

Contents

Preface	vii
Acknowledgement	ix
List of Contributors	xi

Part I: Mean Field

<i>A. Bovier and I. Kurkova</i>	
A Short Course on Mean Field Spin Glasses	3
<i>G. Ben Arous and A. Kuptsov</i>	
REM Universality for Random Hamiltonians	45
<i>J. Černý</i>	
Another View on Aging in the REM	85
<i>P. Contucci, C. Giardinà and H. Nishimori</i>	
Spin Glass Identities and the Nishimori Line	103
<i>L. De Sanctis and S. Franz</i>	
Self-averaging Identities for Random Spin Systems	123
<i>T. Rizzo</i>	
Chaos in Mean-field Spin-glass Models	143
<i>A. Hanen</i>	
A non Gaussian Limit Law for the Covariances of Spins in a SK Model with an External Field	159
<i>A. Hanen</i>	
A Limit Theorem for Mean Magnetisation in the Sherrington–Kirkpatrick Model with an External Field	177

Part II: Non-mean Field

<i>J. Machta, C.M. Newman and D.L. Stein</i>	
A Percolation-theoretic Approach to Spin Glass Phase Transitions	205
<i>C. Chamon and L.F. Cugliandolo</i>	
Fluctuations in Finite-dimensional Spin-glass Dynamics	225

Part III: Disordered Pinning Models*G. Giacomini*

Renewal Sequences, Disordered Potentials, and Pinning Phenomena	235
--	-----

H. Lacoïn and F.L. Toninelli

A Smoothing Inequality for Hierarchical Pinning Models	271
--	-----
