About the Author

THE CORE

Introduction

Chapter 1 A Tour of the World

1-1 The Crisis

1-2 The Euro Area

Can European Unemployment Be Reduced?

What Has the Euro Done for Its Members?

1-3 The United States

Do Policymakers Have the Tools to Handle the Next Recession?

How Worrisome Is Low Productivity Growth?

1-4 China

1-5 Looking Ahead

Appendix 1: Where to Find the Numbers

Appendix 2: What Do Macroeconomists Do?

Chapter 2 A Tour of the Book

2-1 Aggregate Output

GDP: Production and Income

Nominal and Real GDP

GDP: Level versus Growth Rate

2-2 The Unemployment Rate

Table of Contents

Why Do Economists Care about Unemployment?

2-3 The Inflation Rate

The GDP Deflator

The Consumer Price Index

Why Do Economists Care about Inflation?

2-4 Output, Unemployment, and the Inflation Rate: Okun's Law and the Phillips Curve

Okun's Law

The Phillips Curve

2-5 The Short Run, the Medium Run, and the Long Run

2-6 A Tour of the Book

The Core

Extensions

Back to Policy

Epilogue

Appendix: The Construction of Real GDP and Chain-Type Indexes

The Short Run

Chapter 3 The Goods Market

3-1 The Composition of GDP

3-2 The Demand for Goods

Consumption (C)

Investment (I)

Government Spending (G)

3-3 The Determination of Equilibrium Output

Using Algebra

Using a Graph

Using Words

How Long Does It Take for Output to Adjust?

3-4 Investment Equals Saving: An Alternative Way of Thinking about Goods-Market Equilibrium

3-5 Is the Government Omnipotent? A Warning

Chapter 4 Financial Markets I

4-1 The Demand for Money

Deriving the Demand for Money

4-2 Determining the Interest Rate: I

Money Demand, Money Supply, and the Equilibrium Interest Rate

Monetary Policy and Open Market Operations

Choosing Money or Choosing the Interest Rate?

4-3 Determining the Interest Rate: II

What Banks Do

The Demand for and Supply of Central Bank Money

The Demand for Central Bank Money

The Federal Funds Market and the Federal Funds Rate

Table of Contents

4-4 The Liquidity Trap

Chapter 5 Goods and Financial Markets: The IS-LM Model

5-1 The Goods Market and the IS Relation

Investment, Sales, and the Interest Rate

Determining Output

Deriving the IS Curve

Shifts of the IS Curve

5-2 Financial Markets and the LM Relation

Real Money, Real Income, and the Interest Rate

Deriving the LM Curve

5-3 Putting the IS and LM Relations Together

Fiscal Policy

Monetary Policy

5-4 Using a Policy Mix

5-5 How Does the IS-LM Model Fit the Facts?

Chapter 6 Financial Markets II: The Extended IS-LM Model

6-1 Nominal versus Real Interest Rates

Nominal and Real Interest Rates in the United States since 1978

Nominal and Real Interest Rates: The Zero Lower Bound and Deflation

6-2 Risk and Risk Premia

6-3 The Role of Financial Intermediaries

The Choice of Leverage

Leverage and Lending

6-4 Extending the IS-LM Model

Financial Shocks and Policies

6-5 From a Housing Problem to a Financial Crisis

Housing Prices and Subprime Mortgages

The Role of Financial Intermediaries

Macroeconomic Implications

Policy Responses

The Medium Run

Chapter 7 The Labor Market

7-1 A Tour of the Labor Market

The Large Flows of Workers

7-2 Movements in Unemployment

7-3 Wage Determination

Bargaining

Efficiency Wages

Wages, Prices, and Unemployment

The Expected Price Level

Table of Contents

The Unemployment Rate

The Other Factors

7-4 Price Determination

7-5 The Natural Rate of Unemployment

The Wage-Setting Relation

The Price-Setting Relation

Equilibrium Real Wages and Unemployment

7-6 Where We Go from Here

Appendix: Wage- and Price-Setting Relations versus Labor Supply and Labor Demand

Chapter 8 The Phillips Curve, the Natural Rate of Unemployment, and Inflation

8-1 Inflation, Expected Inflation, and Unemployment

8-2 The Phillips Curve and Its Mutations

The Original Phillips Curve

The De-anchoring of Expectations

The Re-anchoring of Expectations

8-3 The Phillips Curve and the Natural Rate of Unemployment

8-4 A Summary and Many Warnings

Variations in the Natural Rate over Time

Variations in the Natural Unemployment Rate across Countries

High Inflation and the Phillips Curve

Deflation and the Phillips Curve

Appendix: Derivation of the Relation Between Inflation, Expected Inflation, and Unemployment

Chapter 9 From the Short to the Medium Run: The IS-LM-PC Model

9-1 The IS-LM-PC Model

9-2 From the Short to the Medium Run

9-3 Complications and How Things Can Go Wrong

The Zero Lower Bound and Deflation Spirals

9-4 Fiscal Consolidation Revisited

9-5 The Effects of an Increase in the Price of Oil

Effects on the Natural Rate of Unemployment

9-6 Conclusions

The Short Run versus the Medium Run

Shocks and Propagation Mechanisms

The Long Run

Chapter 10 The Facts of Growth

10-1 Measuring the Standard of Living

10-2 Growth in Rich Countries since 1950

The Large Increase in the Standard of Living since 1950

The Convergence of Output per Person

Table of Contents

10-3 A Broader Look across Time and Space

Looking across Two Millennia

Looking across Countries

10-4 Thinking about Growth: A Primer

The Aggregate Production Function

Returns to Scale and Returns to Factors

Output per Worker and Capital per Worker

The Sources of Growth

Chapter 11 Saving, Capital Accumulation, and Output

11-1 Interactions between Output and Capital

The Effects of Capital on Output

The Effects of Output on Capital Accumulation

Output and Investment

Investment and Capital Accumulation

11-2 The Implications of Alternative Saving Rates

Dynamics of Capital and Output

The Saving Rate and Output

The Saving Rate and Consumption

11-3 Getting a Sense of Magnitudes

The Effects of the Saving Rate on Steady-State Output

The Dynamic Effects of an Increase in the Saving Rate

The US Saving Rate and the Golden Rule

11-4 Physical versus Human Capital

Extending the Production Function

Human Capital, Physical Capital, and Output

Endogenous Growth

Appendix: The Cobb-Douglas Production Function and the Steady State

Chapter 12 Technological Progress and Growth

12-1 Technological Progress and the Rate of Growth

Technological Progress and the Production Function

Interactions between Output and Capital

Dynamics of Capital and Output

Back to the Effects of the Saving Rate

12-2 The Determinants of Technological Progress

The Fertility of the Research Process

The Appropriability of Research Results

Innovation versus Imitation

12-3 Institutions, Technological Progress, and Growth

Appendix: How to Measure Technological Progress, and the Application to China

Chapter 13 The Challenges of Growth

13-1 The Future of Technological Progress

Table of Contents

13-2 Robots and Unemployment

13-3 Growth, Churn, and Inequality

The Increase in Wage Inequality

The Causes of Increased Wage Inequality

Inequality and the Top 1%

Growth and Inequality

13-4 Climate Change and Global Warming

EXTENSIONS

Expectations

Chapter 14 Financial Markets and Expectations

14-1 Expected Present Discounted Values

Computing Expected Present Discounted Values

A General Formula

Using Present Values: Examples

Constant Interest Rates

Constant Interest Rates and Payments

Constant Interest Rates and Payments Forever

Zero Interest Rates

Nominal versus Real Interest Rates and Present Values

14-2 Bond Prices and Bond Yields

Bond Prices as Present Values

Arbitrage and Bond Prices

From Bond Prices to Bond Yields

Reintroducing Risk

Interpreting the Yield Curve

14-3 The Stock Market and Movements in Stock Prices

Stock Prices as Present Values

The Stock Market and Economic Activity

A Monetary Expansion and the Stock Market

An Increase in Consumer Spending and the Stock Market

14-4 Risk, Bubbles, Fads, and Asset Prices

Stock Prices and Risk

Asset Prices, Fundamentals, and Bubbles

Appendix: Deriving the Expected Present Discounted Value Using Real or Nominal Interest Rates

Chapter 15 Expectations, Consumption, and Investment

15-1 Consumption

The Very Foresighted Consumer

An Example

Toward a More Realistic Description

Putting Things Together: Current Income, Expectations, and Consumption

15-2 Investment

Table of Contents

Investment and Expectations of Profit

Depreciation

The Present Value of Expected Profits

The Investment Decision

A Convenient Special Case

Current versus Expected Profit

Profit and Sales

15-3 The Volatility of Consumption and Investment

Appendix: Derivation of the Expected Present Value of Profits under Static Expectations

Chapter 16 Expectations, Output, and Policy

16-1 Expectations and Decisions: Taking Stock

Expectations, Consumption, and Investment Decisions

Expectations and the IS Relation

16-2 Monetary Policy, Expectations, and Output

Monetary Policy Revisited

16-3 Deficit Reduction, Expectations, and Output

The Role of Expectations about the Future

Back to the Current Period

The Open Economy

Chapter 17 Openness in Goods and Financial Markets

17-1 Openness in Goods Markets

Exports and Imports

The Choice between Domestic Goods and Foreign Goods

Nominal Exchange Rates

From Nominal to Real Exchange Rates

From Bilateral to Multilateral Exchange Rates

17-2 Openness in Financial Markets

The Balance of Payments

The Choice between Domestic and Foreign Assets

Interest Rates and Exchange Rates

17-3 Conclusions and a Look Ahead

Chapter 18 The Goods Market in an Open Economy

18-1 The IS Relation in the Open Economy

The Demand for Domestic Goods

The Determinants of C , I , and G

The Determinants of Imports

The Determinants of Exports

Putting the Components Together

18-2 Equilibrium Output and the Trade Balance

18-3 Increases in Demand Domestic or Foreign

Table of Contents

Increases in Domestic Demand

Increases in Foreign Demand

Fiscal Policy Revisited

18-4 Depreciation, the Trade Balance, and Output

Depreciation and the Trade Balance: the Marshall-Lerner Condition

The Effects of a Real Depreciation

Combining Exchange Rate and Fiscal Policies

18-5 Saving, Investment, and the Current Account Balance

Appendix: Derivation of the Marshall-Lerner Condition

Chapter 19 Output, the Interest Rate, and the Exchange Rate

19-1 Equilibrium in the Goods Market

19-2 Equilibrium in Financial Markets

Domestic Bonds versus Foreign Bonds

19-3 Putting Goods and Financial Markets Together

19-4 The Effects of Policy in an Open Economy

The Effects of Monetary Policy in an Open Economy

The Effects of Fiscal Policy in an Open Economy

19-5 Fixed Exchange Rates

Pegs, Crawling Pegs, Bands, the EMS, and the Euro

Monetary Policy When the Exchange Rate Is Fixed

Fiscal Policy When the Exchange Rate Is Fixed

Appendix: Fixed Exchange Rates, Interest Rates, and Capital Mobility

Chapter 20 Exchange Rate Regimes

20-1 The Medium Run

The IS Relation under Fixed Exchange Rates

Equilibrium in the Short and the Medium Run

The Case for and against a Devaluation

20-2 Exchange Rate Crises under Fixed Exchange Rates

20-3 Exchange Rate Movements under Flexible Exchange Rates

Exchange Rates and the Current Account

Exchange Rates and Current and Future Interest Rates

Exchange Rate Volatility

20-4 Choosing between Exchange Rate Regimes

Common Currency Areas

Hard Pegs, Currency Boards, and Dollarization

Appendix 1: Deriving the IS Relation under Fixed Exchange Rates

Appendix 2: The Real Exchange Rate and Domestic and Foreign Real Interest Rates

Back to Policy

Chapter 21 Should Policymakers Be Restrained?

21-1 Uncertainty and Policy

Table of Contents

How Much Do Macroeconomists Actually Know?
Should Uncertainty Lead Policymakers to Do Less?
Uncertainty and Restraints on Policymakers

21-2 Expectations and Policy

Hostage Takings and Negotiations
Inflation and Unemployment Revisited
Establishing Credibility
Time Consistency and Restraints on Policymakers

21-3 Politics and Policy

Games between Policymakers and Voters
Games between Policy-makers
Politics and Fiscal Restraints

Chapter 22 Fiscal Policy: A Summing Up

22-1 What We Have Learned

22-2 The Government Budget Constraint: Deficits, Debt, Spending, and Taxes

The Arithmetic of Deficits and Debt
Current versus Future Taxes
Full Repayment in Year 2
Full Repayment in Year t
Debt Stabilization in Year 2
The Evolution of the Debt-to-GDP Ratio

22-3 Ricardian Equivalence, Cyclical Adjusted Deficits, and War Finance

Ricardian Equivalence
Deficits, Output Stabilization, and the Cyclically Adjusted Deficit
Wars and Deficits

22-4 The Dangers of High Debt

High Debt, Default Risk, and Vicious Cycles
Debt Default
Money Finance

22-5 The Challenges Facing US Fiscal Policy Today

Chapter 23 Monetary Policy: A Summing Up

23-1 What We Have Learned

23-2 From Money Targeting to Inflation Targeting

Money Targeting
Inflation Targeting
The Interest Rate Rule

23-3 The Optimal Inflation Rate

The Costs of Inflation
The Benefits of Inflation
The Optimal Inflation Rate: The State of the Debate

23-4 Unconventional Monetary Policy

Table of Contents

Monetary Policy since the End of the Liquidity Trap

23-5 Monetary Policy and Financial Stability

Liquidity Provision and Lender of Last Resort

Macroprudential Tools

Chapter 24 Epilogue: The Story of Macroeconomics

24-1 Keynes and the Great Depression

24-2 The Neoclassical Synthesis

Progress on All Fronts

Keynesians versus Monetarists

24-3 The Rational Expectations Critique

The Three Implications of Rational Expectations

The Integration of Rational Expectations

24-4 Developments in Macroeconomics up to the 2009 Crisis

New Classical Economics and Real Business Cycle Theory

New Keynesian Economics

New Growth Theory

Toward an Integration

24-5 First Lessons for Macroeconomics after the Crisis

Appendix 1 An Introduction to the National Income and Product Accounts

Appendix 2 A Math Refresher

Appendix 3 An Introduction to Econometrics
