoa

An Increase in Supply

A Decrease in Supply

The Market for Vanilla Bean

Changes in Both Demand and Supply

Mathematical Note Demand, Supply, and Equilibrium

Table of Contents

- Demand Curve
- Supply Curve
- Market Equilibrium
- An Example
- Worked Problem
- Summary
 - Key Points
 - Key Terms
- Problems and Applications
- Additional Problems and Applications

Chapter 4: Elasticity

Price Elasticity of Demand

- Calculating Price Elasticity of Demand
- Inelastic and Elastic Demand
- The Factors That Influence the Elasticity of Demand
- Elasticity Along a Linear Demand Curve
- Total Revenue and Elasticity
- The Elasticity of Demand for Peanut Butter
- Your Expenditure and Your Elasticity

More Elasticities of Demand

- Income Elasticity of Demand
- Cross Elasticity of Demand
- More Peanut Butter Demand Elasticities

Elasticity of Supply

- Calculating the Elasticity of Supply
- The Factors That Influence the Elasticity of Supply

Worked Problem

Summary

- Key Points
- Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 5: Efficiency and Equity

Resource Allocation Methods

- Market Price
- Command
- Majority Rule
- Contest
- First-come, First-served
- Lottery
- Personal Characteristics

Table of Contents

Force

Benefit, Cost, and Surplus

Demand, Willingness to Pay, and Value

Individual Demand and Market Demand

Consumer Surplus

Supply and Marginal Cost

Supply, Cost, and Minimum Supply-price

Individual Supply and Market Supply

Producer Surplus

Is the Competitive Market Efficient?

Efficiency of Competitive Equilibrium

Market Failure

Sources of Market Failure

Alternatives to the Market

Is the Competitive Market Fair?

It's Not Fair if the Result Isn't Fair

It's Not Fair if the Rules Aren't Fair

Case Study: a Generator Shortage in a Natural Disaster

Price Gouging

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 6: Government Actions in Markets

A Housing Market with a Rent Ceiling

A Housing Shortage

Increased Search Activity

An Illicit Market

Inefficiency of a Rent Ceiling

Are Rent Ceilings Fair?

A Labor Market with a Minimum Wage

Minimum Wage Brings Unemployment

Is the Minimum Wage Fair?

Inefficiency of a Minimum Wage

Does the Minimum Wage Cause Unemployment?

Taxes

Tax Incidence

Equivalence of a Tax on Buyers and Sellers

Table of Contents

Taxes and Efficiency

Tax Influence of the Elasticity of Demand

Tax Influence of the Elasticity of Supply

Taxes and Fairness

The Big Tradeoff

Production Quotas and Subsidies

Production Quotas

Subsidies

Markets for Illegal Goods

A Free Market for a Drug

A Market for an Illegal Drug

Legalizing and Taxing Drugs

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 7: Global Markets In Action

How Global Markets Work

International Trade Today

What Drives International Trade?

Why the United States Imports T-shirts

Why the United States Exports Airplanes

Winners, Losers, and the Net Gain from Trade

Gains and Losses from Imports

Gains and Losses from Exports

Gains for All

International Trade Restrictions

Tariffs

Import Quotas

The U.S.Canada Lumber Dispute

Other Import Barriers

Export Subsidies

The Case Against Protection

Helps an Infant Industry Grow

Counteracts Dumping

Saves Domestic Jobs

Allows Us to Compete with Cheap Foreign Labor

Penalizes Lax Environmental Standards

Table of Contents

- Prevents Rich Countries from Exploiting Developing Countries
- Reduces Offshore Outsourcing That Sends Good U.s. Jobs to Other Countries
- Avoiding Trade Wars
- Why Is International Trade Restricted?
- Is Offshore Outsourcing Bad or Good for America?
- Compensating Losers

Worked Problem

Summary

- Key Points

- Key Terms

Problems and Applications

Additional Problems and Applications

Part 3: Households Choices

Chapter 8: Utility and Demand

Consumption Choices

- Consumption Possibilities

- Preferences

- Utility-maximizing Choice

 - A Spreadsheet Solution

 - Choosing at the Margin

 - The Power of Marginal Analysis

 - Revealing Preferences

 - Predictions of Marginal Utility Theory

 - A Fall in the Price of a Movie

 - A Rise in the Price of Soda

 - A Rise in Income

 - The Paradox of Value

 - Temperature: an Analogy

 - New Ways of Explaining Consumer Choices

 - Behavioral Economics

 - Controversy

 - Neuroeconomics

 - Worked Problem

 - Summary

 - Key Points

 - Key Terms

 - Problems and Applications

 - Additional Problems and Applications

Chapter 9: Possibilities, Preferences, and Choices

Consumption Possibilities

- Budget Line

- Budget Equation

Preferences and Indifference Curves

Table of Contents

Marginal Rate of Substitution

Degree of Substitutability

Predicting Consumer Choices

Best Affordable Choice

A Change in Price

A Change in Income

Substitution Effect and Income Effect

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Part 4: Firms and Markets

Chapter 10: Organizing Production

The Firm and Its Economic Problem

The Firms Goal

Accounting Profit

Economic Accounting

A Firms Opportunity Cost of Production

Economic Accounting: a Summary

The Firms Decisions

The Firms Constraints

Technological and Economic Efficiency

Economic Efficiency

Technological Efficiency

Information and Organization

Command Systems

Incentive Systems

The Principalagent Problem

Coping with the Principalagent Problem

Types of Business Organization

Principals and Agents at Apple

Pros and Cons of Different Types of Firms

Markets and the Competitive Environment

Measures of Concentration

Limitations of a Concentration Measure

Produce or Outsource? Firms and Markets

Firm Coordination

Market Coordination

Why Firms?

Worked Problem

Summary

Table of Contents

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 11: Output and Costs

Decision Time Frames

The Short Run

The Long Run

Short-run Technology Constraint

Product Schedules

Product Curves

Total Product Curve

Marginal Product Curve

Average Product Curve

Short-run Cost

Total Cost

Marginal Cost

Average Cost

Marginal Cost and Average Cost

Why the Average Total Cost Curve Is U-shaped

Cost Curves and Product Curves

Checkout Cost Curves

Shifts in the Cost Curves

Long-run Cost

The Production Function

Short-run Cost and Long-run Cost

The Long-run Average Cost Curve

Economies and Diseconomies of Scale

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 12: Perfect Competition

What Is Perfect Competition?

How Perfect Competition Arises

Price Takers

Economic Profit and Revenue

The Firms Decisions

The Firms Output Decision

Table of Contents

Marginal Analysis and the Supply Decision

Temporary Shutdown Decision

The Firms Supply Curve

Output, Price, and Profit in the Short Run

Market Supply in the Short Run

Short-run Equilibrium

A Change in Demand

Profits and Losses in the Short Run

Three Possible Short-run Outcomes

Output, Price, and Profit in the Long Run

Entry and Exit

A Closer Look at Entry

A Closer Look at Exit

Long-run Equilibrium

Changes in Demand and Supply as Technology Advances

A Decrease in Demand

An Increase in Demand

Technological Advances Change Supply

Record Stores Enter

The Falling Cost of Sequencing Dna

Competition and Efficiency

Efficient Use of Resources

Choices, Equilibrium, and Efficiency

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 13: Monopoly

Monopoly and How It Arises

How Monopoly Arises

Monopoly Price-setting Strategies

A Single-price Monopolys Output and Price Decision

Price and Marginal Revenue

Marginal Revenue and Elasticity

Price and Output Decision

Single-price Monopoly and Competition Compared

Comparing Price and Output

Efficiency Comparison

Table of Contents

Redistribution of Surpluses

Rent-seeking Equilibrium

Rent Seeking

Price Discrimination

Two Ways of Price Discriminating

A Price-discriminating Airline

Increasing Profit and Producer Surplus

Efficiency and Rent Seeking with Price Discrimination

Microsoft Monopoly

Efficient Regulation of a Natural Monopoly

Monopoly Regulation

Second-best Regulation of a Natural Monopoly

Worked Problem

Key Points

Summary

Key Terms

Problems and Applications

Additional Problems and Applications

After Studying This Chapter, You Will Be Able To:

Chapter 14: Monopolistic Competition

What Is Monopolistic Competition?

Large Number of Firms

Product Differentiation

Competing on Quality, Price, and Marketing

Entry and Exit

Examples of Monopolistic Competition

Price and Output in Monopolistic Competition

The Firms Short-run Output and Price Decision

Profit Maximizing Might Be Loss Minimizing

Long Run: Zero Economic Profit

Monopolistic Competition and Perfect Competition

Is Monopolistic Competition Efficient?

Product Development and Marketing

Product Development

Advertising

Using Advertising to Signal Quality

Brand Names

Efficiency of Advertising and Brand Names

Worked Problem

Summary

Table of Contents

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 15: Oligopoly

What Is Oligopoly?

Barriers to Entry

Small Number of Firms

Examples of Oligopoly

Oligopoly Games

What Is a Game?

The Prisoners Dilemma

An Oligopoly Price-fixing Game

A Game of Chicken

Repeated Games and Sequential Games

A Repeated Duopoly Game

Airbus Versus Boeing

A Sequential Entry Game in a Contestable Market

Antitrust Law

The Antitrust Laws

Price Fixing Always Illegal

Three Antitrust Policy Debates

Mergers and Acquisitions

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Part 5: Market Failure and Government

Chapter 16: Public Choices, Public goods, and Healthcare

Public Choices

Why Governments?

Public Choice and the Political Marketplace

Political Equilibrium

What Is a Public Good?

A Fourfold Classification

The Things Our Governments Buy

Providing Public Goods

Table of Contents

The Free-rider Problem

Marginal Social Benefit of a Public Good

Marginal Social Cost of a Public Good

Efficient Quantity of a Public Good

Inefficient Private Provision

Efficient Public Provision

Inefficient Public Overprovision

The Economics of Healthcare

Healthcare Market Failure

Alternative Public Choice Solutions

Is Obamacare a Good Solution to the U.s. Healthcare Problem?

Better Solutions?

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 17: Externalities

Externalities in Our Lives

Negative Production Externalities

Positive Production Externalities

Negative Consumption Externalities

Positive Consumption Externalities

Negative Externality: Pollution

Private, External, and Social Cost

Establish Property Rights

Mandate Clean Technology

Tax or Cap and Price Pollution

Should We Be Doing More to Reduce Carbon Emissions?

Coping with Global Externalities

Negative Externality: the Tragedy of the Commons

Unsustainable Use of a Common Resource

Inefficient Use of a Common Resource

Achieving an Efficient Outcome

Positive Externality: Knowledge

Private Benefits and Social Benefits

Government Actions in the Market with External Benefits

Illustrating an Efficient Outcome

Bureaucratic Inefficiency and Government Failure

Worked Problem

Table of Contents

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Part 6: Factor Markets, Inequality, and Uncertainty

Chapter 18: Markets for Factors of Production

The Anatomy of Factor Markets

Markets for Labor Services

Markets for Capital Services

Markets for Land Services and Natural Resources

Entrepreneurship

The Demand for a Factor of Production

Value of Marginal Product

A Firms Demand for Labor

A Firms Demand for Labor Curve

Changes in a Firms Demand for Labor

Labor Markets

A Competitive Labor Market

Differences and Trends in Wage Rates

A Labor Market with a Union

Monopoly Power for Evil or Good?

Capital and Natural Resource Markets

Capital Rental Markets

Land Rental Markets

The Growth of the Sharing Economy

Nonrenewable Natural Resource Markets

Mathematical Note

Present Value and Discounting

Rent-versus-buy Decision

Comparing Current and Future Dollars

Compound Interest

Discounting a Future Amount

Present Value of a Sequence of Future Amounts

The Decision

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Table of Contents

Chapter 19: Economic Inequality

Economic Inequality in the United States

- The Distribution of Income
- The Income Lorenz Curve
- The Distribution of Wealth
- Wealth or Income?
- Annual or Lifetime Income and Wealth?
- Trends in Inequality
- Poverty

Inequality in the World Economy

- Income Distributions in Selected Countries
- Global Inequality and Its Trends

The Sources of Economic Inequality

- Human Capital
- Discrimination
- Contests Among Superstars
- Unequal Wealth

Income Redistribution

- Income Taxes
- Income Maintenance Programs
- Subsidized Services
- The Big Tradeoff

Worked Problem

Summary

- Key Points
- Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 20: Uncertainty And Information

Decisions in the Face of Uncertainty

- Expected Wealth
- Risk Aversion
- Utility of Wealth
- Expected Utility
- Making a Choice with Uncertainty

Buying and Selling Risk

- Insurance Markets
- A Graphical Analysis of Insurance
- Risk That Cant Be Insured

Private Information

Table of Contents

Asymmetric Information: Examples and Problems

The Market for Used Cars

The Market for Loans

The Market for Insurance

Uncertainty, Information, and the Invisible Hand

Information as a Good

Monopoly in Markets That Cope with Uncertainty

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Part 7: Monitoring Macroeconomic Performance

Chapter 21: Measuring the Value of Production: Gdp

Gross Domestic Product

Gdp Defined

Gdp and the Circular Flow of Expenditure and Income

Why domestic and Why gross?

Measuring U.S. Gdp

The Expenditure Approach

The Income Approach

Nominal Gdp and Real Gdp

Calculating Real Gdp

The Uses and Limitations of Gdp

The Standard of Living over Time

The Standard of Living Across Countries

Limitations of Gdp

Should Gnp Replace Gdp?

Appendix Graphs in Macroeconomics After Studying This Appendix, You Will Be Able To:

The Time-series Graph

Making a Time-series Graph

Reading a Time-series Graph

Ratio Scale Reveals Trend

A Time-series with a Trend

Using a Ratio Scale

Mathematical Note Chained-dollar Real Gdp

Value Production in Prices of Adjacent Years

Find the Average of Two Percentage Changes

Link (chain) to the Base Year

Table of Contents

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 22: Monitoring Jobs And Inflation

Employment and Unemployment

Why Unemployment Is a Problem

Current Population Survey

Three Labor Market Indicators

Other Definitions of Unemployment

Most Costly Unemployment

Alternative Measures of Unemployment

Unemployment and Full Employment

Frictional Unemployment

Structural Unemployment

Cyclical Unemployment

natural Unemployment

Real Gdp and Unemployment over the Cycle

The Price Level, Inflation, and Deflation

Why Inflation and Deflation Are Problems

The Consumer Price Index

Reading the Cpi Numbers

Constructing the Cpi

Measuring the Inflation Rate

Distinguishing High Inflation from a High Price Level

The Biased Cpi

Alternative Price Indexes

Consequences and Magnitude of Bias

Core Inflation

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Part 8: Macroeconomic Trends

Chapter 23: Economic Growth

Table of Contents

The Basics of Economic Growth

- Calculating Growth Rates
- Economic Growth Versus Business Cycle Expansion
- The Magic of Sustained Growth
- Applying the Rule of 70

Long-term Growth Trends

- Long-term Growth in the U.S. Economy
- Real Gdp Growth in the World Economy

How Potential Gdp Grows

- What Determines Potential Gdp?
- What Makes Potential Gdp Grow?

Why Labor Productivity Grows

- Preconditions for Labor Productivity Growth
- Physical Capital Growth
- Human Capital Growth
- Technological Advances
- Robots Raise Labor Productivity

Is Economic Growth Sustainable? Theories, Evidence, and Policies

- Classical Growth Theory
- Neoclassical Growth Theory
- New Growth Theory
- New Growth Theory Versus Malthusian Theory
- Sorting Out the Theories
- The Empirical Evidence on the Causes of Economic Growth
- Policies for Achieving Faster Growth

Worked Problem

Summary

- Key Points
- Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 24: Finance, Saving, And Investment

Financial Markets and Financial Institutions

- Finance and Money
- Capital and Financial Capital
- Capital and Investment
- Wealth and Saving
- Financial Capital Markets
- Financial Institutions
- Funds That Finance Investment

Financial Decisions and Risks

Table of Contents

- The Time Value of Money
- Net Present Value
- The Decision Rule
- Financial Risk: Insolvency and Illiquidity
- Market Risk: Interest Rates and Asset Prices
- Getting Real

The Loanable Funds Market

- The Demand for Loanable Funds
- The Supply of Loanable Funds
- Equilibrium in the Loanable Funds Market
- Changes in Demand and Supply

Government in the Loanable Funds Market

- A Government Budget Surplus
- A Government Budget Deficit

Worked Problem

Summary

- Key Points
- Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 25: Money, the Price Level, And Inflation

What Is Money?

- Medium of Exchange
- Unit of Account
- Store of Value
- Money in the United States Today

Depository Institutions

- Types of Depository Institutions
- What Depository Institutions Do
- Economic Benefits Provided by Depository Institutions
- How Depository Institutions Are Regulated
- Fractional-reserve Banking Versus 100 Percent Reserve Banking
- Financial Technology

The Federal Reserve System

- The Structure of the Fed
- The Fed's Balance Sheet
- The Fed's Policy Tools

How Banks Create Money

- Creating Deposits by Making Loans
- The Money Creation Process

Table of Contents

The Money Multiplier

A Massive Open Market Operation

The Money Market

The Demand for Money

Changes in the Demand for Money

The Supply of Money

Money Market Equilibrium

The Quantity Theory of Money

Mathematical Note

The Money Multiplier

The U.S. Money Multiplier

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 26: The Exchange Rate and the Balance of Payments

The Foreign Exchange Market

Trading Currencies

Exchange Rates

Questions About the U.S. Dollar Exchange Rate

An Exchange Rate Is a Price

The Demand for One Money Is the Supply of Another Money

Demand in the Foreign Exchange Market

Demand Curve for U.S. Dollars

Supply in the Foreign Exchange Market

Supply Curve for U.S. Dollars

Market Equilibrium

Changes in the Demand for U.S. Dollars

Changes in the Supply of U.S. Dollars

Changes in the Exchange Rate

Arbitrage, Speculation, and Market Fundamentals

Arbitrage

Speculation

Market Fundamentals

Exchange Rate Policy

Flexible Exchange Rate

Fixed Exchange Rate

Crawling Peg

Table of Contents

Financing International Trade

- Balance of Payments Accounts
- Borrowers and Lenders
- The Global Loanable Funds Market
- Debtors and Creditors
- Is U.S. Borrowing for Consumption?
- Current Account Balance
- Net Exports
- Where Is the Exchange Rate?

Worked Problem

Summary

- Key Points
- Key Terms

Problems and Applications

Additional Problems and Applications

Part 9: Macroeconomic Fluctuations

Chapter 27: Aggregate Supply and Aggregate Demand

Aggregate Supply

- Quantity Supplied and Supply
- Long-run Aggregate Supply
- Short-run Aggregate Supply
- Changes in Aggregate Supply

Aggregate Demand

- The Aggregate Demand Curve
- Changes in Aggregate Demand

Explaining Macroeconomic Trends and Fluctuations

- Short-run Macroeconomic Equilibrium
- Long-run Macroeconomic Equilibrium
- Economic Growth and Inflation in the AS-AD Model
- The Business Cycle in the AS-AD Model
- Fluctuations in Aggregate Demand
- Fluctuations in Aggregate Supply

Macroeconomic Schools of Thought

- The Classical View
- The Keynesian View
- The Monetarist View
- The Way Ahead

Worked Problem

Summary

- Key Points

Table of Contents

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 28: Expenditure Multipliers

Fixed Prices and Expenditure Plans

Expenditure Plans

Consumption and Saving Plans

Marginal Propensities to Consume and Save

Slopes and Marginal Propensities

Consumption as a Function of Real Gdp

Import Function

Real Gdp with a Fixed Price Level

Aggregate Planned Expenditure

Actual Expenditure, Planned Expenditure, and Real Gdp

Equilibrium Expenditure

Convergence to Equilibrium

The Multiplier

The Basic Idea of the Multiplier

The Multiplier Effect

Why Is the Multiplier Greater Than 1?

The Size of the Multiplier

The Multiplier and the Slope of the AE Curve

Imports and Income Taxes

The Multiplier Process

Business Cycle Turning Points

The Multiplier and the Price Level

Adjusting Quantities and Prices

Aggregate Expenditure and Aggregate Demand

Deriving the Aggregate Demand Curve

Changes in Aggregate Expenditure and Aggregate Demand

Equilibrium Real Gdp and the Price Level

Mathematical Note

The Algebra of the Keynesian Model

Aggregate Expenditure

Equilibrium Expenditure

The Multiplier

Government Expenditure Multiplier

Autonomous Tax Multiplier

Balanced Budget Multiplier

Exercise

Worked Problem

Table of Contents

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 29: The Business Cycle, Inflation, And Deflation

The Business Cycle

Mainstream Business Cycle Theory

Real Business Cycle Theory

Inflation Cycles

Demand-pull Inflation

Cost-push Inflation

Expected Inflation

Forecasting Inflation

Inflation and the Business Cycle

Deflation

What Causes Deflation?

What Are the Consequences of Deflation?

How Can Deflation Be Ended?

The Phillips Curve

The Short-run Phillips Curve

The Long-run Phillips Curve

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications

Part 10: Macroeconomic Policy

Chapter 30: Fiscal Policy

The Federal Budget

The Institutions and Laws

Highlights of the 2022 Budget

The Budget in Historical Perspective

Budget Balance and Debt

State and Local Budgets

Supply-side Effects of Fiscal Policy

Full Employment and Potential Gdp

The Effects of the Income Tax

Table of Contents

- Taxes on Expenditure and the Tax Wedge
- Taxes and the Incentive to Save and Invest
- Tax Revenues and the Laffer Curve
- The Supply-side Debate

Generational Effects of Fiscal Policy

- Generational Accounting and Present Value
- The Social Security Time Bomb
- Generational Imbalance
- International Debt

Fiscal Stimulus

- Automatic Fiscal Policy and Cyclical and Structural Budget Balances
- Discretionary Fiscal Stimulus

Worked Problem

Summary

- Key Points
- Key Terms

Problems and Applications

Additional Problems and Applications

Chapter 31: Monetary Policy

Monetary Policy Objectives and Framework

- Monetary Policy Objectives
- Operational stable Prices Goal
- Operational maximum Employment Goal
- Responsibility for Monetary Policy

The Conduct of Monetary Policy

- The Monetary Policy Instruments
- Monetary Policy Decisions
- Hitting the Federal Funds Rate Target
- Fomc Inflation Hawks and Doves

Monetary Policy Transmission

- Quick Overview
- Changes in Money and Loans
- Changes in Interest Rates
- The Change in Aggregate Demand, Real Gdp, and the Price Level
- Changes in Real Gdp, Unemployment, and Inflation
- The Fed Fights Recession
- The Fed Fights Inflation
- Loose Links and Long and Variable Lags
- Policy Strategies and Clarity

Financial Crisis: Cure and Prevention

Table of Contents

The Anatomy of the Financial Crisis

The Feds Policy Actions in Crisis

Congress Policy Actions in Crisis

Macroprudential Regulation

Worked Problem

Summary

Key Points

Key Terms

Problems and Applications

Additional Problems and Applications
