

Contents

1 Introduction	1
2 Normal Testicular Descent	2
2.1 Two-Stage Hypothesis	3
2.2 Role of Müllerian Inhibiting Substance/ Anti-Müllerian Hormone	8
2.3 Genitofemoral Nerve Hypothesis	15
2.4 Role of Calcitonin Gene-Related Peptide	17
2.5 Hypothesis to Explain Normal Testicular Descent ..	23
3 Cryptorchidism	27
3.1 Animal Models	27
3.2 Hypotheses of Aetiology	31
3.3 Recognizable Causes of Cryptorchidism	33
3.4 Congenital vs Acquired Cryptorchidism	33
3.5 Effects of Cryptorchidism	36
4 Management of Cryptorchidism	39
4.1 Rationale for Treatment and Its Timing	39
4.2 Surgical Treatment	40
4.3 Hormonal Treatment	40
4.4 Possible New Approaches to Treatment	41
5 Conclusions	43
6 References	44
7 Subject Index	53
