Preface	v
General introduction (<i>Erhard Scholz</i>)	1
 I Historical Aspects of Weyl's <i>Raum – Zeit – Materie</i>	
1 Journeys in spacetime (<i>Skúli Sigurdsson</i>)	15
2 Weyls Infinitesimalgeometrie, 1917–1925 (<i>Erhard Scholz</i>)	48
3 Weyl's contributions to cosmology (<i>Hubert Goenner</i>)	105
4 Ursprünge der Eichtheorien (<i>Norbert Straumann</i>)	138
 II Hermann Weyl: Mathematician, Physicist, Philosopher <i>(Robert Coleman and Herbert Korté)</i>	
1 Introduction	161
2 The young analyst	165
3 Riemann surfaces	182
4 Spacetime	198
5 Group theory and its applications	271
6 Foundations of mathematics	315
 III Appendices	
Common Weyl Bibliography	389
Authors	399
Index	401
