Preface

Protein-lipid and lipid-lipid interactions in model systems and in biological membranes.	1
<i>A. Bienvenue, J. Sainte-Marie and L. Maurin</i>	
Dynamical properties of membranes: Application of fluorescent lipid analogs	11
<i>D. Hoekstra, T. Babia, M. Zegers, K. Zaal, E.G.J.M. Arts and J.W. Kok</i>	
The erythrocyte aminophospholipid translocase	35
<i>A.J. Schroit</i>	
Purification and substrate specificity of the human erythrocyte aminophospholipid transporter	49
<i>D.L. Daleke, J.V. Lyles, E. Nemergut and M.L. Zimmerman</i>	
Phospholipids in platelets: Localization, movement and physiological function	61
<i>A. Bienvenue, P. Gaffet and N. Bettache</i>	
Interactions of peptides with phospholipid vesicles: Fusion, leakage and flip-flop	71
<i>S. Nir, E. Fattal, R.A. Parente, J.L. Nieva, J. Wilschut and F.C. Szoka, Jr.</i>	
Molecular mechanisms of membrane fusion	97
<i>N. Düzgüneş</i>	
Entry of enveloped viruses into host cells: Fusion activity of the influenza virus hemagglutinin	131
<i>M.C. Pedroso de Lima, J. Ramalho-Santos, N. Düzgüneş, D. Flasher and S. Nir</i>	

Mass action model of virus fusion	155
<i>S. Nir, N. Düzgüneş, D. Hoekstra, J. Ramalho-Santos and M.C. Pedrosa de Lima</i>	
Viral membrane proteins as tools to study protein folding, assembly, and transport	171
<i>R.W. Doms, S.T. Abedon and T.M. Richardson, Jr.</i>	
Membrane fusion induced by the HIV <u>env</u> glycoprotein: Purification of CD4 for reconstitution studies	187
<i>C. Larsen, A. Patel and J. Bentz</i>	
Cycling of rab proteins: Role of rab GDI in the reversible membrane association of rab GTP-ases	201
<i>O. Ullrich and M. Zerial</i>	
Microtubule dependent transport and fusion of phagosomes with the endocytic pathway	211
<i>J.K. Burkhardt, A. Blocker, A. Jahraus and G. Griffiths</i>	
GTPases: Key regulatory components of the endocytic pathway	223
<i>M.A. Barbieri, M.I. Colombo, G. Li, L.S. Mayorga and P. Stahl</i>	
Glycolipids of cellular surfaces: Topology of metabolism, function and pathobiochemistry of glycolipid binding proteins	235
<i>K. Sandhoff and G. van Echten-Deckert</i>	
Niemann-Pick disease type A and B- Natural history of lysosomal sphingomyelinase	247
<i>K. Ferlinz and K. Sandhoff</i>	
Interaction of liposomes with cells <i>in vitro</i>	265
<i>K.-D. Lee and D. Papahadjopoulos</i>	
Molecular analysis of exocytosis in neurons and endocrine cells	285
<i>B. Höhne-Zell and M. Gratzl</i>	

Control of intracellular free calcium in neurons and endocrine cells	303
<i>K.J. Föhr, A. Mayerhofer and M. Gratzl</i>	
Membrane fusion in the exocytotic release of neurotransmitters	317
<i>C.R. Oliveira, M.T. Almeida and M.C. Pedroso de Lima</i>	
Recent advances in defining mannose receptor structure and function	333
<i>S.E. Pontow and P.D. Stahl</i>	
Cell cycle changes to the Golgi apparatus in animal cells	349
<i>G. Warren</i>	
Index	357
