

Table of Contents

Invited Keynotes

Demands and Perspectives for Future Software Engineers: An Industrial Viewpoint.....	1
<i>H. Schwärtzel</i>	

Why We Need Object Databases.....	3
<i>F. Bancilhon</i>	

A Personal Commitment to Software Quality.....	5
<i>W. S. Humphrey</i>	

Business Process (Re-) Engineering

Distributed Modeling and Distributed Enaction of Business Processes.....	8
<i>G. Graw, V. Gruhn</i>	

Improvise: Interactive Multimedia Process Visualization Environment.....	28
<i>N. S. Barghouti, E. Koutsofios and E. Cohen</i>	

Design Process Improvement Case Study Using Process Waiver Data.....	44
<i>L. G. Votta and M. L. Zajac</i>	

Real-Time

Using a Symbolic Model Checker for Verify Safety Properties in SA/RT Models.....	59
<i>J. Tuya, L. Sánchez, J. A. Corrales</i>	

Instrumentation of Synchronous Reactive Models for Performance Engineering.....	76
<i>A. ValderrutenVidal, M. Vilares Ferro and J. Graña Gil</i>	

A Formal Framework for ASTRAL Inter-level Proof Obligations.....	90
<i>A. Coen-Porisini, R. A. Kemmerer, D. Mandrioli</i>	

Metrics

An Objective Reuse Metric: Model and Methodology.....	109
<i>Y.-F. Chen, B. Krishnamurthy and K.-P. Vo</i>	
Measuring Product Attributes of Object-Oriented Systems.....	124
<i>M. Hitz and B. Montazeri</i>	

Concurrency

Specifying Distributed Software Architectures.....	137
<i>J. Magee, N. Dulay, S. Eisenbach and J. Kramer</i>	
A Specification-Based Methodology for Testing Concurrent Programs.....	154
<i>K.-C. Tai, R. H. Carver</i>	

Version and Configuration Management

Dynamic Configuration Abstraction.....	173
<i>I. Warren and I. Sommerville</i>	
Handling Version Sets Through Feature Logic.....	191
<i>A. Zeller and G. Snelting</i>	
Integrating Incremental Analysis with Version Management.....	205
<i>T. A. Wagner and S. L. Graham</i>	

Formal Methods

Graph Grammar Engineering with PROGRES.....	219
<i>A. Schürr, A. J. Winter, A. Zündorf</i>	
A Structured Analysis Formalism with Execution Semantics to Allow Unambiguous Model Interpretation.....	235
<i>C. Gaskell and R. Phillips</i>	
An Integrated Formal Model of Scenarios Based on Statecharts.....	254
<i>M. Glinz</i>	

Support of the Design Process

Tool Support for Formal Software Development:

A Generic Architecture.....	272
<i>M. Heisel, T. Santen, D. Zimmermann</i>	

The Treatment of Non-Functional Requirements in MIKE.....	294
<i>D. Landes and R. Studer</i>	

Supporting Design Rationale for System Evolution.....	307
<i>S. Monk, I. Sommerville, J. M. Pendaries and B. Durin</i>	

Program Analysis

PQL: A Language for Specifying Abstract Program Views.....	324
<i>S. Jarzabek.....</i>	

An Exploratory Study of Program Metrics as Predictors of Reachability Analysis Performance.....	343
<i>A. T. Chamillard</i>	

An Empirical Evaluation of Three Defect-Detection Techniques.....	362
<i>E. Kamsties and C. M. Lott</i>	

Quality

Assessing the Quality of Large, Software-Intensive Systems: A Case Study.....	384
<i>A. W. Brown, D. J. Carney, P. C. Clements, B. C. Meyers, D. B. Smith, N. H. Weideman and W. G. Wood</i>	

The Impact of Incremental Delivery on Maintenance Effort: An Analytical Study.....	405
<i>P. Hsia, C.-T. Hsu, D. C. Kung and A. T. Yaung</i>	

Metrics for Quality Factors in the LESD Project.....	423
<i>N. Castell and O. Slavkova</i>	

Quantitative Evaluations of Software Quality Built in with Domain-specific Disciplines.....	438
<i>M. J. Matsumoto</i>	

Object-Oriented Software Development

Component Programming - a Fresh Look at Software Components.....	457
<i>M. Jazayeri</i>	
Designing a Framework by Stepwise Generalization.....	479
<i>K. Koskimies and H. Mössenböck</i>	
Object-Oriented Re-Architecting.....	498
<i>H. Gall, R. Klösch and R. Mittermeir</i>
