

Table of contents

Structure data of elements and intermetallic phases

BRIGITTE EISENMANN, HERBERT SCHÄFER †

Abt. II für Anorganische Chemie der Technischen Hochschule, Darmstadt, FRG

Subvolume b, Part 2

1	Introduction	VIII
1.1	Subject matter	VIII
1.2	Arrangement of substances.	VIII
1.3	Selection and arrangement of specific data in the tables	VIII
1.4	List of space group symbols for various settings.	XIII
1.5	Alphabetical list of frequently used prototypes	XX
1.6	List of symbols and abbreviations.	XXIII
2	Tables (continued)	1
2.2	Dy–Er–Te···Te–Zr	1
3	Figures (continued).	424
4	Alphabetical index of mineral and common names for the compounds of Subvolume b, parts 1 and 2 (For references, see Subvolume b, part 1, page 444)	490

Subvolume b, Part 1

1	Introduction	VIII
1.1	Subject matter	VIII
1.2	Arrangement of substances.	VIII
1.3	Selection and arrangement of specific data in the tables	VIII
1.4	List of space group symbols for various settings.	XIII
1.5	Alphabetical list of frequently used prototypes	XX
1.6	List of symbols and abbreviations.	XXIII
2	Tables	1
2.1	Ag–Al–Cd–S···Cu–Te–Yb	1
3	Figures	404
4	References for part 1 and part 2	444
