Preface to the <i>Oklahoma Notes</i>	v
Preface	vii

General Pathology

Principles of Cell/Tissue Injury	1
Principles of Fluid Balance and Hemodynamics	8
Principles of Inflammation	13
Principles of Wound Healing and Tissue Repair	18
Principles of Neoplasia	21

Systemic Pathology

Cardiovascular System	29
Congestive Heart Failure	29
Congenital Heart Disorders	30
Atherosclerosis	32
Ischemic Heart Disease/Coronary Heart Disease	35
Rheumatic Fever/Rheumatic Heart Disease	38
Endocardial/Valvular Heart Disease	39
Myocardial Heart Disease	41
Pericardial Heart Disease	42
Cardiac Neoplasms	43
Vascular Disease	44
Respiratory Tract	48
Congenital Disorders	48
Respiratory Distress Syndromes	49
Inflammatory Disorders	50
Chronic Obstructive Pulmonary Disease	54
Restrictive Pulmonary Diseases	56
Respiratory Tract Neoplasms	57
Hematopoietic/Lymphoreticular Systems	60
Basic Laboratory Hematology	60
Coagulation Disorders	62
Anemia	66
Acute Leukemia	68
Myelodysplastic Syndromes	70
Myeloproliferative Syndromes	72
Lymphoproliferative Disorders	73

Immunosecretory Disorders	73
Malignant Lymphomas	75
Histiocytoses	79
Thymic Disorders	79
Endocrine System	81
General Principles	81
Pituitary	81
Thyroid	84
Parathyroid	89
Adrenal Cortex	90
Endocrine Pancreas	93
Diffuse Endocrine System	96
Multiple Endocrine Neoplasia Syndromes	97
Breast	98
Fibrocystic Change	99
Neoplasms	100
Female Genital Tract	104
Sexually Transmitted Diseases	104
Vulva/Vagina	105
Cervix	107
Uterus	109
Fallopian Tubes	111
Ovary	112
Gestational Trophoblastic Neoplasms	117
Male Genital Tract	118
Penis	118
Testis	118
Prostate	120
Urinary Tract	122
Congenital/Developmental Disorders	122
Glomerular Disease	124
Pyelonephritis	127
Hypertension	127
Acute Renal Failure	128
Chronic Renal Failure	129
Renal Neoplasms	129
Renal Manifestations of Systemic Disease	130
Urinary Bladder	131
Gastrointestinal Tract	132
Esophagus	132
Stomach	134
Small Bowel/Colon/Rectum	137
Hepatobiliary System and Exocrine Pancreas	147
Bilirubin Metabolism/Jaundice	147
Inflammatory Disease	151
Cirrhosis	154

Hepatic Neoplasia	156
Hepatic Failure	158
Gallbladder and Biliary Tract	158
Exocrine Pancreas	161
Skin	163
Acute Inflammatory Disease	163
Infectious Disease	164
Papulosquamous Disease	165
Vesiculobullous Disease	166
Connective Tissue (Autoimmune) Disorders	167
Epidermal Tumors and Tumor-like Conditions	168
Dermal Tumors and Infiltrates	170
Melanocytic Tumors	171
Skeletal System	173
Congenital Disorders	173
Metabolic Bone Disorders	173
Bone Neoplasia	174
Joint Disorders	175
Neuromuscular System	177
Reaction to Injury	178
Traumatic Injury	179
Vascular Disease	180
Infectious Disease	183
Dementia and Degenerative Disease	186
Demyelinating Disease	187
Metabolic Disease	187
CNS Neoplasia	188
Peripheral Nervous System	191
Skeletal Muscle	192
