Preface

Chapter 1: Bioceramics

Effect of Sintering Temperature on the Properties of Calcia-Stabilized Zirconia (Ca-SZ) Bioceramics	
A.S. Johari, Z.A. Ghani, K.A. Shariff and T. Liszen	3
The Effect of Glazing, Reglazing, and Polishing on Zirconia Biaxial Flexural Strength	
S.N.I. Farhani, T. Sumarsongko and L. Damayanti	12
Upscaling of CaO Derived from Cockle Shells as Stabilizer for Zirconia with Improved Properties for Dental Applications	
N.A.A. Abd Wahab, Z.A. Ghani, K.A. Shariff, A. Husein and A.I. Hussein	19
Carbonate Apatite Crystal Formation in Novel Endodontic Sealer	
E. Megasari, H.D.A. Dharsono, M.N. Zakaria, S. Pramudita and A. Cahyanto	26

Chapter 2: Composite Materials

Hardness and Compressive Strength Evaluation of Dental Composites Containing Biosilica-Encapsulated Healing Liquid	
S. Wang, V. Takarini, R.M. Putri and L.A.T.W. Asri	35
Morphology, Crystal Size and Crystallinity Degree of Silica-Calcium Phosphate Composite (S) and Apatite Cement Formulation - <i>In Vitro</i> Bioactivity Test	
I. Artilia, A.N. Sidiqa, Z.P. Fakhira, M.N. Zakaria, A. El-Ghannam and A. Cahyanto	44
Potency of Banana (<i>Musa acuminata</i> Linn.) Stem Fiber as a Reinforcement Material for Heat Cured Acrylic Resin	
S.A. Harahap, A. Yudhit and F.K. Wardani	52
Effect of Hydroxyapatite Synthesized from Tilapia Fish Scale Waste on the Shear Bond Strength of GIC and RMGIC to Enamel Layer (<i>In Vitro</i> Study)	
K.I. Harahap, H. Rahmi and M. Winni	58
Tensile Strength and Shore Hardness Evaluation in Clean Grade Silicone with Nanosilica Filler Reinforcement as an Alternative for Maxillofacial Prosthesis Materials	
I. Kiantoro, T. Sumarsongko, L. Damayanti and V. Takarini	67
Cytotoxicity Evaluation on Clean Grade Silicone Reinforced with Nanosilica Filler as an Alternative Maxillofacial Prosthesis	
F. Atsari, L. Damayanti, A. Adenan and V. Takarini	75
The Effect of Horn Beetle Nano Chitosan (<i>Xylotrupes gideon</i>) on the Surface Roughness of Glass-Ionomer Cement	
F. Livia, R. Tjandrawinata, C.D. Marpaung, D. Pratiwi and K. Komariah	82
Acid Buffer Capacity and Compressive Strength of Bioactive Restorative Materials in the Cariogenic pH Solution	
Y.K. Eriwati, W.A. Hanyouri, M. Dharma and B. Irawan	88

Chapter 3: Surface and Interface Engineering

The Influence of Metal Coping Design on Fracture Resistance of Porcelain-Fused-to-Metal Crown	
M. Volvina, T. Sumarsongko and D. Firman	97
Calcium Carbonate Coating on Ti by Transformation of CaO Coating Produced by Sandblasting	
B.T. Le, L.B. Duc, N.H.T. Nguyen and Eddy	107
Evaluation of Zirconia Surface Roughness after Different Surface Treatment with Sandblasting, Hydrofluoric Acid Etching, and Combination Treatment	
N.S. Rizky, R. Rikmasari and S. Bonifacius	113

Chapter 4: Auxiliary Materials and Technologies in Dentistry

Effects of Red Dragon Fruit on Color Stability of Self-Adhesive Flowable Composite R. Tjandrawinata, B. Heidy and Octarina	123
Inhibitory Effect of Medicament Camphorated Parachlorophenol to Bacteria in Chronic Apical Abscess D. Prisinda and Y. Malinda	130
Growth Inhibition of <i>Streptococcus mutans</i> by Fluoride Varnish Containing <i>Averrhoa bilimbi</i> L. and <i>Piper crocatum</i> Leaves Extracts M. Gabriella, Y.K. Eriwati and H. Hermansyah	138
Surface Roughness of Artificial Teeth after Immersion in Coffee Solution and Denture Cleaning F. Yunisa, N. Sari and N.W. Nursyahbani	145
Technical Surfactant Effect on Precipitation Method of Glutinous Rice Flour Filler Size Reduction V. Takarini, L.A.T.W. Asri, N. Djustiana and B.K. Hadi	153
Orthodontic Bracket Friction Affected by Design Selection Material and Manufacturing Process T. Prasetyadi, B. Irawan, M.K. Purwanegara, B. Suharno and S. Supriadi	159
